The Complete Correspondence of Sigmund Freud and Karl Abraham 1907-1925

1891

soon after their first meeting in 1908 Freud's future biographer Ernest Jones initiated a correspondence with the founder of psychoanalysis that would continue until Freud's death in London in 1939 Jones a Welsh born neurologist would become a principal player in the development of psychoanalysis in England and the United States this volume makes available from British and American archives nearly seven hundred previously unpublished letters postcards and telegrams the vast majority of the three decade correspondence between Freud and his admiring younger colleague these letters and notes dashed off almost compulsively in the odd moments of busy professional lives in Toronto Vienna and London in transit between meetings or on holidays on the continent provide a lively account of the early years of the psychoanalytic movement and its fortunes during the turbulent interwar period the reader is invited to share in the domestic and international news of the day to make the acquaintance of the prominent personalities among the first generation of Freud's followers and to witness the drama of complex rivalries and conflicting loyalties including the personal and intellectual rupture between Freud and Jung and Jones's unrelenting effort to

maneuver politically behind the scenes in order to position himself within Freud's inner circle present in the correspondence also are the women who in differing ways touched the lives of both men and influenced their work: Leo Kanner, Joan Riviere, Melanie Klein, and Anna Freud. While charting the progress of a personal friendship, this correspondence offers glimpses of the darker events of the time: the last days of the Austro-Hungarian Empire, the First World War, the Russian Revolution, and the rise of Nazism in Europe. Even though on a professional level the two correspondents differed on a striking array of issues such as the theory of anxiety, the death and aggressive instincts, child analysis, female sexuality, and lay analysis, their letters are an affirmation of the intellectual and emotional bonds between these two very different men who, as Jones put it so poignantly in his last letter to Freud, had both made a contribution to human existence even if in very different measure.

George Starkey, chemistry tutor to Robert Boyle, author of immensely popular alchemical treatises and probably early America's most important scientist, reveals in these pages the daily laboratory experimentation of a seventeenth-century alchemist. The editors present in this volume transcriptions of Starkey's texts, their translations, and valuable commentary for the modern reader, dispelling the myth that alchemy was an irrational enterprise. This remarkable collection of laboratory notebooks and correspondence reveals the otherwise hidden methodologies of one of the seventeenth century's most influential alchemists.
