Annual Report 1963 summative assessment has been a contentious issue in educational circles for several decades particularly high stakes assessment events which arise at various junctures of the school cycle especially those at the end of it the french baccalaureat and english a levels and their numerous clones throughout the francophone and anglophone worlds are household names and represent milestone events in people s lives as their outcomes are principal determinants of young people s future prospects these examinations are external they are devised conducted and processed by agencies outside the schools usually ministerial examination units as such they act as blind arbiters of student achievement providing the proverbial level playing field which ensures the comparability of outcomes in the pyramidal school structures of yesteryear examinations acted as filters regulating the progression of pupils to subsequent tiers of formal education exit points occurred from primary school level up from where unsuccessful candidates could enter the labour force and or embark on occupationally specific further education and training with the modernisation of the labour market and an ever higher social demand for access to higher levels of formal education the filtering function of examinations at lower levels of schooling has been gradually eroded while burgeoning numbers of students at the upper secondary level have brought about reforms that include curricular diversification and sometimes radical overhauls of terminating assessment systems including the modification and in some instances abandonment of external examinations this edited volume brings together the experiences of twenty examination systems from around the world to show how these dynamic entities have adapted over time to the changing context of schooling following an introduction by stephen p heyneman of world bank repute there are sixteen chapters presenting country case studies which have been written up under common subheadings thereby highlighting the comparative nature of the work and facilitating cross referencing the subsequent four chapters elaborate on the theme of external examinations beyond national borders including a contribution by the international baccalaureate organisation a defining feature of the work is the attention it pays to what it calls the nuts and bolts of external examinations from question setting to grading procedures these are it is argued instrumental in nurturing and maintaining public confidence in external examinations the book will be of immense value to people involved in educational policy studies especially strategic educational planning as well as those directly concerned with formal assessment the work has been written to appeal to a wide audience of informed persons it is accessible to teachers and interested laypeople as well as to academics

Quality Assurance in the Management of Examinations Systems in Sub-Saharan Africa 2024-02-02 it s memoir of senior most officer of a top medical examination body writing about events which will surprise all can organization of this importance function so unprofessionally

Bihar School Examination Board, Patna Bihar STET Secondary Teacher Eligibility Test Study Guide Teaching Aptitude & Other Proficiency 2023-12-21 world bank technical paper no 272 public examinations in developing countries play a critical role in the selection of students for participation in the educational system the exams dictate what is taught how it is taught and what is and is no

The administration of examinations for 15-19 year olds in England 2012-07-03 examining the examinations looks at the required advanced science and mathematics examinations taken by university bound students in seven countries this research focuses on topics covered types of questions used and performance expected from students the book concentrates on comparisons of the examinations illustrating their similarities and differences with selected questions taken from the actual examinations the international comparisons presented offer a window on educational laboratories in seven countries

Secondary School External Examination Systems 2009 reform of the public examination system for sixteen year olds presented a considerable challenge to secondary schools the new general certification of secondary education introduced in 1988 was more than a continuation of the g c e o level and c s e examinations at the time the introduction of national criteria by the department of education the part played by the secondary schools examination council the emergence of new examining bodies were new dimensions faced by schools accustomed to exercising considerable autonomy

in designing a curriculum how far would the new examination reflect what was actually taught in our classrooms what were its new features which pupils would be entered and with what prospect of success above all how would schools meet a tight time schedule which required study of new syllabuses to be ready by 1986 for the first examinations held in 1988 originally published in 1986 this book was intended to answer some of these questions and provide an up to date picture of the present state of the examination world with indications of future developments in the vital years ahead it aimed to assist those immediately and urgently concerned with implementing this far reaching educational reform today it can be considered in its historical context

A Short History of National School Certificates in Scotland 1995 economic and social changes fast evolution of technology and the growing importance of internet services and international communications all these require secondary education providers to adapt what is taught and learned in schools however in africa the content of secondary curricula is in most cases ill adapted to 21st century challenges where young people are mobile have access to more and instant information and face health threats such as hiv aids in addition implementation problems exist and the time for instruction is often much less than what is required by the prescribed secondary curriculum in africa there is a need to develop a secondary education curriculum adapted to the local economic and social environment but with international comparable performance indicators this study analyzes that challenge the quality of curricula and assessment and their development processes in secondary education in africa against the background of existing contexts conditions and ambitions on the one hand and current pedagogical thinking on the other this world bank working paper was prepared as part of the secondary education and training in africa seia initiative which aims to assist countries to develop sustainable strategies for expansion and quality improvements in secondary education and training

