reading song lyrics offers the first systematic introduction to lyrics as a vibrant genre of performed literature it takes lyrics seriously as a complex form of verbal art that has been unjustly neglected in literary music and to a lesser degree cultural studies partly as it cuts squarely across institutional boundaries the first part of this book accordingly introduces a thoroughly transdisciplinary interpretive framework it outlines theoretical approaches to issues such as performance and performativity generic convention and cultural capital sound and songfulness mediality and musical

multimedia and step by step applies them to the example of a single song the second part then offers three extended case studies which showcase the larger cultural and historical viability of this model probing into the relationship between lyrics and the ambivalent performance of national culture in britain it offers exemplary readings of a highly subversive 1597 ayre by john dowland of an 1811 broadside ballad about sara baartman the hottentot venus and of a 2000 song by jungle punk collective asian dub foundation reading song lyrics demonstrates how and why song lyrics matter as a paradigmatic art form in the culture of modernity

a self portrait in 154 songs by our greatest living songwriter more often than i can count i ve been asked if i would write an autobiography but the time has never been right the one thing i ve always managed to do whether at

home or on the road is to write new songs i know that some people when they get to a certain age like to go to a diary to recall day to day events from the past but i have no such notebooks what i do have are my songs hundreds of them which i ve learned serve much the same purpose and these songs span my entire life in this extraordinary book with unparalleled candour paul mccartney recounts his life and art through the prism of 154 songs from all stages of his career from his earliest boyhood compositions through the legendary decade of the beatles to wings and his solo albums to the present arranged alphabetically to provide a kaleidoscopic rather than chronological account it establishes definitive texts of the songs lyrics for the first time and describes the circumstances in which they were written the people and places that inspired them and what he thinks of them now presented with this is a treasure trove of material from mccartney s personal archive drafts letters photographs never seen before which make this also a unique visual record of one of the greatest songwriters of all time we learn intimately about the man the creative process the working out of melodies the moments of inspiration the voice and personality of paul mccartney sings off every page there has never been a book about a great musician like it

just as our society delights in citations quotations and allusions in myriad contexts not least in popular song late medieval poets and composers knew well that such references could greatly enrich their own works in the art of the grafted song citation and allusion in the age of machaut author yolanda plumley explores the penchant for borrowing in chansons and lyrics from fourteenth century france uncovering a practice integral to the experiments in form genre and style that ushered in a new school of lyric working across disciplinary boundaries plumley traces creative appropriations in the burgeoning fixed forms of this new tradition to build a more intimate

understanding of the shared experience of poetry and music in the generations leading up to and including guillaume de machaut exploring familiar and less studied collections of songs as well as lyrics without music this book sheds valuable light on the poetic and musical knowledge of authors and their audiences and on how poets and composers devised their works and engaged their readers or listeners it presents fresh insights into when and in which milieus the classic ars nova polyphonic chanson took root and flourished and into the artistic networks of which machaut formed a part as plumley reveals old songs lingered alongside the new in the collective imagination well beyond what the written sources imply reminding us of the continued importance of memory and orality in this age of increasing literacy the first detailed study of citational practice in the french fourteenth century song writing tradition the art of grafted song will appeal to students and scholars of medieval french music and literature cultural historians and others interested in the historical and social context of music and poetry in the late middle ages
