ICSBE 2022 2023-08-09

this book highlights the latest knowledge and innovations in the fields of civil engineering and construction industry striving for a sustainable built environment it consists of high quality and innovative research findings selected from the proceedings of the 13th icsbe 2022 under the themes of sustainable construction urban green infrastructure and planning rainwater harvesting and water conservation high performance concrete indoor environmental quality and indoor plants wind and hydro power energy waste and wastewater management for enhanced sustainability impacts of climate change carbon footprint global climate model and landscaping material flows and industrial ecology sustainable materials etc

Sustainable Energy Development and Innovation 2022-02-24

this book contains selected papers presented during the world renewable energy congress wrec 2020 at the instituto superior técnico in lisbon the wrec is dedicated to promoting renewable energy global development and features top international experts policy makers scientists engineers technology developers and business practitioners addressing the most current research and technological breakthroughs in sustainable energy development and innovation the contributions address policy and renewable energy technologies and applications in all sectors for heating and cooling agricultural applications water desalination industrial applications and for the transport sectors presents cutting edge research in green building and renewable energy from all over the world covers the most up to date research developments government policies business models best practices and innovations contains case studies and examples to enhance practical application of the technologies

Women and Work in Asia and the Pacific 2023-02-09

working women everywhere face discrimination inequality and lack of inclusion is reinforced through regulation

policy behaviors and attitudes although there has been progress in some countries gender equality at work has yet to be achieved by any nation this in depth study examines the challenges faced by working women their families and communities in ten countries throughout asia and the pacific new zealand australia japan china cambodia india sri lanka fiji pakistan and the philippines informed by the work of senior academics policy makers and community group representatives and with a foreword by elizabeth broderick independent expert for the working group on discrimination against women and girls united nations human rights council working women s experiences are described and analyzed within a framework of four themes demography globalization technological development and sustainability drawing on this wide range of qualitative and quantitative evidence the authors set out recommendations for coordinated and context sensitive responses specific to each country to improve the working lives of women and girls

Proceedings of IAC-MEBM in Vienna 2016 2016-11-18

international academic conference on management economics business and marketing in vienna austria 2016
iac mebm 2016 november 25 26 2016

Proceedings of Fifth International Congress on Information and Communication Technology 2020-10-21

this book gathers selected high quality research papers presented at the fifth international congress on information and communication technology held at brunel university london on february 20 21 2020 it discusses emerging topics pertaining to information and communication technology ict for managerial applications e governance e agriculture e education and computing technologies the internet of things iot and e mining written by respected experts and researchers working on ict the book offers a valuable asset for young researchers involved in advanced studies

Resilience and seizing opportunities 2022-08-24

the study resilience and seizing opportunities small scale fisheries and aquaculture businesses that thrived during the covid 19 pandemic in south and southeast asia attempts to evaluate and compare the pre and post pandemic situation and scenario of the concerned groups of the fisheries and aquaculture industry in eight countries it reveals how these groups survived by adopting innovations in various country contexts and social settings and how the production supply and market continued operation the study shows how responsive the government policies and interventions were in supporting the concerned groups it also shows the preventive measures taken to contain the mass spread of the covid 19 pandemic and the manner in which the community livelihoods were impacted by these measures the case studies included provide evidence of the resilience of the small scale fishers aquaculture operators and fisheries based business operators and illustrate how opportunities may be seized by them and others affected by similar pandemics and other natural disasters and events the study sheds light on areas where more focus should be given so that all parties may be better prepared for future crises have equitable and inclusive support policies have transparency in policy responses as well as take into account gender equality the recommendations of the study can be applied at national regional and international level while adaptation policies investment and action plans may be taken for the sustainability and resilience of small scale fisheries and aquaculture businesses in the future