The Framework for National Testing 1993 high stakes public examinations exert a dominant influence in most education systems they affect both teacher and student behavior especially at the middle and upper levels of secondary education the content of past examinations tends to dictate what is taught and how it is taught and more important what is learned and how it is learned by changing aspects of these examinations especially their content and format education systems can have a strong positive impact on teacher behavior and student learning help raise student achievement levels and better prepare students for tertiary level education and for employment examination agencies many of which have followed the same procedures over decades can learn from the successes and failures of other systems this book addresses current issues related to the development administration scoring and usage of these high stakes public examinations identifying key issues and problems related to examinations in many emerging market economies as well as in advanced economies the book's primary audience consists of public examination officials on national regional and state examination boards but the book should also be of interest to senior education policy makers concerned with certification and learning achievement standards to academics and researchers interested in educational assessment to governmental and education agencies responsible for student selection and to professionals at development organizations this extremely well written and comprehensive book offers a timely review of the diversity of public examination practices worldwide of the tensions between examinations and learning and of the technical expertise involved in the creation of valid reliable and fair assessments it reminds us that as the diploma disease takes hold with an ever greater intensity at every stage of education worldwide and the commercial business of testing flourishes those concerned with educational quality and meaningful learning must be on guard to prevent the assessment tail wagging the educational dog angela w little professor emerita institute of education university college london this book is very well structured and written and draws on the authors remarkable global knowledge across countries and histories it will be a great asset both to administrators responsible for examinations and to academics and other professionals who seek to understand the nature and impact of examinations of different types and in different settings mark bray unesco chair professor of comparative education university of hong kong and former director unesco international institute for educational planning i am sure that public examinations examined which thoroughly analyzes the practice of public examinations in different countries and makes profound and well grounded conclusions will arouse very great interest and will serve to further improve public examinations victor bolotov distinguished professor higher school of economics national research university moscow member russian academy of education and former deputy minister of education russian federation

Saunders' Q & A Review for the Physical Therapy Board Examination E-Book 2010-04-23 the first book to explore the development of singapore's much talked about education and examination system this volume juxtaposes examinations with its immediate context of education and wider context of politics economy and society the study covers three broad historical periods examinations in singapore from 1891 to 1945 the post war years from 1946 to the 1970s and charting our destiny from the 1980s to 2007 in the british period up to 1941 the local examinations were conducted by the vernacular schools and external examinations by the university of cambridge local examinations syndicate there was a lack of systematic effort to establish a uniform system of education and examinations during the japanese occupation examinations were conducted by the japanese authorities and unexpectedly the cambridge examinations continued in the same road camp in the post war period and particularly after singapore was granted self government the establishment of a national education system was followed by the emergence of national examinations the primary school leaving examinations and the singapore cambridge gce n o a levels for every school going child in singapore thereafter the nature of national examinations evolved with the changing needs of education and the nation at the turn of the century with the ministry of education's decision to take greater control of examinations the singapore examinations and assessment board was established to oversee new developments in examinations unlike most literature on education where examinations are often mentioned as an outcome of educational goals and objectives this book focuses on examinations per se examinations have gained a momentum of their own and it is interesting to note the development of examinations against the backdrop of the broader history of singapore and of education in singapore

Examinations presents a balanced overview and commentary on all the main aspects of public examinations the key themes are examinations and their context historical political social and educational functions of examination how they work equity and fairness of the process and future of public examinations recurring issues in the book are the tension between the need for common national standards and the need for diverse individuality and the conflict between competitive functions of examinations as instruments of selection and their descriptive function as reports on standards of performance the author argues that the main aspects of examinations are not given a prominent place in the training of teachers though public examinations have widespread impact on society this book will be an essential read for scholars and researchers of education higher education and also for administrators and policy makers
