colenso ridgeon who has developed a revolutionary new cure for tuberculosis however his private medical practice with limited staff and resources can only treat ten patients at a time from a group of fifty patients he has selected ten he believes he can cure and who he believes are most worthy of being saved however when he is approached by a young woman jennifer dubedat with a deadly ill husband louis dubedat he admits he can at a stretch save one more patient but that the individual in question must be shown to be most worthy of being saved however the situation is complicated when an old friend and colleague reveals that he too needs treatment most people have wondered whether anything really matters some have temporarily thought that nothing really matters and some philosophers have defended the view that nothing really matters however if someone thinks that nothing matters if they are a nihilist about value then it seems that it is irrational for them to care about anything it seems that nihilism about value mandates total indifference this is the problem of nihilism allan hazlett addresses in the epistemology of desire and the problem of nihilism hazlett argues that the problem of nihilism arises because desire and thus caring is a species of evaluation that admits of irrationality this contradicts the influential humean view that desire does not admit of irrationality which has a ready solution to the problem of nihilism since desire does not admit of irrationality it cannot be irrational to care about something that you believe does not matter however following g e anscombe hazlett argues that desire has the same relationship to goodness as belief has to truth just as truth is the accuracy condition for belief goodness is the accuracy condition for desire this reveals desire as an appropriate target of epistemological inquiry in the same way that belief is an appropriate target of epistemological inquiry desires can amount to knowledge in the same way that beliefs can amount to knowledge and crucially for the problem of nihilism desire admits of irrationality in the same way that belief admits of irrationality nevertheless although it is obviously irrational to believe something that you believe is not true hazlett argues that it is not irrational to desire something you believe is not good despite the fact that goodness is the accuracy condition for desire this provides a solution to the problem of nihilism and shows that nihilism about value can coherently be combined with the anti humean view that desire is a species of evaluation this carefully crafted ebook the science of being great personal self help book of wallace d wattles unabridged is formatted for your ereader with a functional and detailed table of contents the science of being great is the third volume of a series known as the science of trilogy or financial success through creative thought by wallace delois wattles the first two volumes of the trilogy cover money and health while this third volume is a personal self help book of the author he is introducing us to a principle of power and showing us the immense effect of the power of positive thinking wallace delois wattles 1860 1911 was an american author as a new thought writer he remains personally somewhat obscure but his writing has been widely quoted and remains in print in the new thought and self help movements wattles often travelled to chicago where he gave sunday night lectures among several leading new thought authors he studied the writings of georg wilhelm friedrich hegel and ralph waldo emerson and recommended the study of their books to his readers who wished to understand what he characterized as the monistic theory of the cosmos wattles best known work is a 1910 book called the science of getting rich in which he explained how to become wealthy this version of the zen teacher s bestselling book speaks directly to the problems and concerns of the teenage years nothing goes as planned a novel the carson s are in the fight of their lives as a friend shows no remorse for his past misdeeds and a girlfriend wants a helping hand in spite of her previous crimes however these two people become entangled in an unthinkable situation that will