Canal Irrigation Systems in India 2023-10-04

the book focuses broadly on the preliminaries of the canal irrigation systems in india with a focus on their operation maintenance and management of the canal systems the chapters in this book are classified under four sections viz i preliminaries of the canal irrigation systems ii operation of the canal irrigation systems iii maintenance of the canal irrigation systems and iv management of the canal irrigation systems the preliminaries of the canal irrigation systems include an integrated view of irrigation and agriculture irrigation management in india problems issues a brief history and some lessons irrigation administration organizational

structure for management of irrigated agriculture and farmers participation the operation of the canal irrigation systems includes the operation of dams and barrages canal operation water distribution planning measurement of flow and sediment in canals and performance evaluation of the canal irrigation system use of groundwater in the canal command area the canal irrigation systems maintenance includes dams barrages related equipment canals and related structures field drainage diagnostic analysis of canal irrigation system soil and water quality management soil moisture and measurement the management of the canal irrigation systems includes rehabilitation and modernization and a case study on rehabilitation conjunctive use management operation and maintenance budgeting and financing the book is expected to be useful for academicians water practitioners scientists water managers environmentalists administrators ngos researchers and students who are actively involved in the operation maintenance and management of the canal irrigation system for addressing the challenges being faced in the irrigated agricultural while addressing issues of canal irrigation systems in south east asia

Multi-Hazard Early Warning and Disaster Risks 2021-09-11

this book presents a collection of papers under the theme of multi hazard early warning and disaster risks these were selected from the presentations made at the international symposium on tsunami and multi hazard risks early warning and community awareness in supporting implementation of the sendai framework for disaster risk reduction 2015 2030 this conference aimed to recognize achievements and to highlight work that still needs to be carried out the conference promoted collaboration among academia research institutions and disaster management offices and further encouraged multidisciplinary and multi sectoral interaction this international symposium on multi hazard early warning and disaster risk reduction provided an important opportunity to reflect upon our progress to date in tackling disaster risk but also to consider some of the challenges and opportunities that lay ahead of us a particular focus of this event was multi hazard early warning during the negotiations for the sendai framework countries and partners highlighted the need to 1 continue to invest in develop maintain and strengthen people centred end to end early warning systems 2 promote the application of simple and low cost early warning equipment and facilities 3 broaden the dissemination channels for early

warning information to facilitate early action countries also called for the further development of and investment in effective nationally compatible regional multi hazard early warning mechanisms to address these needs global target g of the sendai framework was adopted namely to substantially increase the availability of and access to multi hazard early warning systems and disaster risk information and assessments to the people by 2030 as illustrated by recent events in indonesia it is also vital to address the challenge of cascading hazards that pose a tsunami risk and the importance of linking tsunami early warning to a multi hazard environment however moving towards a multi hazard environment is complex and poses many challenges but can bring significant benefits in terms of efficiencies and also in recognising the links between hazards such as cascading threats we very much hope that this book will provide an important platform to address these and other challenges in addressing disaster risk as well as supporting implementation of the sendai framework for disaster risk reduction

Development in Coastal Zones and Disaster Management **2020-10-13**

in the last two decades coastal regions have relatively endured some of the fiercest oceanic and geophysical disasters than the earlier decades yet disaster management governance fails to match the human nonhuman and environmental calamity which is unfolding in its most frequent and unpredictable pattern between the asian tsunami of 2004 to the devastating chennai and kerala floods of 2018 the socio industrial livelihood impact alerts governments towards a greater and more serious compliance to laws for coastal conservation the united nations office for disaster risk reduction undrr in 2018 had shocking statistics to share as the deaths and damages related to only tsunami disaster at the coasts to 251 770 and us 280 billions respectively in the last 20 years 1998 2017 as compared to 998 and us 2 7 billion in the previous 20 years 1978 1997 coastal conservation is no more a question of casual governance but has become a need for survival the region of south asia which ranks much higher in its vulnerability weak resilience and relatively undersupplied governance structures ought to take this responsibility on a priority the spirit of hyogu declaration and the sendai framework for action

suggests preparedness and resilience building as key approach areas in coastal governance the book is incomparable in its holistic and transdisciplinary social science based approach to disaster management which links conservation of marine flora and fauna ecosystems and land management with decision making processes and coastal regulations these grass root findings from the subcontinent are substantiated by a section on the most powerful court battle on the kerala floods as a guideline for readers to discerningly identify an act of god often used as a veil to hide lack of preparedness apathy and political greed this book becomes indispensable reading for anyone involved in research administration or any level of decision making for the mitigation and prevention of disasters

