many of the earliest books particularly those dating back to the 1900 s and before are now extremely scarce and increasingly expensive we are republishing these classic works in affordable high quality modern editions using the original text and artwork

### *Papers and Proceedings of the Royal Society of Tasmania*

1897

this is a reproduction of the original artefact generally these books are created from careful scans of the original this allows us to preserve the book accurately and present it in the way the author intended since the original versions are generally quite old there may occasionally be certain imperfections within these reproductions we re happy to make these classics available again for future generations to enjoy

drawing on toned paper is a fun way to step outside the box and try something different you can expand your drawing skills by drawing on grey paper because it will help you to discover opportunities and ideas that wouldn t otherwise be possible if you only drew on white paper drawing white objects or animals on white paper is especially tricky as they would look far less noticeable to

make such a drawing more prominent we would have to color the background and this is quite difficult and tedious which may discourage you from drawing in this book you will learn to draw from both reference photos and imagination so that you can learn to see things through the artist s eyes enrich your creative mind and get inspired it will help you to see and understand art from a different point of view and to enjoy the endless opportunities that working on toned paper offers reasons to draw on toned paper you can start with white which is pretty interesting you only have to add black and white shades and the paper does the rest of the job your work will seem more complete and won t look pale because lighter hues appear quite darker on a grey surface and they won t disappear like on white paper your highlights will appear much more spectacular and three dimensional drawings on toned paper look more realistic and lifelike you can use the tone of the paper as your mid tone which is particularly helpful if you struggle with creating mid tones on white paper working on grey paper will help you to see and evaluate tonal values more easily the experience and skills gained by working with toned paper is something that you can apply to your white paper in the future working on grey paper will boost your creativity
