new york times bestseller the master storyteller san francisco chronicle behind the new york times bestseller the spy and the traitor uncovers the true story behind one of the cold war s most intrepid spies an immensely exciting fast moving account the washington post one of the best books of the year foreign affairs kirkus reviews library journal in 1942 in a quiet village in the leafy english cotswolds a thin elegant woman lived in a small cottage with her three children and her husband who worked as a machinist nearby ursula burton was friendly but reserved and spoke english with a slight foreign accent by all accounts she seemed to be living a simple unassuming life her neighbors in the village knew little about her they didn t know that she was a high ranking soviet intelligence

officer they didn't know that her husband was also a spy or that she was running powerful agents across Europe behind the facade of her picturesque life. Burton was a dedicated communist, a Soviet colonel, and a veteran agent gathering the scientific secrets that would enable the Soviet Union to build the bomb. This true life spy story is a masterpiece about the woman code named Sonya. Over the course of her career, she was hunted by the Chinese, the Japanese, the Nazis, MI5, MI6, and the FBI, and she evaded them all. Her story reflects the great ideological clash of the twentieth century between communism, fascism, and Western democracy, and casts new light on the spy battles and shifting allegiances of our own times. With unparalleled access to Sonya's diaries and correspondence, and never before seen information on her clandestine activities, Ben MacIntyre has conjured a page-turning history of a legendary secret agent, a woman who influenced the course of the Cold War and helped plunge the world into a decades-long standoff between nuclear superpowers.

Please note this is a summary of the book and not the original book *A Spy Among Friends* by Ben MacIntyre. A 30-minute Instaread summary inside this Instaread summary overview of the entire book, introduction to the important people in the book, summary and analysis of all the chapters in the book, key takeaways of the book, a reader's perspective, preview of this book, chapter one. At the age of twenty-two, Nicholas Elliott became a spy. Elliott's father, Sir Claude Aurelius Elliott, headmaster at Eton College, had powerful connections. When Elliott announced his desire to join the intelligence service, his father was able to arrange it for him. Elliott attended prep school at Durnford where he endured horrific brutality, then to Eton and Cambridge. He neither worked hard nor excelled academically but developed a close friendship with Basil Fisher, whose death during the Battle of Britain had a devastating effect on him. In 1938, Elliott was invited to accompany Sir Neville Bland, a senior diplomat, to the Hague, the seat of government in the Netherlands, to serve as his honorary attaché in the foreign office. This opportunity provided his first introduction into clandestine work as well as exposure to Hitler. He left the Hague with the conviction that Hitler must be stopped and the best way to do this was to become a spy.

this book is a commentary in the form of a journal it is meant to be something like a diary kept by a tourist or a spy of his travels in a strange land recording questions and observations and opinions on everything he sees for other travelers on the same road it could be also called a dialogue because the author records the conversation that he has with genesis as he moves along and the conversation he has with himself in the privacy of his motel room in both ways it is the account of a journey with the idea that it may be of some use to others traveling the same road the author is writing as an amateur to other amateurs he is not a professional theologian nor a biblical scholar and while his intent is to think as deeply and truly as he can he is not doing so as a professional there are several advantages that an amateur may have over a professional in a case like this first the amateur can be much bolder in what he questions and in the answers he considers the professional always has something on the line always something at risk namely his reputation he cannot venture far off the beaten path without being in some danger of losing his respectability the amateur on the other hand has little respectability to lose and little reputation to risk what dr boswell would not be able to risk in mathematical writing he can be quite at liberty to

risk in this project it can be exhilarating secondly the amateur has a much friendlier connection with the average reader the amateur is something of an equal with the average reader though presumably with something to say worth the hearing since they are introduced as equals the reader can feel safer less threatened more entitled to join in the conversation that the author is trying to create with a professional author there is always the sense of obligation that one should not argue back with the scholar only another scholar has the credentials to join in their conversation and the rest of us must sort it all out as best we can but with this book there is no need of restraint anyone can be drawn in to the discussion anyone can feel entitled to disagree with impunity it can be exhilarating this book is not meant to be a bible made simple book it is written by someone who loves to think and is written for others who love to think it is written by someone who is not timid about difficult questions and is written for others who have no fear of such things but most of all it is a book written for the pure joy of the thing and for those who might share that joy