The Routledge Handbook of English-Medium Instruction in Higher Education 2024-03-21

this handbook discusses the theoretical and disciplinary background to the study of english medium instruction emi in higher education worldwide it highlights issues relating to emi pedagogy varying motivations for emi education and the delivery of emi in diverse contexts across the world the spread of english as a teaching medium and the lingua franca of the academic world has been the subject of various debates in recent years on the perceived hegemony of the english language and the domain loss of non english languages in academic communication encompassing a wide range of contributions to the field of emi the chapters of this handbook are arranged in four distinct parts part i provides an overview of english medium instruction in higher education worldwide part ii focusses on emi in europe part iii on emi in the middle east north africa and sub saharan africa and part iv on emi in the asian region the overall scope and level of expertise of this handbook provides an unrivalled overview of this field of education it serves as an essential reference for many courses dealing with applied linguistics english language education multilingualism sociolinguistics and related subjects at many levels of education including master s and phd level studies this handbook serves as a valuable edition for university libraries across the world and an essential read for many faculty undergraduate and postgraduate students educators and policymakers

English in East and South Asia 2021-08-29

this book provides a first systematic and comprehensive account of english in east and south asia eesa based on current research by scholars in the field it has several unique features firstly it provides a rigorous theoretical overview that is necessary for the understanding of eesa in relation to the burgeoning works on world englishes as a discipline secondly in the section on linguistic features a systematic template was made available to the contributors so that linguistic coverage of the variety varieties is similar thirdly the vibrancy of the sociolinguistic and pragmatic realities that govern actual english in use in a wide variety of domains such as social media the internet and popular culture music are discussed finally this volume includes an extensive bibliography of works on eesa thus providing a useful and valuable resource for language researchers linguists classroom educators policymakers and anyone interested in the topic of eesa or world englishes this volume hopes to advance understanding of the spread and development of the different sub varieties reflecting both the political developments and cultural norms in the region

Financial Inclusion in Sri Lanka 2010

this book constitutes the refereed proceedings of the 4th international conference on data mining and big data dmbd 2019 held in chiang mai thailand in july 2019 the 26 full papers and 8 short papers presented in this volume were carefully reviewed and selected from 79 submissions they are organized in topical sections named data analysis prediction clustering classification mining pattern mining tasks

Data Mining and Big Data 2019-07-25

provides a rigorous analysis of sustainable development that includes practical policy relevant global case studies explained concisely and clearly

Sustainability in the Twenty-First Century 2019-05-23

in 2009 after decades of conflict the sri lankan government proclaimed the decisive defeat of the liberation tamil tigers of elam subsequently the state proved resistant to attempts by the un and other international bodies to promote post war reconciliation or reform in this incisive new work judith large investigates the ways in which the rajapaksa government was able to subvert international diplomatic efforts as well as exploring the wider context of rising sinhalese nationalism the attendant growth of discrimination against minorities and efforts by both the diaspora and citizens within sri lanka to work towards a positive peace push back is vital reading not only for those interested in sri lanka but also for those concerned about the wider implications of the conflict for human rights peace making and geopolitics

