Computing with Windows 7 for the Older and Wiser 2010-08-06 youth mentoring programs must change in order to become truly effective the world s leading expert shows how youth mentoring is among the most popular forms of volunteering in the world but does it work does mentoring actually help young people succeed in older and wiser mentoring expert jean rhodes draws on more than thirty years of empirical research to survey the state of the field her conclusion is sobering there is little evidence that most programs even renowned trusted and long established ones are effective but there is also much reason for hope mentoring programs rhodes writes do not focus on what young people need organizations typically prioritize building emotional bonds between mentors and mentees but research makes clear that effective programs emphasize the development of specific social emotional and intellectual skills most mentoring programs are poorly suited to this effort because they rely overwhelmingly on volunteers who rarely have the training necessary to teach these skills to young people moreover the one size fits all models of major mentoring organizations struggle to deal with the diverse backgrounds of mentees the psychological effects of poverty on children and increasingly

hard limits to upward mobility in an unequal world rhodes doesn't think we should give up on mentoring far from it she shows that evidence based approaches can in fact create meaningful change in young people's lives she also recommends encouraging organic mentorship opportunities in schools youth sports leagues and community organizations

Tips for Going Green 1942 still none the wiser is the final instalment of a memoir subtitled a mid century passage 1932 1967 part travel part biographical memoir part history it is as much a social and political record of the closing period of colonial west africa as an account of the quirks and foibles of the british and other expatriates at the end of empire in 1954 the author aged 22 thwarted in love in london joined an often eccentric group of expatriates who ran the oldest colonial bank in west africa in ghana and in nigeria he experienced the passing of an era eric robson the tv presenter wrote of none the wiser and its sequel set against an historical background of britain at war and mislaying an empire he gives us a fascinating glimpse of a lost world this final part of that memoir ends as harold macmillan's winds of change blow the white man out of africa the setting is a long gone africa which at its passing was known to few in earlier centuries of european contact the west african coast became the white man's grave when the author arrived it had become the white man's headache as the author rightly says this book is not for the faint hearted or the nervously disposed it is probably unsuitable for vegetarians and political correctness remained an unknown concept when many of the incidents he describes occurred it took many years in the writing and perusing of old notes and diaries names had to be changed not so much to protect the innocent who as always are few in number as much as to avoid offending the survivors among that fast dwindling band of those who were once known as old coasters it perhaps describes a more honest world than we live in today
