in order to confront the increasingly severe water problems faced by all parts of the country the united states needs to make a new commitment to research on water resources a new mechanism is needed to coordinate water research currently fragmented among nearly 20 federal agencies given the competition for water among farmers communities aquatic ecosystems and other users as well as

emerging challenges such as climate change and the threat of waterborne diseases confronting the nation's water problems concludes that an additional 70 million in federal funding should go annually to water research funding should go specifically to the areas of water demand and use water supply augmentation and other institutional research topics the book notes that overall federal funding for water research has been stagnant in real terms for the past 30 years and that the portion dedicated to research on water use and social science topics has declined considerably

an expert in the field analyzes the major debates between historians and social scientists on the nature and development of ethnic communities nations and nationalism in concise accessible prose anthony d smith provides a probing account of the leading assumptions and explanations of nationalism in different historical epochs ranging broadly over the contributions and divergent perspectives of historians political scientists sociologists anthropologists and others who have contributed to these

fundamental debates smith codifies the most cogent responses that have been offered to three defining issues in this area the nature and origin of the nation and nationalism and the role of nations and nationalism in historical and especially recent social change using the examples of persia israel and greece for long term illustrations smith also discusses ethnic and national identities in france germany england yugoslavia and elsewhere to illuminate the uses and the meaning of alternative theories and ends with a convincing case for the value of his own ethno symbolist approach

from the acclaimed historian and new yorker writer comes this urgent manifesto on the dilemma of nationalism and the erosion of liberalism in the twenty first century at a time of much despair over the future of liberal democracy jill lepore makes a stirring case for the nation in this america a follow up to

her much celebrated history of the united states these truths with dangerous forms of nationalism on the rise lepure a harvard historian and new yorker staff writer repudiates nationalism here by explaining its long history and the history of the idea of the nation itself while calling for a new americanism a generous patriotism that requires an honest reckoning with america s past lepure begins her argument with a primer on the origins of nations explaining how liberalism the nation state and liberal nationalism developed together illiberal nationalism however emerged in the united states after the civil war resulting in the failure of reconstruction the rise of jim crow and the restriction of immigration much of american history lepure argues has been a battle between these two forms of nationalism liberal and illiberal all the way down to the nation s latest bitter struggles over immigration defending liberalism as this america demonstrates requires making the case for the nation but american historians largely abandoned that defense in the 1960s when they stopped writing national history by the 1980s they d stopped studying the nation state altogether and embraced globalism instead when serious historians abandon the study of the nation lepure tellingly writes nationalism doesn t die instead it eats liberalism but liberalism is still in there lepure affirms and this america is an attempt to pull it out in a world made up of nations there is no more powerful way to fight the forces of prejudice intolerance and injustice than by a dedication to equality citizenship and equal rights as guaranteed by a nation of laws a manifesto for a better nation and a call for a new americanism this america reclaims the nation s future by reclaiming its past
