From the bestselling author of *How to Train Your Dragon* comes an exciting high-adventure series set in an ancient magical time full of wizards, warriors, giants, and sprites. Winner of the Blue Peter Book Award, this is the story of a young boy wizard and a young girl warrior who have been taught since birth to hate each other like poison. The thrilling tale of what happens when their two worlds collide is perfect for boys and girls who love fantasy adventure. Once there was magic, and the magic lived in the dark forests until the warriors came. Xar is a wizard boy who has no magic and will do anything to get it. Wish is a warrior girl, but she owns a banned magical object and she will do anything to conceal it. In this whirlwind adventure, Xar and Wish must forget their differences if they're going to make it to the dungeons at Warrior Fort where something that has been sleeping for hundreds of years is stirring.

## **The Wizards and the Warriors 1986-01**

Book one of the *Wizards* series: fifteen wizards who live in a barren place need to find apprentices to pass on their knowledge of magic and wizardry before they die. The first problem they face is remembering how to speak as they currently use only telepathic communication. This gave me a fun way of introducing each of them and a glimpse into their characters. They send out seven wizards into the world, who each bring back an apprentice. One wizard notices that four of the candidates are females. This causes a discussion on the reasons why wizards have always been men and they have to change their rules. This created a way for me to look at the male and female differences, real and imagined. Each apprentice has a form of communication problem, giving me an opportunity to explore the ways kids adapt to protect themselves from life experiences and different forms of life abuse. Each apprentice has to go before the Higher Council, who has to decide if each of them has the right spirit, stamina, strength, and are dedicated to become wizards and to live in the middle of nowhere. There is lots of problem solving that takes place as each group adapts to the other and how each individual personality unfolds. As the wizards have lived so long with only each other for company, they have all become more and more like each other, and as things change, so do they. Slowly, they become more of an individual. Author J. E. Honey James' ambitions as a writer are to communicate, entertain, and give something back for what he has received from the books and people that have helped him so often over the years. The author of many short stories, James has co-authored *Purple Moon* with Sue McCormack and offered many other story ideas to others. He

has had a couple of short stories published by the alternative natural philosophy association james is interested in other things such as painting drawing and carving not to mention his studies with various healing energies james has retired to wales and is devoting more time to writing the way of the wizards series visit the wizards of pearland and their apprentices at and interact with them
