A Grammar of Biblical Hebrew: pt. 3. Syntax 1991 this classic introduction to textual criticism of the hebrew bible is now entirely updated the book examines the transmission of the biblical text in its original language the history of its translation the causes of corruption in the textual tradition and the proper principles and techniques of textual criticism

The Text of the Old Testament 1995 the phrase daughter of zion is in recent bible translations often rendered daughter zion the discussion behind this change has continued for decades but lacks proper linguistic footing parlance in grammars dictionaries commentaries and textbooks is often confusing the present book seeks to remedy this defect by treating all relevant expressions from a linguistic point of view to do this it also discusses the understanding of hebrew construct phrases and finds that while there is a morphological category of genitive in akkadian ugaritic and arabic hebrew aramaic and syriac do not display it the use of this term as a syntactical category is unfortunate and the term should be avoided in hebrew grammar metaphor theory and the use of irony are also tools in the discussion of the phrases as a result of the treatment the author finds that there are some hebrew construct phrases where nomen regens describes the following nomen rectum and the description may be metaphorical in some cases also ironical this seems to be the case with daughter of zion and similar phrases this understanding calls for a revision of the translation of the phrases and new translations are suggested

Pillars in the History of Biblical Interpretation, Volume 2 2016-11-03 this book suggests a regional paradigm for understanding the development of the traditions about egypt and the exodus in the hebrew bible it offers fresh readings of the golden calf stories in 1 kgs 12 25 33 and exod 32 the balaam oracles in num 22 24 and the song of the sea in exod 15 lb 18 and from these paints a picture of the differing traditions about egypt that circulated in cisjordan israel transjordan israel and judah in the 8th century b c e and earlier in the north an exodus from egypt was celebrated in the bethel calf cult as a journey of israelites from egypt to cisjordan without a detour eastward to sinai this exodus was envisioned in military terms as suggested by the nature of the polemic in exod 32 and the attribution of the exodus to the warrior yahweh israel's own deity in the east a tradition of deliverance from egypt was celebrated rather than the idea of a journey and it was credited to el in the south egypt was recognized as a major enemy whom yahweh had defeated but the traditions there were not formulated in terms of an exodus while acknowledging the reshaping of these traditions in response to the exile images of egypt argues that they originated in the pre exilic period and relate to syro palestinian history as it is otherwise known

Islam at 250 2020-05-25 thomas wetzel offers a new way to understand the violence and religious absence long emphasized in readings of the hebrew version of the esther story by tracing the vestiges of jewish liturgical activity described in the story as well as the story s reliance on the tradition of the divine combat myth the author uncovers a profound yet intentionally hidden religious sensibility within the story s narrative world these connections link the esther story to the great acts of deliverance in the larger biblical tradition but also bring into sharp focus the biblical view that israel s survival and sometimes violent deliverance remain the definitive sign of the lord s ongoing and active presence in creation the author s conclusion suggests that this understanding has profound implications for jewish christian dialogue and for the future existence and practice of the two communities