Push Back 2016-12-15

this handbook is a comprehensive source of information analysis and directions in disaster studies it goes beyond the oft explored issues of management and science related to the topic and explores policies governance law and decision making combined with the processes of implementation and enforcement all the while integrating the latest science and technology updates related to the topic such as artificial intelligence and early warning systems it brings together studies which relate to sociology politics and institutional economics which work under the impact of resource availability issues of leadership and international laws disasters are trans boundary and disaster studies are trans disciplinary it is this aspect which would form the fulcrum of contributions and present a new refreshing and innovative design for the handbook the transformatory pedagogy which started with the hyogo framework for action 2005 2015 and the sendai framework for disaster risk reduction 2015 2030 outlines seven clear targets and four priorities for action to prevent new and reduce existing disaster risks the four priority areas around which the book would revolve are i understanding disaster risk ii strengthening disaster risk governance to manage disaster risk iii investing in disaster reduction for resilience and iv enhancing disaster preparedness for effective response and to build back

better in recovery rehabilitation and reconstruction

International Handbook of Disaster Research 2023-09-30

this book focuses on the global threats to coastal environments from invasive non native species and examines how these alien biological species adversely alter landscapes and socioeconomic conditions as well as the psychological attitudes and perceptions of local inhabitants and tourists designed for the professional or specialist in marine science coastal zone management biology and related disciplines this volume appeals to those not only working directly with invasive flora and fauna species but also those individuals involved in a wide array of coastal related fields examples and case studies of coastal invasive species are drawn from many different geographic areas worldwide including north and south america europe oceania the caribbean southeast asia and africa

Impacts of Invasive Species on Coastal Environments 2018-07-24

in hidden wars sara e davies and jacqui true examine the relationship between reports of sexual and gender based violence sgbv and structural gender inequality in three conflict affected societies in asia burma the philippines and sri lanka based on extensive field research and an original dataset on conflict related sgbv davies and true show how reporting is significantly constrained by a variety of factors including normalized gendered violence as well as political dynamics affecting local civil society humanitarian and international organizations they address the real world limitations of data collection and argue that these constraints reinforce a culture of silence and impunity that perpetuates sgbv and permits governments to abrogate their responsibility for this violence

Hidden Wars 2024-03-22

this book highlights the latest knowledge and innovations in the field of civil engineering and construction industry striving for a sustainable built environment it includes recent innovative findings from the proceedings of the 11th icsbe 2020 under the themes of sustainable tall buildings sustainable bridge construction and maintenance waste in construction industry sustainable manufacturing and recycling disaster risk reduction for sustainable built environment green innovations and entrepreneurship sustainable water management in developing countries water pollution and ckdu sustainable urban environment and social well being and many greener and sustainable resource and energy efficient innovative research findings

ICSBE 2020 2021-10-24

pandemic risk response and resilience covid 19 responses in cities around the world examines the pandemic s global impacts on public health economies society and labor the book shows how covid 19 intensified natural and anthropogenic hazards and destroyed years of communities governments and the work of development organizations and their investments it focuses on how disaster resilience is central to achieving the 2030 sustainable development goals in a post covid 19 era sections cover current governance practices with special attention given to asia s more successful responses it shows how the various sectors across that society were most impacted by covid 19 including tourism and food systems this book is an essential reference for researchers and practitioners who need to understand response preparedness and future pathways for pandemic resilience showcases risk governance at local national and regional scales captures multidisciplinary and multi sectoral insights through numerous case studies uniquely addresses in a comprehensive and structure manner risk governance methodologies

Pandemic Risk, Response, and Resilience 2022-05-20

this comprehensive handbook assesses the escalation of global natural disasters as a result of climate change examining the complex interplay of human and natural activities it highlights the growing vulnerability of people and communities in developing countries to floods landslides cyclones heat waves and wildfires

Handbook on Climate Change and Disasters 2022-10-13

the handbook on public policy and food security provides multi disciplinary insight into food security analysis across the seventeen sustainable development goals sdgs as food security is an essential outcome and a part of sustainable and healthy food systems this handbook addresses the urgent need to provide a comprehensive overview of the field s current developments

