Asia-Pacific Security 2016-10-01

from the foreword rose engcoy s insightful study of the life and ministry of rodrigo rudy esperanza is important for two reasons the first is that all of us have much to learn from rev esperanza s example after all he was one of the pioneers of pentecostalism in the philippines his work as a church planter pastor educator and long time senior administrator of the philippines general council of the assemblies of god pgcag was vitally important to that denomination s early success which has situated it in the front ranks of the community of spirit filled believers in his beloved homeland rev esperanza a veteran ecclesiastical firefighter who doused the flames of many a conflict that threatened to disrupt the pgcag s unity not only helped to pilot the united pentecostal fellowship but also led his fellow pentecostals in collaboration with non pentecostal evangelicals in a range of evangelistic and ministry activities that went a long way toward allaying suspicions on both sides growing churches are always the most vulnerable to conflict and schism so christians who long for unity in the body of christ can learn a lot from rev esperanza this book will help with that but dr engcoy s study is important for another reason as well today the christian community is growing rapidly in asia especially east asia rivaling the explosive growth of the church in africa riding the crest of the wave are pentecostal denominations like the pgcag this study of rudy esperanza and the early years of the pgcag gives us a very good idea of what lies ahead for philippine protestantism i find that enormously encouraging george w harper ph d asia graduate school of theology quezon city philippines

v 2 covers a workshop organized by the asian development bank on the improvement of power plant maintenance management in oslo norway and helsinki finland from 28 august to 06 september 1988

The European Union and the Asia-Pacific 2008-05-22

this book investigates the relationships between education and national development in an area of the world where both have acquired considerable importance it questions assumptions which view education primarily as a direct investment in

human capital and approaches which measure the efficacy of educational provision solely in terms of quantifiable differences between inputs and outputs unlike most of the more general works in this field it does not set out either to confirm or to refute a particular theory instead the main perspectives which have been adopted to explain the role of education in development are explored the role of education in the development of eight societies in east asia including japan hong kong singapore taiwan south korea malaysia macau and the people s republic of china is examined these societies are compared in order to highlight the diverse and complex role played by education in their development
