Surface Characteristics of Fibers and Textiles

2017-09-19

the extraordinary growth in the production and use of man made fibers over the past few decades has focused attention on the surface properties of fibers and textiles this volume combines surface science and technology in its presentation of the substantial progress that has been made in the technology related to the surface characteristics of natural synthetic and glass fibers and textiles adopting an interdisciplinary approach the coverage places emphasis upon the wetting soiling staining frictional and adhesive properties of fibers and fabrics as well as phenomena related to these properties the book offers critical reviews which describe experimental facts theories and processes symbols are clearly defined in each chapter among the subjects covered are the surface properties of glass fibers soil release stain and water repellance friction of fabrics bonding of nonwovens and the wetting of fibers surface characteristics of fibers and textiles part ii is an outstanding textbook for courses dealing with surface chemistry the mechanical properties of textiles textile technology and polymer chemistry it is also a valuable reference book designed to make current knowledge on these subjects accessible to industrial and academic researchers

Animal Traits and Characteristics, Or, Sketches and Anecdotes of Animal Life

1855

the series is devoted to the publication of high level monographs and surveys which cover the whole spectrum of probability and statistics the books of the series are addressed to both experts and advanced students

Occupational Injuries and Illnesses--counts, Rates, and Characteristics

1997

reprint of the original first published in 1873

Selected Topics in Characteristic Functions

2011-11-02

aning amoah s leadership styles and spiritual traits of catholic priests explore the relationship between leadership styles transformational transactional and laissez faire and spiritual traits self directedness sd cooperativeness co and self transcendence st the quantitative correlational study sampled 93 catholic priests from ghana in active ministry the results showed a statistically significant correlation between transformational leadership and spiritual traits a nonstatistical correlation between transactional leadership and spiritual trait variables a negative statistically significant correlation between laissez faire leadership style with self directedness and cooperativeness and a positive statistically significant correlation between laissez faire leadership style and self transcendence thus the more catholic priests provide guidance counseling teaching and shepherding among congregation as a transformational leader the more likely they will be reliable mature effective helpful compassionate and spiritual contrary the more catholic priests become laissez faire leader the more likely they will be weak blaming ineffective emotionally unstable lacking internal organizational principles low sd self absorbed intolerant critical revengeful and self regarding low co and absorbed in what they do spiritual and capable of adapting to situation of pain and suffering high st

Analysis of Ornament. Characteristics of Styles

2023-09-23

this volume constitutes a first step towards an ever deferred interdisciplinary dialogue on cultural traits it offers a way to enter a representative sample of the intellectual diversity that surrounds this topic and a means to stimulate innovative avenues of research it stimulates critical thinking and awareness in the disciplines that need to conceptualize and study culture cultural traits and cultural diversity culture is often defined and studied with an emphasis on cultural features for unesco culture should be regarded as the set of distinctive spiritual material intellectual and emotional features of society or a social group but the very possibility of assuming the existence of cultural traits is not granted and any serious evaluation of the notion of cultural trait requires the interrogation of several disciplines from cultural anthropology to linguistics from psychology to sociology to musicology and all areas of knowledge on culture this book presents a strong multidisciplinary perspective that can help clarify the problems about cultural traits

Characteristics and Hybridization of Important Intermountain Shrubs

1979

emphasize the process of writing with practical hands on activities for each of the following writing traits ideas and content word choice fluency voice organization conventions and presentation each trait section includes student samples and reproducible student pages

The Life, Times, and Characteristics of John Bunyan, Etc

1839

gene expression is the most fundamental level at which genotype gives rise to phenotype which is an obvious observable and measurable trait phenotype is dependent on genetic makeup of the organism and influenced by environmental conditions this book explores the significance mechanism function characteristic determination and application of gene expression and phenotypic traits

