Self-sacrifice, Or the Pioneers of Fuegia. Compiled for the Board of Publication by Sarah A. Myers 2004-01 over the last decade the increasing phenomenon of suicide terrorism has raised questions about how it might be rational for individuals to engage in such acts this book examines a range of different forms of political self sacrifice including hunger strikes self burning and non violent martyrdom all of which have taken place in resistance to foreign interference karin fierke sets out to study the strategic and emotional dynamics that arise from the image of the suffering body including political contestation surrounding the identification of the victim as a terrorist or martyr the meaning of the death as suicide or martyrdom and the extent to which this contributes to the reconstruction of community identity political self sacrifice offers a counterpoint to rationalist accounts of international terrorism in terrorist and security studies and is a novel contribution to the growing literature on the role of emotion and trauma in international politics

**Love; or, Self-sacrifice** 1868 the concept of self sacrifice is highly important to korean americans with hierarchy of age social status and gender defined roles taking primacy over equality and justice self sacrifice becomes

instrumental in maintaining family and social relationships unfortunately in family relationships sacrifice has more to do with submission and endurance than it does with sacrificial service that is redemptive and mutually beneficial when self sacrifice carries hidden motives coercive responsibility obligation shame guilt or one's reputation that self sacrifice is not self giving neither serving nor being of mutual benefit in this context it is important to explore the attitudes and motives of self sacrifice in korean american families in unlocking and exploring the dynamics of the theology and practice of self sacrifice for korean americans this book explores cultural virtues marital relationships gender inequality domestic violence and their theological implications the author introduces a new approach and model with a proposal for a healthier and a more judicious understanding of self sacrifice for korean american family relationships the element of equal regard as pertaining to self sacrifice offers korean americans a refreshing hope in the perspective of familial relationships and a liberating casting off of culturally and religiously imposed burdens the korean american family ought to be grounded on a love ethic of equal regard and place its value on mutuality self sacrifice and individual fulfillment when this is done sacrificial love can be understood as justly appropriated for both husbands and wives males and females and parents and children thus christian teaching and theology may deliver a more transparent message of true agape and its liberating effects for the marginalized especially women and children

**Love Or Self-sacrifice: a Story** 1868 the aim of this book is to foster a more

explicit and direct discussion of the concept of sacrifice and its importance in moral philosophy acts of self sacrifice have a special place in our moral lives we admire and celebrate those who give up their lives so that others may live despite this important role that sacrifice plays in our moral thinking moral philosophers have had surprisingly little to say about the nature of sacrifice this lack of attention to the nature of sacrifice is particularly important given that sacrifice also has an important role to play in several key debates in moral philosophy the chapters in this volume make an important contribution to our understanding of sacrifice in three areas the first part of the book investigates the nature of sacrifice the next group of chapters investigates the role of sacrifice in moral philosophy three of these pieces investigate the role of sacrifice in our moral lives generally while two investigate the role of sacrifice in relation to particular moral theories the final two chapters investigate the value of sacrifice in relation to political and theological issues the chapters in this book were originally published as a special issue of the international journal of philosophical studies

Merkland: or, Self Sacrifice 2021-01-18 various fundamental and vital areas and aspects of human life are in some way crucially interwoven with the ideas ideals and practices of sacrifice as an attention grabbing example of how importantly sacrifice may influence society let us mention suicide terrorist attacks that by spreading sorrow panics and fear have changed the face of

today's world but the importance of sacrifice reaches broader and deeper the authors of this book show that it is connected with the origins of human culture and its transformations this interdisciplinary book brings the results of the research in the areas of humanities and social science various aspects of sacrifice are considered and connected the book is an important contribution to the formation of a culture of sacrifice and offering appropriate for the modern world professor robert petkovsek is the dean of the faculty of theology university of ljubljana research professor bojan zalec is the head of the institute of philosophy and social ethics at the faculty of theology university of ljubljana

Political Self-Sacrifice 2012-11-29 from childhood we're taught one central non-controversial idea about morality self-sacrifice is a virtue it is universally accepted that serving the needs of others rather than our own is the essence of morality to be ethical it is believed is to be altruistic questioning this belief is regarded as tantamount to questioning the self-evident here peter schwartz questions it in defense of selfishness refutes widespread misconceptions about the meaning of selfishness and of altruism basing his arguments on ayn rand's ethics of rational self-interest schwartz demonstrates that genuine selfishness is not exemplified by the brutal plundering of an attila the hun or the conniving duplicity of a bernard madoff to the contrary such people are acting against their actual long-range interests the truly selfish individual is committed to moral principles and

lives an honest productive self respecting life he does not feed parasitically off other people instead he renounces the unearned and deals with others in both the material and spiritual realms by offering value for value to mutual benefit the selfish individual schwartz maintains lives by reason not force he lives by production and trade not by theft and fraud he disavows the mindlessness of the do whatever you feel like emotionalist and upholds rationality as his primary virtue he takes pride in his achievements and does not sacrifice himself to others nor does he sacrifice others to himself according to the code of altruism however you must embrace self sacrifice you must subordinate yourself to others altruism calls not for cooperation and benevolence but for servitude it demands that you surrender your interests to the needs of others that you regard serving others as the moral justification of your existence that you be willing to suffer so that a non you might benefit to this schwartz asks simply why why should the fact that you have achieved any success make you indebted to those who haven t why does the fact that someone needs your money create a moral entitlement to it while the fact that you ve earned it doesn t using vivid real life examples in defense of selfishness illustrates the iniquity of requiring one man to serve the needs of another this provocative book challenges readers to re examine the standard by which they decide what is morally right or wrong *The Motives of Self-Sacrifice in Korean American Culture, Family, and Marriage* 2014-01-24 this book explains how reparative self sacrificial

righteousness is at the heart of paul s gospel and how divine self sacrifice authenticates that gospel via human reciprocity toward god in reconciliation paul moser explores the controversial matters regarding paul s message in a way that highlights the coherence and profundity of his message

*Self-Sacrifice Or Revolution?* 2005-12-01 everybody knows someone who always gives money to their always needy brother or never seems to find time for his or her self and we all know someone who would be much happier if they could just work up the nerve to tell a dead beat boyfriend or a nosey neighbor to go away in his latest book don smith tells us the frightening consequences if we don t learn to say no and the happiness we can find if we do learn to say no