ultimately end in death shannon carson a gulf war veteran is the hero of this fictional story his family members courtney irene stanley noelle and helena serve as revenge seeking and supporting characters as they soon realize that nothing goes as planned central virginia is the backdrop for this tale of lies treachery sex bullying and murder until the gruesome conclusion my purpose in writing this short book is to share my thoughts with my loved ones especially the children in my life i hope these words will be a lasting legacy to my children and grandchildren as they grow up and after i am gone none of these thoughts are original or insightful they are simple truths and ideas but young people seldom take the time to sit down and think about basic things as people like me get older we see young people make mistakes or suffer or destroy relationships and friendships over simple and obvious issues i have often looked back and wished i had made some small things part of my approach much earlier in my life i still often wish i could impart some time gathered wisdom to my children and grandchildren to smooth their path allow them to avoid mistakes and give them a long term perspective in this short term short sighted world this book is my effort to share some of what i have learned these short chapters are not an exhaustive examination of the topics under discussion rather they are straight to the point and simple as a grandfather would make the point to a young person who is not excited about sitting down for a long discussion about meaning of life issues with granddad i hope the young people who read these words will get the gist for those who need more depth hopefully these words will get the discussion started i plan to share this book with my grandkids i hope it will be of interest to them but just as important i hope this book will be read and appreciated by many grandparents who love their grandchildren maybe my words will give them a chance to have a short discussion with their own loved ones they can share all or some of the points as they see fit they can share my thoughts and add to them their own take if they agree with me this may be an easy way to share some truth and advice if they disagree this will be a good place to begin the conversation i pray that once the habit of discussion with their grandchildren is established they can share other thoughts that are important to them god speed frank sanders a kidnapping gone wrong a psychopathic criminal a victim without a memory ten year old danny madsen has been missing for four days when jesse carlton begins his own search for his godson on a frigid snowy night driving along a deserted rural road jesse hits a stretch of black ice at the same time danny appears from the thicket from that moment life changes for everyone when jesse regains consciousness he has no recollection of how he and his car wound up in a ditch however there s a witness charles hastings the sociopathic kidnapper who chased danny through the brush and onto the road where jesse was driving hastings takes this chance to set up jesse so he ll take the fall for both danny s fate and his own psychotic actions and so the mind games begin an onslaught of psychological manipulation that devastates everyone involved and puts them on a rollercoaster of emotions and confusion that seems never ending until the final and devastating truth is revealed

most people have wondered whether anything really matters some have temporarily thought that nothing really matters and some philosophers have defended the view that nothing really matters however if someone thinks that nothing matters if they are a nihilist about value then it seems that it is irrational for them to care about anything it seems that nihilism

about value mandates total indifference this is the problem of nihilism allan hazlett addresses in the epistemology of desire and the problem of nihilism hazlett argues that the problem of nihilism arises because desire and thus caring is a species of evaluation that admits of irrationality this contradicts the influential humane view that desire does not admit of irrationality which has a ready solution to the problem of nihilism since desire does not admit of irrationality it cannot be irrational to care about something that you believe does not matter however following g e anscombe hazlett argues that desire has the same relationship to goodness as belief has to truth just as truth is the accuracy condition for belief goodness is the accuracy condition for desire this reveals desire as an appropriate target of epistemological inquiry in the same way that belief is an appropriate target of epistemological inquiry desires can amount to knowledge in the same way that beliefs can amount to knowledge and crucially for the problem of nihilism desire admits of irrationality in the same way that belief admits of irrationality nevertheless although it is obviously irrational to believe something that you believe is not true hazlett argues that it is not irrational to desire something you believe is not good despite the fact that goodness is the accuracy condition for desire this provides a solution to the problem of nihilism and shows that nihilism about value can coherently be combined with the anti humane view that desire is a species of evaluation

my purpose in writing this short book is to share my thoughts with my loved ones especially the children in my life i hope these words will be a lasting legacy to my children and grandchildren as they grow up and after i am gone none of these thoughts are original or insightful they are simple truths and ideas but young people seldom take the time to sit down and think about basic things as people like me get older we see young people make mistakes or suffer or destroy relationships and friendships over simple and obvious issues i have often looked back and wished i had made some small things part of my approach much earlier in my life i still often wish i could impart some time gathered wisdom to my children and grandchildren to smooth their path allow them to avoid mistakes and give them a long term perspective in this short term short sighted world this book is my effort to share some of what i have learned these short chapters are not an exhaustive examination of the topics under discussion rather they are straight to the point and simple as a grandfather would make the point to a young person who is not excited about sitting down for a long discussion about meaning of life issues with granddad i hope the young people who read these words will get the gist for those who need more depth hopefully these words will get the discussion started i plan to share this book with my grandkids i hope it will be of interest to them but just as important i hope this book will be read and appreciated by many grandparents who love their grandchildren maybe my words will give them a chance to have a short discussion with their own loved ones they can share all or some of the points as they see fit they can share my thoughts and add to them their own take if they agree with me this may be an easy way to share some truth and advice if they disagree this will be a good place to begin the conversation i pray that once the habit of discussion with their grandchildren is established they can share other thoughts that are important to them god speed frank sanders
