Andrew's Robin and Other Stories 2012-10-15 following in the tradition of recent work by cultural geographers and historians of maps this collection examines the apparently familiar figure of robin hood as he can be located within spaces that are geographical cultural and temporal the volume is divided into two sections the first features an interrogation of the literary and other textually transmitted spaces to uncover the critical grounds in which the

robin hood legend has traditionally operated the essays in part two take up issues related to performative and experiential space demonstrating the reciprocal relationship between page stage and lived experience throughout the volume the contributors contend with among other things modern theories of gender literary detective work and the ways in which the settings that once advanced court performances now include digital gaming and the enactment of real lives