The Theories of Darwin and Their Relation to Philosophy, Religion, and Morality

1883

originally published between 1909 and 1917 under the name harvard classics this stupendous 51 volume set a collection of the greatest writings from literature philosophy history and mythology was assembled by american academic charles william eliot 1834 1926 harvard university s longest serving president also known as dr eliot s five foot shelf it represented eliot s belief that a basic liberal education could be gleaned by reading from an anthology of works that could fit on five feet of bookshelf volume v features two collections from american poet and philosopher ralph waldo emerson 1803 1882 essays on such topics as the american scholar self reliance friendship heroism and more and english traits in which he examines the british character as gathered from his travels in england

The Great Teacher: Characteristics of Our Lord's Ministry

1837

exemplary traits examines how roman poets used models dynamically to create character and how their referential approach to character reveals them mobilizing the literary tradition

Leadership Styles and Spiritual Traits of Catholic Priests

2022-07-26

two new york times bestselling authors unveil new research showing what meditation can really do for the brain in the last twenty years meditation and mindfulness have gone from being kind of cool to becoming an omnipresent band aid for fixing everything from your weight to your relationship to your achievement level unveiling here the kind of cutting edge research that has made them giants in their fields daniel goleman and richard davidson show us the truth about what meditation can really do for us as well as exactly how to get the most out of it sweeping away common misconceptions and neuromythology to open readers eyes to the ways data has been distorted to sell mind training methods the authors demonstrate that beyond the pleasant states mental exercises can produce the real payoffs are the lasting personality traits that can result but short daily doses will not get us to the highest level of lasting positive change even if we continue for years without specific additions more than sheer hours we need smart practice including crucial ingredients such as targeted feedback from a master teacher and a more spacious less attached view of the self all of which are missing in widespread versions of mind training the authors also reveal the latest data from davidson s own lab that point to a new methodology for developing a broader array of mind training methods with larger implications for how we can derive the greatest benefits from the practice exciting compelling and grounded in new research this is one of those rare books that has the power to change us at the deepest level

Characteristics of General Assistance in the United States

1970

this book examines the differential geometry of manifolds loop spaces line bundles and groupoids and the relations of this geometry to mathematical physics applications presented in the book involve anomaly line bundles on loop spaces and anomaly functionals central extensions of loop groups kähler geometry of the space of knots and cheeger chern simons secondary characteristics classes it also covers the dirac monopole and dirac s quantization of the electrical charge

Understanding Cultural Traits

2016-02-26

research on small groups is highly diverse because investigators who study such groups vary in their disciplinary identifications theoretical interests and methodological preferences the goal of this volume is to capture that diversity and thereby convey the breadth and excitement of small group research by acquainting students with work on five fundamental aspects of groups the volume also includes an introductory chapter by the editors which provides an overview of the history of and current state of the art in the field together with introductions to each section discussion questions and suggestions for further reading make the volume ideal reading for senior undergraduate and graduate students interested in group dynamics

Traits of Good Writing

2006-02-28

in this work african american historian joseph e hayne counters and refutes white racist theories of his era that denigrated blacks through alleged scientific evidence although lacking the scientific credentials held by his antagonists hayne discusses issues of race amalgamation and the idea that black persons are hamites or descendants of biblical noah s son ham

Traits and Stories of the Irish Peasantry

1834

this book discusses the theory of wavelets on local fields of positive characteristic the discussion starts with a thorough introduction to topological groups and local fields it then provides a proof of the existence and uniqueness of haar measures on locally compact groups it later gives several examples of locally compact groups and describes their haar measures the book focuses on multiresolution analysis and wavelets on a local field of positive characteristic it provides characterizations of various functions associated with wavelet analysis such as scaling functions wavelets mra wavelets and low pass filters many other concepts which are discussed in details are biorthogonal wavelets wavelet packets affine and quasi affine frames msf multiwavelets multiwavelet sets generalized scaling sets scaling sets unconditional basis properties of wavelets and shift invariant spaces

Gene Expression and Phenotypic Traits

2020-04-01

references to 1836 journal articles dissertations and books published since 1970 also contains foreign language titles focuses on literature dealing with the theoretical and practical relationships between religion and mental health classified arrangement each entry gives bibliographical information and abstract author subject indexes
