cedilla continues the history of john cromer adventures sounds rather too hectic begun by pilcrow described by the london review of books as peculiar original utterly idiosyncratic and by the sunday times as truly exhilarating these huge and sparkling books are particularly surprising coming from a writer of previously let s be tactful modest productivity who had seemed stubbornly attached to small forms john cromer is the weakest hero in literature unless he s one of the strongest in cedilla he launches himself into the wider world of mainstream education and comes upon deeper joys subtler setbacks the tone and texture of the two books is similar but their emotional worlds are very different the slow unfolding of themes is perhaps closer to indian classical music than the western tradition raga saga anyone this isn t an epic novel as such things are normally understood to be sure it contains no physical battles and the bare minimum of travel yet surely it qualifies none of the reviews of pilcrow explicitly compared it to a coral reef made of a billion tiny crunchie bars but that was the drift of opinion page by page cedilla too provides unfailing pleasure