Handbook on Public Policy and Food Security 2024-04-12

post colonial curriculum practices in south asia gives a conceptual framework for curriculum design for english language teaching taking into account context specific features in the teaching learning settings of post colonial south asia it reveals how the attitudes prevalent in post colonial south asian societies towards english negatively influence english language learning the book provides a comprehensive analysis to design a course for english language teaching that aims at building learner confidence to speak english based on original research the study covers bangladesh india pakistan and sri lanka the book focuses on the context specific nature of learners and considers a curriculum design that binds teaching materials and teaching methods together with an aligned assessment chapters discuss language attitudes learner characteristics and english in the context of native languages and introduce a special type of anxiety that stems from existing language attitudes in a society referred to as language attitude anxiety the book will appeal to doctoral and post doctoral scholars in english language education students and researchers of sociolinguistics psycholinguistics as well as

curriculum designers of elt and language policy makers

Post-colonial Curriculum Practices in South Asia 2019-07-10

this book looks at the policy challenges confronting india and other developing countries in creating a robust sustainable and industrialized economy it investigates different facets of the nature structure growth and impact of innovation in industries education and within institutions to foster greater productivity and growth the volume examines systems adopted to boost innovation and diffusion of technology in different economies while also mapping their success and failures it offers suggestions for the future for long term growth sustainability and inclusiveness amidst dynamic fast changing technological frontiers using examples and case studies from india sri lanka and malaysia among others the chapters in the book written to honour the academic work of professor lakhwinder singh in the field of development economics and innovation economics highlight the importance of adopting and adapting new technologies and development models to local contexts and small industries an important contribution to research on innovation economics this interdisciplinary book will be of interest to students researchers practitioners and policy makers working in industrial economics international economics political economy innovation economics institutional economics industrial organization and international trade

Innovation Systems, Economic Development and Public Policy **2022-12-28**

this book is a collection of highly refined articles on historical water projects and traditional water technologies of international interest in the asian region addressing information on past water projects mostly before the 20th century in the asian regions that are technically and culturally of interest and educationally valuable this book explores historical water projects in these regions presenting technologies used at the time including calculation and forecasting methods measurement material labor methodologies and even water culture it is

expected that the old asian wisdom of reviewing the old and learning the new would be realized to a certain extent in modern planning and practice of water projects this book will enable the reader to understand historical water projects and technologies in the asian region it can be used as a one stop resource to source notable asian water projects and their relevance to modern day technology in this regard this book is expected to be of interest to a variety of audiences including the corresponding asian regions and other international audiences interested in asian water history from an engineering perspective

Smart, Sustainable And Inclusive Cities: Changing Urban Dynamics 2023-04-28

social entrepreneurs mobilisers of social change works to fill a gap in research literature exploring the notion of social entrepreneurs their role facets and implications to address the social problems

Water Projects and Technologies in Asia 2022-06-09

this book highlights advances in the fields of civil engineering and construction industry with a particular focus on structural engineering and construction management this book consists of top quality and innovative research papers selected from the proceedings of the 12th icsecm 2021 under the themes of innovations in building materials construction management tall buildings concrete technology and high performance concrete geotechnical engineering water and waste water treatment ckdu problem in sri lanka structural health monitoring design of resistive structures disaster risk reduction and resilience in the built environment fibre reinforced polymer life cycle assessment of buildings and fire safety engineering

Social Entrepreneurs 2022-09-28

this far reaching resource covers a full spectrum of multi faceted considerations critical for energy generation decision makers considering the adoption or expansion of wind power facilities it contextualizes pivotal technical information within the real complexities of economic environmental practical and socio economic parameters this matrix of coverage includes case studies and analysis from developed and developing regions including north america and europe asia latin america the middle east and africa crucial issues to power generation professionals and utilities such as capacity credits fuel saving intermittency penetration limits relative cost of electricity by generation source growth and cost trends incentives and wind integration issues are addressed other economic issues succinctly discussed inform financial commitment to a project including investment matrices strategies for economic evaluations econometrics of wind energy cost comparisons of various investment strategies and cost comparisons with other energy sources due to its encompassing scope this reference will be of distinct interest to practicing engineers policy and decision makers project planners investors and students working in the area of wind energy for power generation

