*Manhood and the Making of the Military* 2014-10-28 the creation of finland's national conscription army in the wake of its independence from russia in 1917 aroused intense but conflicting emotions this book examines the struggles of a new army to find popular acceptance and support and explores the ways that images of manhood were used in the controversies ahlbäck places the situation of interwar finland within a broad european context to reveal the conflicts surrounding compulsory military service and the impact of the great war on masculinities and constructions of gender

*Salvific Manhood* 2019-10-01 salvific manhood foregrounds the radical power of male intimacy and vulnerability in surveying each of james baldwin's six novels asserting that manhood and masculinity hold the potential for both tragedy and salvation ernest l gibson iii highlights the complex and difficult emotional choices baldwin's men must make within their varied lives relationships and experiences in salvific manhood gibson offers a new and compelling way to understand the hidden connections between baldwin's novels thematically daring and theoretically provocative he presents a queering of salvation a nuanced approach that views redemption through the lenses of gender and sexuality exploring how fraternal crises develop out of sociopolitical forces and conditions salvific manhood theorizes a spatiality of manhood where spaces in between men are erased through expressions of intimacy and love positioned at the intersections of literary criticism queer studies and male studies gibson deconstructs baldwin's wrestling with familial love american identity suicide art incarceration and memory by magnifying the potent idea of salvific manhood ultimately salvific manhood calls for an alternate reading of baldwin's novels introducing new theories for understanding the intricacies of african american manhood and american identity all within a space where the presence of tragedy can give way to the possibility of salvation

*A Man by Any Other Name* 2023-09-01 few men of the civil war era were as complicated or infamous as william clarke quantrill most who know him recognize him as the architect of the confederate raid on lawrence kansas in august 1863 that led to the murder of 180 mostly unarmed men and boys before that though quantrill led a transient life shifting from one masculine form to another he played the role of fastidious schoolmaster rough frontiersman and even confidence man developing certain notions and skills on his way to becoming a proslavery bushwhacker quantrill remains impossible to categorize a man whose motivations have been difficult to pin down using new documents and old documents examined in new ways a man by any other name paints the most authentic portrait of quantrill yet rendered the detailed study of this man not only explores a one of a kind enigmatic figure but also allows us entry into many representative experiences of the civil war generation this picture brings to life a unique vision of antebellum life in the territories and a fresh view of guerrilla warfare on the border of even greater consequence

seeing quantrill in this way allows us to examine the perceived essence of american manhood in the mid nineteenth century
