television had until recently a social and cultural purpose the bbc and to a lesser extent itv and channel 4 were committed by the legal instruments establishing them to develop and maintain these purposes with the enlargement of the range of choices for viewers by digital television and the provision of access to cable and satellite tv and the internet the role of the terrestrial television channels is being diluted the authors examine the effects of this and consider whether anything can be done to maintain the standards and quality of television at a time of unlimited competition

Hearings, Reports and Prints of the House Committee on Interstate and Foreign Commerce 1996

this terrific memoir is utterly gripping mail on sunday read this book and be inspired to reach for the impossible brian greene many children dream of becoming an astronaut when they grow up but when a six year old mike massimino saw neil armstrong walk on the moon he knew what he wanted to do when he became an adult but nasa rejected him then when he applied again they turned him down because of his poor eyesight for the next year he trained his eyes to work better and finally at the third time of asking nasa accepted him so began massimino s 18 year career as an astronaut and the extraordinary lengths he went to to get accepted was only the beginning in this awe inspiring memoir he reveals the hard work camaraderie and sheer guts involved in the life of an astronaut he vividly describes what it is like to strap yourself into the space shuttle and blast off into space or the sensation of walking in space as he did when he completed a mission to service the hubble telescope he also talks movingly about the columbia tragedy and how it felt to step into the space shuttle again in the aftermath of that disaster massimino was inspired by the film the right stuff and this book is not only a tribute to those fellow astronauts he worked with but also a stunning example of someone who had exactly those attributes himself

in the media globe a diverse group of scholars follows emerging patterns in media beyond the united states identifying the issues and the potential impacts on democratic communication the authors assess the current tensions between global media practices and cultural norms further considering alternatives in global communication that could better integrate with these norms and practices given the rapid global consolidation of media and the reform of its regulatory agencies this reassessment is a timely read

Clear Close Vision - Reading, Seeing Fine Print Clear 2020-01-09

histories of science fiction often discuss Fritz Lang's *Metropolis* as a classic work within the genre yet the term science fiction had not been invented at the time of the film's release if the genre did not have a name did it exist does retroactive assignment to a genre change our understanding of a film do films shift in meaning and status as the name of a genre changes meaning over time these provocative questions are at the heart of this book whose thirteen essays examine the varying constructions of genre within film television and other entertainment media collectively the authors argue that generic labels are largely irrelevant or even detrimental to the works to which they are applied part one examines the meanings of genre and reveals how the media is involved in the production and dissemination of generic definitions part two considers specific films or groups of films and their relationships within various categorizations part three focuses on the closely tied concepts of history and memory as they relate to the perceptions of genre
