subhas chandra bose visited poland in july 1933 there were so far practically no sources to find what the purpose of the visit was why did he decide to go to poland the only information existing in this respect was that bose had meetings with the orientalist of the academic centres basing on the documents of the embassy of poland in vienna consulate of poland in bombay as well as original letters of the ministry of foreign affairs of poland and other central state institutions in poland all from the years 1933 1936 i have come to the conclusion that the purpose of bose s visit to poland was well defined but the ideas he had in mind about indo polish relations could materialise only after almost four decades the paper should be read together with the original documents which are included in original polish version and in english translation

suppose you could communicate with a visitor who was not from this place time space or even this dimension what would you want to ask them the answers probably lie in what our own response would be if we were them this book is based on a collection of interviews i have had with a few individuals who may have actually had such an experience the idea is that if enough of us are ready to ask the questions and gain the answers then our collective knowledge and understanding of the multiverse about us can

only continue to be enhanced sometimes the responses that you will read here are similar often they are diametrically opposed to each other an open but highly skeptical mind is extremely necessary if you are going to sift through the data that is presented in this book the intent is that it should peak your curiosity to learn more about visitors in this way we may be better informed and prepared and thus in some sort of coherent shape to deal with their arrival if you read this book you must be well prepared to choose for yourself what you will or will not believe
