for one never boiled an egg before but want to learn the magic art of cooking then don t leave home without this survival cookbook be it healthy college cooking or cooking for a single person or even outdoor cooking this book helps you survive all situations by teaching you how to cook literally in a jiffy think college you have an offer from your dream college you do have accommodation in a nearby dorm hostel hall of residence apartment you think you can survive on take aways but realize that many a times you have to be on your own you know you can save some money and have healthier stuff if you could rustle up something yourself the problem you don t know how to even boil an egg then you are like me and this book is for you think job you ve your dream job offer from your favourite firm problem you have to relocate to a new town you ve to live in an apartment all by yourself horror of horrors your apartment has a kitchen that you don t know what to do with and this being a peaceful residential area the nearest restaurant is some five miles away then you are like me and this book is for you think outdoors you love the mountains and the rugged outdoors you have friends who share your passion your friends love to carry some fresh home made sandwiches and salads they can also whip up a mean omelette on the camp fire if need be while you don t even know how to break an egg properly then you are like me and this book is for you this book is unique because it is based on the author s first hand experience of bumbling about as he says in the wonderlands of cooking in london where he was pursuing a law degree for four years this is for the absolute newbie where this book scores over other how to cookbooks is in the manner in which it treats no question as too stupid its next usp is its very logical and structured approach in which it follows a step by step graduation process you start with some very basic cooking techniques such as how to break poach fry boil and peel an egg learn how to handle chicken vegetables and fish and then graduate to making such complicated recipes as cheese omelette vegetables au gratin baked chicken or french onion soup most uniquely the book teaches you the concept of sequencing and parallel processing in cooking that should enable busy people to create a 3 4 course meal in less than 30 minutes don t believe me then just scroll up and look inside convinced that this book is exactly what the doctor ordered or that you re not such a newbie after all but

your nephew or niece who has just gone to college or starting to work should benefit from such a book then scroll up to add to cart a copy of this easiest cookbook on earth at the honest to goodness make scrambled eggs omelette saute vegetables grilled sandwich half a million years ago our ancestors learned to make fire from scratch they crafted intricate tools from stone and brewed mind altering elixirs from honey their descendants transformed clay into pottery wool into clothing and ashes into cleansers in ceramic crucibles they won metal from rock the metals lead to colored glazes and glass buildings of brick and mortar enshrined books of parchment and paper kings and queens demanded ever more colorful clothing and accessories in order to out class clod hoppers and call girls kingdoms rose and fell by the power of saltpeter sulfur and charcoal and the demands of everyday folk for glass and paper and soap stimulated the first round of chemical industrialization from sulfuric acid to sodium carbonate from aniline dyes to analgesic drugs from blasting powder to fertilizers and plastics in a phrase from caveman to chemist your guides on this journey are the four alchemical elements fire earth air and water these archetypical characters deliver first hand accounts of the births of their respective technologies the spirit of fire for example was born in the first creature to cultivate the flame this spirit passed from one person to another from one generation to another from one millennium to another arriving at last in the pages of this book the spirit of earth taught folks to make tools of stone the spirit of air imparted knowledge of units and the spirit of water began with the invention of spirits having traveled the world from age to age who can say where they will find their next home perhaps they will find one in you the opium eaters is the culminating novel of this trilogy the first one way to pakistan is a gripping story of corruption and crime in pakistan in which three women are abducted and how their lives are shattered in the second novel an oath of vengeance maria the wife of an american doctor chamuck a tribal girl from peshawar and ankh
