Humanisme i literatura neolatina 1982

this timely volume examines how the advent of the european community as a geopolitical entity has affected the geography and development of its member states showing how the community has influenced wide ranging social and economic changes the 1986 single european act has fundamentally changed the way in which resources are viewed utilized and managed in europe the globalization of economic processes is increasingly being matched by a europeanization of political decision making all this has to be set against a growing concern about the need to manage available resources effectively both for production and consumption these concerns are expertly addressed in this book which also offers an excellent introduction to the political evolution of the ec and the infrastructure for regional development the book concludes with provocative and illuminating speculations about the future of the community and europe as a whole the result of a collaboration in an ec erasmus teaching exchange program the book features contributors whose national perspectives collectively provide a uniquely

varied view of the late 20th century geography of the ec countries

la prima guida della cantine di alba la pubblicazione della guida dei produttori della città di alba è un momento da celebrare si tratta infatti di uno dei primi tentativi di unire sotto un unica bandiera i moltissimi produttori della capitale delle langhe creando una sinergia e un unione che speriamo sia solo il primo passo di una promozione a lungo termine l'idea che sta infatti alla base della pubblicazione è che questa funga da motore di valorizzazione una sorta di innesco a partire dal quale i produttori albesi potranno proporsi ad eventi nazionali e internazionali con forze e contenuti che solo un solido gruppo possono garantire la guida va dunque sfogliata in divenire augurandosi cioè che fondi le basi di un associazione che continuerà a portare il nome vitivinicolo di alba nel mondo ma la guida dell'associazione cantine di alba va anche consultata per il suo lato pragmatico the first guide to the wineries of alba the publication of the guide to the wineries of the city of alba is something to celebrate in fact it is one of the first attempts to unite the plethora of producers in the capital of the langhe in a common cause creating a synergy and togetherness that we are certain is just the first step toward long term promotion in fact the idea behind the publication was that it would act as a booster a springboard for the producers of alba to propose their participation in national and international events with the forces and the content that only a solid group can guarantee one must therefore flip through the guide aware that it is in evolution hoping that it will lay the foundations for an association that will continue to carry the flag of alba s winemaking out in the world

L'Italia d'oltremare rivista illustrata dei nostri possedimenti ... 1881

based on an analytical evaluation of both the weaknesses and strengths of the italian political system italy in the european union is the first book to offer a detailed and comprehensive description of italy s contribution to european union policy making the contributors to this volume systematically explore the role played by italian institutional and noninstitutional actors in several decision making processes they show how italian institutional actors define and promote national policy preferences that are compatible with those of the other european member states however the book functions on two levels it is both a nuanced picture of italy s role in the eu and a study of the eu as it has been transformed by subsequent waves of enlargement in a compound polity of twenty seven member states the formation of stable hegemonic coalitions is implausible the concept of national interest which still informs much of the literature on the eu is logically and empirically unusable in many eu policy realms combining empirical investigation and theoretical analysis this book is indispensable for scholars students and practitioners who study or observe italian politics it is also necessary for those who want to understand the transformation of european politics and the european union s increasing development as a compound polity contributions by marco brunazzo maurizio carbone sabrina cavatorto vincent della sala alessia donà sergio fabbrini paolo foradori giorgio giraudi renata lizzi simona piattoni paolo rosa stefano sacchi alberta m sbragia daniela sicurelli and luca verzichelli
