this groundbreaking history of how american police forces have been militarized is now revised and updated newly added material brings the story through 2020 including analysis of the ferguson protests the obama and trump administrations and the george floyd protests the last days of colonialism taught america s revolutionaries that soldiers in the streets bring conflict and tyranny as a result our country has generally worked to keep the military out of law enforcement but over the last two centuries america s cops have increasingly come to resemble ground troops the consequences have been dire the home is no longer a place of sanctuary the fourth amendment has been gutted and police today have been conditioned to see the citizens they serve as enemies in rise of the warrior cop balko shows how politicians ill considered policies and relentless declarations of war against vague enemies like crime drugs and terror have blurred the distinction between cop and soldier his fascinating frightening narrative that spans from america s earliest days through today shows how a creeping battlefield mentality has isolated and alienated american police officers and put them on a collision course with the values of a free society

recent years have witnessed a growing interest in the social history of crime and a long a variety of disciplines this book examines the rapid spread of uniformed police forces throughout late nineteenth century urban america it suggests that initially the new kind of police in industrial cities served primarily as agents of class control dispensing and administering welfare services as an unintentioned consequence of their uniformed presence on the streets this narrowed role hampered their ability to control crime and as modern social services developed and the police came increasingly to concentrate on crime control they acquired a functional speciality at which they had never been particularly successful

Let's begin with the basics violence is an inherent part of policing the police represent the most direct means by which the state imposes its will on the citizenry they are armed trained and authorized to use force like the possibility of arrest the threat of violence is implicit in every police encounter violence as well as the law is what they represent using media reports alone the Cato Institute's last annual study listed nearly seven thousand victims of police misconduct in the United States but such stories of police brutality only scratch the surface of a national epidemic every year tens of thousands are framed blackmailed beaten sexually assaulted or killed by cops hundreds of millions of dollars are spent on civil judgments and settlements annually individual lives families and communities are destroyed in this extensively revised and updated edition of his seminal study of policing in the United States Kristian Williams shows that police brutality isn't an anomaly but is built into the very meaning of law enforcement in the United States from antebellum slave patrols to today's unarmed youth being gunned down in the streets peace keepers have always used force to shape behavior repress dissent and

defend the powerful our enemies in blue is a well researched page turner that both makes historical sense of this legalized social pathology and maps out possible alternatives kristian williams is the author of several books including american methods torture and the logic of domination he co edited life during wartime resisting counterinsurgency and lives in portland oregon

while racial tensions have increased in america during the first part of the twenty first century much of this distress has been exacerbated by liberal politicians black americans have suffered injustices at the hands of the white ruling majority especially during segregation and these past injustices have influenced racial unrest today yet it is politicians who have created discriminatory attitudes in order to further their own political gains and positions of power in decaying of america complacency indifference liberalism and ignorance author and former

police officer terry carter exposes the actions and inactions of an inept apathetic and corrupt government and he explains how politicians influence the behaviors that result in the decay of society decaying of america explores contemporary events in the news and how politicians have used these stories to escalate moral decline and carter shares his experiences in law enforcement to show how police attitudes and behaviors have changed over the years during two drastically different periods of american history so much of what we see in the news and in society is politically motivated or carried out due to indifference or ignorance understanding political motivations and learning about the experiences of law enforcement can help true americans prevent a decline in values and morality

how many times have you read a news story about someone being shot by the police while reaching for their waistband or about an officer who testified at trial that the person he shot during a physical struggle had superhuman strength or a thousand yard stare in his eyes and how many times have you watched a police chief or sheriff during a press conference invoke the 21 foot rule to justify their officer s killing of a mentally ill person with a knife these and a host of other verbal devices are what author william harmening calls the deadly force script it is a strategy that has been employed with great success by the law enforcement community in the decades following the landmark u s supreme court decision in tennessee v garner 1985 the case that for the first time placed significant restrictions on a police officer s use of deadly force it is a strategy that has gone relatively unnoticed by the general public the media elected prosecutors and the judges and juries who must rule on the reasonableness of an officer s actions now perhaps for the very first time william harmening pulls back the veil to expose the deadly force script for all to see he does this in a unique and informative way by presenting actual case studies where the script was employed following a deadly police encounter typically right under the unsuspecting noses of local media and the prosecutor tasked with deciding whether to criminally charge the officers involved anyone with an interest in the twin ideals of an equitable system of justice and a
