## ***The Development of Child Protection Law and Policy***

2020-04-02

this book examines how child protection law has been shaped by the transition to late modernity and how it copes with the ever changing concept of risk the book traces the evolution of the contemporary child protection system through historical changes assessing the factors that have influenced the development of legal responses to abuse over a 130 year period it does so by focussing on the republic of ireland where child protection has become emblematic of wider social change the work draws on a wide range of primary and secondary sources including legislation case law and official and media reports of child protection inquiries it also utilises insights developed through an extensive examination of parliamentary debates on child protection matters these

materials are assessed through the lens of critical discourse analysis to explore the relationship between law social policy and social theory as they effect child protection while the book utilises primarily irish sources this multidisciplinary approach ensures the argument has international applicability the book will be a valuable resource for all those with an interest in the development of child protection law

exploring the rules that apply when a person dies without leaving a valid will intestate succession delivers a comparative and historical review of the relevant law in europe and beyond including an analysis of legal development justifications and reform

## ***Technical Memorandum - Beach Erosion Board***

1940

intestate succession is the second volume in the comparative succession law series which examines the principles of succession law from a comparative and historical perspective this volume discusses the rules which apply where a person dies either without leaving a valid will or leaving a will which fails to dispose of all of the person s assets among the questions considered are the following what is the nature of the rules for the disposal of the deceased s assets are they mechanical or is there an element of discretion are particular types of property dealt with in particular ways is there entitlement to individual assets as opposed to money do the rules operate in a parentelic system or a system of some other kind are spouses treated more favourably than children what provision is made for extra marital children for adopted children for step children does cohabitation give rise to entitlement how are same sex couples treated broader questions also arise of a historical and comparative nature where for example do the rules in intestate succession come from in particular legal systems have they been influenced by the rules in other countries how are the rules explained

and how are they justified to what extent have they changed over time what are the long term trends and finally are the rules satisfactory and is there pressure for their reform as in the first volume this book will focus on europe and on countries which have been influenced by the european experience such as australia new zealand south africa the united states of america quebec and the countries of latin america further chapters are devoted to islamic law and nordic law opening with a discussion on roman law and concluding with an assessment of the overall development of the law in the countries surveyed this book will provide a wider reflection on the nature and purpose of the law of intestate succession

Alexander Milne was the pre-eminent naval administrator of the Victorian Royal Navy spending eighteen years at the Admiralty between 1847 and 1876 over six of them as first naval lord his administrative career coincided exactly with the greatest technological upheaval in warfare at sea since sails supplanted oars and he played an important role in almost every step of the navy's transformation from sail to steam wood to iron and in the equally critical processes of devising a modern system of recruiting and training enlisted personnel and evolving a coherent strategy suitable for a steam-powered fleet this collection is drawn from a rich documentary record of Milne's

and the board's labours during the late 1840s and 1850s it also encompasses Milne's earlier sea service furnishing a unique glimpse of the maritime policing operations of the navy during the Pax Britannica

## **Parliamentary Papers**

The account in this volume begins with Admiral of the Fleet Sir Andrew Cunningham's assumption of the first Sea Lordship on 5 October 1943 and concludes with the formal surrender of Japan on 2 September 1945. This volume is entitled *Anglo-American-Canadian Naval Relations 1943-1945* for the very good reason that by the end of the war the Royal Canadian Navy was the third largest in the world after its two great partners and Canadian naval and air forces played a major role in anti-submarine warfare in the Atlantic and rendered important service also in other theatres. The period covered by this volume was the time in which victory was forged and the three major allies enjoyed an almost unbroken series of maritime triumphs. In Part I the relationships of the senior commanders, their services and their countries are discussed. Part II deals with the last stage of the fight against the U-boats, a war which by 1943 had spread to most of the world's seas. Part III deals with the Western Allies' eventual return to North West Europe. In Part IV the final operations in the Mediterranean, including the landings in Southern France and at Anzio in Italy, are covered. Part V recounts the participation of the British Pacific Fleet in the concluding operations against Japan.

a new history of the american jewish relationship with israel focused on its most urgent and sensitive issue the question of palestinian rights american jews began debating palestinian rights issues even before israel s founding in 1948 geoffrey levin recovers the voices of american jews who in the early decades of israel s existence called for an honest reckoning with the moral and political plight of palestinians these now forgotten voices which include an aid worker turned academic with palestinian sephardic roots a former yiddish journalist anti zionist reform rabbis and young left wing zionist activists felt drawn to support palestinian rights by their understanding of jewish history identity and ethics they sometimes worked with mainstream american jewish leaders who feared

that ignoring palestinian rights could foster antisemitism leading them to press israeli officials for reform but israeli diplomats viewed any american jewish interest in palestinian affairs with deep suspicion provoking a series of quiet confrontations that ultimately kept palestinian rights off the american jewish agenda up to the present era in reconstructing this hidden history levin lays the groundwork for more forthright debates over palestinian rights issues american jewish identity and the u s israel relationship more broadly

in july 2002 the government announced a public expenditure increase of 61 billion over three years

to be targeted at improving key public services the three largest recipients of the extra funding were the department for education and skills the department of health and the department for transport following on from a nao report on this topic hcp 234 session 2003 04 isbn 0102927103 published in january 2004 the committee s report examines how these departments are using their extra resources focusing on three main issues the complexity of the service deliver chain how they can secure further improvements in service quality and performance monitoring and benchmarking conclusions reached include that complex delivery chains and financing mechanisms need to be simplified and a direct link established between funding and specific targets for service improvements as all three departments deliver services indirectly through a network of partners and contractors they need to ensure delivery partners have sufficient capability and capacity to deliver services effectively departments should also share information on their plans to increase delivery capacity more widely among key suppliers

contemporary debates about the changing nature of law engage theories of legal pluralism political economy social systems international relations or regime theory global constitutionalism and public international law such debates reveal a variety of emerging responses to distributional issues which arise beyond the western welfare state and new conceptions of private transnational authority however private international law tends to stand aloof claiming process based neutrality or the apolitical nature of private law technique and refusing to recognize frontiers beyond than those of the nation state as a result the discipline is paradoxically ill equipped to deal with the most

significant cross border legal difficulties from immigration to private financial regulation which might have been expected to fall within its remit contributing little to the governance of transnational non state power it is largely complicit in its unhampered expansion this is all the more a paradox given that the new thinking from other fields which seek to fill the void theories of legal pluralism peer networks transnational substantive rules privatized dispute resolution and regime collision have long been part of the daily fare of the conflict of laws the crucial issue now is whether private international law can or indeed should survive as a discipline this volume lays the foundations for a critical approach to private international law in the global era while the governance of global issues such as health climate and finance clearly implicates the law and particularly international law its private law dimension is generally invisible this book develops the idea that the liberal divide between public and private international law has enabled the unregulated expansion of transnational private power in these various fields it explores the potential of private international law to reassert a significant governance function in respect of new forms of authority beyond the state to do so it must shed a number of assumptions entrenched in the culture of the nation state but this will permit the discipline to expand its potential to confront major issues in global governance
