sage publications inc 1993

2301 13195 adaptive computation with elastic input sequence

Aug 26 2023

in this work we introduce a new approach called adatape which allows for dynamic computation in neural networks through adaptive tape tokens adatape utilizes an elastic input sequence by equipping an architecture with a dynamic read and write tape

introduction to machine learning adaptive computation and

Jul 25 2023

reviewer luminata state this monograph provides students researchers and application developers with the knowledge and tools required to get the most out of the theory of mathematical statistics and related data modeling methods for solving a large variety of machine learning problems since the

introduction to machine learning fourth edition ethem

Jun 23 2023

the fourth edition offers a new chapter on deep learning that discusses training regularizing and structuring deep neural networks such as convolutional and generative adversarial networks new

2212 11972 scalable adaptive computation for iterative

May 23 2023

we propose the recurrent interface networks rins an attention based architecture that decouples its core computation from the dimensionality of the data enabling adaptive computation for more scalable generation of high dimensional data
