sometime around three million years ago the first hominid walked on this planet in the time which has elapsed since then the descendant of this biped has evolved to reach the top of the food chain furthermore it has manipulated other lifeforms and earth s resources in a manner that makes these entirely subservient to only one species homo sapiens in a period less than 0 007 of earth s age man has dramatically altered both the biosphere and the climate this text argues that intelligent manipulation of energy is at the heart of human supremacy energy is intertwined in an intricate manner with everything that happens around us from the very beginning nearly three million years ago up until today the human race has evolved and progressed by gaining mastery and control over energy this book presents an insightful description of the evolution of human civilization from an energy perspective showing that energy is the vehicle that has catapulted the human race to a commanding position on earth from rudimentary stone age tools to classical physics from animal power to the steam engine and from relativity and quantum theory to geo politics and climate change drawing upon multiple disciplines it weaves a fascinating story of the history of energy in human civilization it also discusses the dark side of energy exemplified by

climate change pollution and deforestation which is compelling modern human civilization to once again go into an energy transition mode as well as those forms of energy which can counteract such forces renewable and smart energy and their associated innovations

a fascinating look at how the bible has inspired Broadway plays and musicals from Ben Hur to Jesus Christ Superstar

Commentaries on the Laws of England ...

1885

Can business activity in itself be morally good and pleasing to God? Sometimes business can seem so shady, manipulating the bottom line, deceiving the consumer, or gaining promotions because of whom you know. But Wayne Grudem introduces a novel concept: business itself glorifies God when it is conducted in a way that imitates God's character and creation. He shows that all aspects of business, including ownership, profit, money, competition, and borrowing and lending, glorify God because they are reflective of God's nature. Though Grudem isn't naïve about the easy ways these activities can be perverted and used as a means to sin, he knows that Christians can be about the business of business. This biblically based book is a thoughtful guide to imitating God during interactions with customers, coworkers, employees, and other businesses. See how your business and your life in business can be dedicated to God's glory.
