acceding to the wish of my publishers that the following pages should be included in a certain well known series i have termed them chats on old miniatures but confess that i consider the title somewhat of a misnomer inasmuch as i have been accustomed to regard a chat as a conversation between two or more persons interested in a given subject whereas in this little volume it is obvious that i have done all the talking in the interval which has elapsed since my larger works appeared the most important event in connection with the subject of miniatures is in my opinion the exhibition of works of art of the eighteenth century at the french national library in 1906 the concluding chapter of this book gives the impressions afforded by that extremely interesting and instructive exhibition in the hope that they will be of use to the general reader i have amplified my references to the public collections of miniatures in this country especially those at hertford house and the jones collection so rich in the works of petitot miss e m foster has been of much service in revising the proofs and passing this work through the press i have only to add one word and that relates to the illustrations i am fortunate in being able to put before my readers so large a selection of choice examples of the

art of miniature painting this i owe to the generosity of the owners of the originals to whom i desire once again to express my indebtedness and thanks monson s church notes covering 227 parishes were compiled before the 19th century spirit of renovation in lincolnshire hence their value for much of what he records disappeared during the passion for renovation in the middle of last century there lived in wakefield a certain peter priestly who for many years was sexton of the parish church of all saints the then vicar was michael bacon d d a tall portly man of a commanding presence who wore a large bushy wig as was the wont of many old divines of that date he was a man of rather a warm temperament and was apt at times when matters did not flow quite according to his will to grow a little irritable and whilst in that condition his habit was frequently to thrust his right hand in a testy impetuous way under his wig this habit destroyed the symmetry of that capital ornament and made it protrude considerably on the right side and this protrusion grew greater the longer the wig was worn the vicar s wigs were inherited and worn by the sexton whose venerable and awe inspiring appearance was much enhanced thereby mrs priestly in vain endeavoured to reduce the protuberance of hair on the right side so as not to betray the origin of the wig the horse hair resumed its elasticity in spite of her efforts and the congregation in the parish church were amused to see the stately doctor in his reading desk with a deformed wig and below him the scarcely less stately clerk in a wig the counterpart of that of the doctor but what amused the wags not a little was to observe the fact that when the doctor s wig was perfectly symmetrical instantly the sexton s assumed the most exaggerated inequality in the sides the secret of course was that the doctor had donned a new wig and had given his old one to the clerk but after a while the irascible vicar had succeeded in brushing out the tufts of his false head of hair on the right and simultaneously the continued efforts of mrs priestly had reduced the right hand protuberance in the wig of her husband consequently as one bush grew the other shrank into itself but there were points like the equinoxes when both wigs were alike now it fell out that doctor bacon had determined to present himself with a new wig one easter and he had accordingly given peter priestly his old wig which had arrived at its maximum of extension on the right hand side peter had heard it said that on s mark s eve the spirits of all those who are to die during the year may be seen in the church half believing this popular superstition and half in doubt about the truth of it and thinking moreover that if it might be so he should like to know whether trade would be brisk for him during the rest of the year he decided that anyhow he would go to the church and see what would happen and not wishing to spend his time idly he determined to occupy himself with lettering some grave stones which he had not completed the place in which he carried on this work was the base of the church tower which was shut off from the nave by a large boarded partition against which stood the west gallery of the church the opening from the tower into the nave consisted of large folding doors this series

Heads of Families at the First Census of the United States Taken in the Year 1790 1952

Jonathan Gould's *Can't Buy Me Love* is more than just a book on the Beatles; it's a stunning recreation of the 1960s in England and America through the prism of the world's most iconic band. The Beatles, perhaps more than any act before or since, were a quintessential product of their time, and Gould brilliantly blends cultural history, musical analysis, and group biography to show the unique part they played in the shaping of post-war Britain and America. Gould examines the influence of R&B, rockabilly, skiffle, and Motown as the Fab Four forged a sound of their own. He illuminates the mercurial relationship, the most productive and lucrative in recording music history, between John Lennon and Paul McCartney. He critiques the songs they played and the movies they made, and their impact on competing bands and musicians, as well as on fashion, hairstyles, and humour. And he shows how events on both sides of the Atlantic created exactly the right cultural climate for the biggest music phenomenon of the 20th century. Beautifully written, insightful, and wonderfully evocative, this is a magisterial biography by a popular historian of the very first rank.