12th International Conference on Structural Engineering and Construction Management 2019-10-17

this book features research papers presented at the international conference on emerging technologies in data mining and information security iemis 2022 held at institute of engineering management kolkata india during february 23 25 2022 the book is organized in three volumes and includes high quality research work by academicians and industrial experts in the field of computing and communication including full length papers research in progress papers and case studies related to all the areas of data mining machine learning internet of things iot and information security

Wind Energy for Power Generation 2022-09-29

drug safety in developing countries achievements and challenges provides comprehensive information on drug safety issues in developing countries drug safety practice in developing countries varies substantially from country to country this can lead to a rise in adverse reactions and a lack of reporting can exasperate the situation and lead to negative medical outcomes this book documents the history and development of drug safety systems pharmacovigilance centers and activities in developing countries describing their current situation and achievements of drug safety practice further using extensive case studies the book addresses the challenges of drug safety in developing countries provides a single resource for educators professionals researchers policymakers organizations and other readers with comprehensive information and a guide on drug safety related issues describes current achievements of drug safety practice in developing countries addresses the challenges of drug safety in developing countries provides recommendations including practical ways to implement strategies and overcome challenges surrounding drug safety

Emerging Technologies in Data Mining and Information Security 2020-06-03

drawing on examples from a wide range of languages and social settings the routledge handbook of sociolinguistics around the world was originally the first single volume collection surveying the current research trends in international sociolinguistics this new edition has been comprehensively updated and significantly expanded and now includes more than 50 chapters written by leading authorities and a brand new substantial introduction by john edwards coverage has been expanded regionally and there is a critical focus on indigenous languages this handbook remains a key tool to help widen the perspective on sociolinguistics to readers interested in the field divided into sections covering the americas asia australasia africa and europe the book provides readers with a solid up to date appreciation of the interdisciplinary nature of the field of sociolinguistics in each area it clearly explains the patterns and systematicity that underlie language variation in use along with

the ways in which alternations between different language varieties mark personal style social power and national identity the routledge handbook of sociolinguistics around the world is the ideal resource for all students in undergraduate sociolinguistics courses and for researchers involved in the study of language society and power

Drug Safety in Developing Countries 2023-07-28

education in the global south faces several key interrelated challenges for which open educational resources oer are seen to be part of the solution these challenges include unequal access to education variable quality of educational resources teaching and student performance and increasing cost and concern about the sustainability of education the research on open educational resources for development roer4d project seeks to build on and contribute to the body of research on how oer can help to improve access enhance quality and reduce the cost of education in the global south this volume examines aspects of educator and student adoption of oer and engagement in open educational practices oep in secondary and tertiary education as well as teacher professional development in 21 countries in south america sub saharan africa and south and southeast asia the roer4d studies and syntheses presented here aim to help inform open education advocacy policy practice and research in developing countries

***The Routledge Handbook of Sociolinguistics Around the World* 2018-01-05**

this book highlights current research and developments in the area of structural engineering and construction management which are important disciplines in civil engineering it covers the following topics and categories of structural engineering the main chapters sections of the proceedings are structural and solid mechanics construction materials systems and management loading effects construction safety architecture architectural engineering coastal engineering foundation engineering materials sustainability the content of this book

provides necessary knowledge for construction management practices new tools and technologies on local and global levels in civil engineering which can mitigate the negative effects of built environment

Adoption and impact of OER in the Global South 2020-09-18

videogames in the indian subcontinent development culture s and representations explores the gaming culture of one of the most culturally diverse and populous regions of the world the indian subcontinent building on the author s earlier work on videogame culture in india this book addresses issues of how discussions of equality and diversity sit within videogame studies particularly in connection with the subcontinent thereby presenting pioneering research on the videogame cultures of the region drawing on a series of player and developer interviews and surveys conducted over the last five years including some recent ones this book provides a sense of how games have become a part of the culture of the region despite its huge diversity and plurality and opens up avenues for further study through vignettes and snapshots of the diverse gaming culture it addresses the rapid rise of videogames as an entertainment medium in south asia and as such also tries to better understand the recent controversies connected to gaming in the region in the process it aims to make a larger connection between the development of videogames and player culture in the subcontinent and globally thus opening up channels for collaboration between the industry and academic research local and global

