**Women and Slavery in the French Antilles, 1635-1848** 2001-11-14 in subjects of slavery agents of change kari j winter compares the ways in which two marginalized genres of women s writing female gothic novels and slave narratives represent the oppression of women and their resistance to oppression analyzing the historical contexts in which gothic novels and slave narratives were written winter shows that both types of writing expose the sexual politics at the heart of patriarchal culture and both represent the terrifying aspects of life for women female gothic novelists such as emily and charlotte bronte ann radcliffe and mary shelley uncover the terror of the familiar the routine brutality and injustice of the patriarchal family and of

conventional religion as well as the intersecting oppressions of gender and class they represent the world as in mary wollstonecraft s words a vast prison in which women are born slaves writing during the same period harriet jacobs nancy prince and other former slaves in the united states expose the all pervading corruption of southern slavery their narratives combine strident attacks on the patriarchal order with criticism of white women s own racism and classism these texts challenge white women to repudiate their complicity in a racist culture and to join their black sisters in a war against the peculiar institution winter explores as well the ways that gothic heroines and slave women resisted subjugation moments of escape from the horrors of patriarchal domination provide the protagonists with essential periods of respite from pain because this escape is never more than temporary however both types of narrative conclude tensely the novelists refuse to affirm either hope or despair thereby calling into question conventional endings of marriage or death and although slave narratives were typically framed by white authored texts containment of the black voice did not diminish the inherent revolutionary conclusion of antislavery writing according to winter both gothic novels and slave narratives suggest that although women are victims and mediators of the dominant order they also can become agents of historical change

Jones Rogers draws on a variety of sources to show that slave-owning women were sophisticated economic actors who directly engaged in and benefited from the South's slave market because women typically inherited more slaves than land enslaved people were often their primary source of wealth not only did white women often refuse to cede ownership of their slaves to their husbands they employed management techniques that were as effective and brutal as those used by slave-owning men white women actively participated in the slave market profited from it and used it for economic and social empowerment by examining the economically entangled lives of enslaved people and slave-owning women Jones Rogers presents a narrative that forces us to rethink the economics and social conventions of slaveholding America

**Mya** 2015-07-14 reader be assured this narrative is no fiction i am aware that some of my adventures may seem incredible but they are nevertheless strictly true i have not exaggerated the wrongs inflicted by slavery on the contrary my descriptions fall far short of the facts i have concealed the names of places and given persons fictitious names i had no motive for secrecy on my own account but i deemed it kind and considerate towards others to pursue this course i wish i were more competent to the task i have undertaken but i trust my readers will excuse deficiencies in consideration of circumstances i was born and reared in slavery and i remained in a slave state twenty seven years since i have been at the north it has been necessary for me to work diligently for my own support and the education of my children this has not left me much leisure to make up for the loss of early opportunities to improve myself and it has compelled me to write these pages at irregular intervals whenever i could snatch an hour from household duties when i first arrived in philadelphia bishop paine advised me to publish a sketch of my life but i told

him i was altogether incompetent to such an undertaking though i have improved my mind somewhat since that time i still remain of the same opinion but i trust my motives will excuse what might otherwise seem presumptuous i have not written my experiences in order to attract attention to myself on the contrary it would have been more pleasant to me to have been silent about my own history neither do i care to excite sympathy for my own sufferings but i do earnestly desire to arouse the women of the north to a realizing sense of the condition of two millions of women at the south still in bondage suffering what i suffered and most of them far worse i want to add my testimony to that of abler pens to convince the people of the free states what slavery really is
