Honda/Acura Performance

1996-12

honda performance enthusiasts all have one basic question when it comes to making their cars faster what parts work and what parts don't the only way to answer that question is to install various parts on a car and test the power output on a dynamometer dyno richard holdener has done that in high performance honda dyno tests holdener's extensive testing provides dyno proven data for all popular honda performance parts from air intake systems to exhausts cams and cylinder heads to nitrous turbos and superchargers there is even a chapter on engine build ups in addition dyno tests on nearly every honda model from the single cam dx to the 2.2l prelude are included acura models are covered as well from the 1.8l ls through the gsr and type r all the way up to exotic nsx there is no better place to find performance answers than in this book