ICSECM 2019 2022-11-25

this important book examines the management of healthcare tourism in the asia pacific region its main focus is south asia an under researched part of the region but it does not neglect the rest of the region or its networks with other regions the book uncovers the significant roles played by the sociological physiological psychological and economic aspects of healthcare tourism this compilation of conceptual and empirical research findings from diverse socio economic and environmental settings in the developing asia pacific region will enable the reader to triangulate the application of sustainable practices in global and local healthcare while showing the importance of the travel factor in its development regardless of the impact of disasters such as the covid 19

pandemic healthcare tourism is here to stay in a region that has magnificent attractions good health infrastructure and the traditional medicine teachings that have been gifted from unique ancient cultures

Green Banking and Environment 2023-09-25

this book is centred around various interwoven topics which are fundamental to policy analysis in agriculture key concepts and tools that are fundamental for the analysis of agricultural policies and programmes are presented key concepts introduced include the role of the state in a market economy with examples from the sri lankan and other developing economies the international trade environment and conceptual frameworks for analysing important domestic and international trade policies it also highlights interconnections among agriculture development policy and illustrates the extent to which the agricultural sector contributes in achieving economic growth objectives equity and equality objectives and environmental objectives the book takes the readers through the nature of agricultural markets in developing countries with special emphasis on sri lanka and illustrates how the degree of competitiveness is measured at various market levels using multiple indices and methods several tools with accompanying case studies for the analysis of policies and programmes are detailed these tools include the gtap model gravity models extended benefit cost analysis and linear programming tools and models are applied to the analysis of trade policies and agreements marketing policies environmental services extension programmes land tenure reforms and climate change adaptations case studies in relation to the agri food policy and strategy response to covid 19 pandemic are also covered this book is of interest to public officials working in agricultural planning and agricultural policy teachers researchers agro economists capacity builders and policymakers also the book serves as additional reading material for undergraduate and graduate students of agriculture development studies and environmental sciences national and international agricultural scientists policy makers will also find this to be a useful read

Videogames in the Indian Subcontinent 2022-04-09

wetlands provide a key service in an ecosystem such as providing resilience against drought and diverse habitats that support biodiversity because of their ephemeral character and their small size however these vulnerable ecosystems are declining rapidly as climate change continues to surge and human activities expand rational management of wet ecosystems need accompanying actions covering research systematic observation and more climatic and environmental significance of wetlands case studies from eurasia and north africa produces innovative concepts methodologies tools and applications for ecosystem service valuation wetland biodiversity conservation fresh water supply agricultural production food security wetland management and its impact on biodiversity it assesses the cumulative risk posed to wetland habitats and species by human activities and explores the consequences for the delivery of ecosystem services and biodiversity at local regional and global scales as well as the impacts of climate change on wetland ecosystems and water resources covering topics such as geochemistry invasive species and sedimentary change this premier reference source is an indispensable resource for government officials engineers environmental managers environmentalists students and educators of higher education researchers and academicians

The Emergence and Future of Health Tourism in the Asia Pacific Region 2022-12-27

the narrative about the project management profession is dominated by discussions of success and failure along with the need to improve the competence of project managers as a result the community is engaged in a fruitless search for a combination of tools techniques and practices that will result in desired outcomes for funders while the profession has made recent attempts to incorporate environmental and social responsibility these areas are still framed within the existing discourses of project delivery the de gruyter handbook of responsible project management seeks to rethink project management by integrating contributions from the emerging responsible management domain this handbook will explore the nature and extent of project

professionals responsibility at different levels individual team organizational and societal along with the implications for education research and practice the de gruyter handbook of responsible project management offers cutting edge insights into the field of project management it is an essential reference for scholars and practitioners
