Fourteen months in American bastiles 1792 time and the literary the immediacy of information technology has supposedly annihilated both email cell phones satellite broadcasting seem to have ended the long standing tradition of encoding our experience of time through writing paul de man s seminal essay literary history and literary modernity and newly commissioned essays on everything from the human genome to grammatical tenses argue however that the literary constantly reconstructs our understanding of time from eleventh century france or a science fiction future time and the literary shows how these two concepts have been and will continue to influence each other

The Looker-on: a periodical paper, by the rev. Simon Olive-branch [W. Roberts and others]. 1877 drawing on toned paper is a fun way to step outside the box and try something different you can expand your drawing skills by drawing on grey paper because it will help you to discover opportunities and ideas that wouldn t otherwise be possible if you only drew on white paper drawing white objects or animals on white paper is especially tricky as they would look far less noticeable to make such a drawing more prominent we would have to color the background and this is quite difficult and tedious which may discourage you from drawing in this book you will learn to draw from both reference photos and imagination so that you can learn to see things through the artist s eyes enrich your creative mind and get inspired it will help you to see and understand art from a different point of view and to enjoy the endless opportunities that working on toned paper offers reasons to draw on toned paper you can start with white which is pretty interesting you only have to add black and white shades and the paper does the rest of the job your work will seem more complete and won t look pale because lighter hues appear quite darker on a grey surface and they won t disappear like on white paper your highlights will appear much more spectacular and three dimensional drawings on toned paper look more realistic and lifelike you can use the tone of the paper as your mid tone which is particularly helpful if you struggle with creating mid tones on white paper working on grey paper will help you to see and evaluate tonal values more easily the experience and skills gained by working with toned paper is something that you can apply to your white paper in the future working on grey paper will boost your creativity

Recollections of My Mother 1896 already delayed at the point of origin having missed a connecting flight required to spend another night in an interim hotel in a foreign country and now this it was as if destiny was preparing him well for this journey of unknowns that he had embarked upon as gyana sat in the room alone and looked at the single window with bars it felt like being in a jail waiting to be rescued from suspicion will they be able to verify his paperwork and identity will they do it in a timely manner to enable him to continue with his travel plans what will happen if they are not able to verify the documents a multitude of questions played havoc on his mind with no answers in sight except from smile with knowledge describing the ground realities faced by an indian couple when they moved from india to the united states in the early 90s in an age without internet or cell phones this is a first hand account of the life as foreign students in the u s along with its myriad perks and challenges relating a true story of success while balancing life on a shoestring budget this is also a tale of small hopes small pleasures small battles and small victories and yet how all these small things together formed a memorable journey that was larger than life
