research shows that enriching learning experiences such as learning communities service learning undergraduate research internships and senior culminating experiences collectively known as high impact practices hips are positively associated with student engagement deep and integrated learning and personal and educational gains for all students particularly for historically underserved students including first generation students and racially minoritized populations while hips potential benefits for student learning retention and graduation are recognized and are being increasingly integrated across higher education programs much of that potential remains unrealized and their implementation frequently uneven colleges are eager to use the hip nomenclature for recruitment promoting equity for traditionally underserved student populations and preparing lifelong learners and successful professionals however hips defy easy categorization or standardized implementation they rely on fidelity quality and consistency being done well to achieve their learning outcomes and above all require attention to access and equity if they are to fulfill their promise of benefitting all student populations equally the goal of delivering on the promise of high impact practices is to provide examples from around the country of the ways educators are advancing equity promoting fidelity achieving scale and strengthening assessment of their own local high impact practices its chapters bring together the best current scholarship methodologies and evidence based practices within the hips field illustrating new approaches to faculty professional development culture and coalition building research and assessment and continuous improvement that help institutions understand and extend practices with a demonstrated high impact for proponents and practitioners this book offers perspectives data and critiques to interrogate and improve practice for administrators it provides an understanding of what s needed to deliver the necessary support

NIH Publication 1980

this book is a detailed and comprehensive guide to undertaking quantitative health research at postgraduate and professional level it takes you through the entire research process from designing the project to presenting the results and will help you execute high quality quantitative research that improves and informs clinical practice written by a team of research experts this book covers common practical problems such as applying theory to research and analysing data it also includes chapters on communicating with ethics committees recruiting samples from vulnerable populations audit as a research approach quasi experimental designs and using cognitive interviewing making it a new and innovative offering for health researchers other topics covered in this book include ethical considerations of research designing and planning quantitative research projects data measurement and collection analyzing and presenting results with a strong practical focus each chapter features examples of real life research to illustrate the quantitative research process as well as tips and insights into research planning and execution this book is an essential guide for all health care professionals undertaking a postgraduate degree as well as health researchers and practitioners who need to carry out research as part of their professional role contributors ruth belling michelle butler catherine comiskey siobhan corrigan gloria crispino orla dempsey suzanne guerin maree johnson carmel kelly elaine lehane maria lohan susan mclaren deirdre mongan corina naughton rhona o connell elaine pierce gary rolfe eileen savage anne scott emma stokes roger watson learning quantitative research is taken much for granted this is probably why there are fewer generic books on quantitative than qualitative research this book is long overdue clearly written and well structured it takes us through the whole journey of a research project from developing research questions to presenting the findings passing through philosophical underpinnings recruitment of participants and ethical considerations written by an array of well known researchers and teachers this book will certainly appeal to new as well as seasoned researchers those who will use it will not be disappointed kader parahoo university of ulster the title of this text is somewhat misleading it is not only an excellent and thorough guide to qualitative health research methods it is also an excellent introduction to all forms of qualitative research it takes the reader gently through theoretical and ethical concerns to the practicalities and benefits of utilising qualitative approaches as

such it is that rare thing a text that can be used by novice researchers to learn their craft and a key reference resource for experienced research practitioners dr john cullen school of business national university of ireland maynooth uk this is a first rate collection of essays that promotes an informed understanding of both underpinning principles and widely used techniques a great deal of effort has clearly been invested in co ordinating the contributions and this has delivered clarity complementarity and effective coverage this is a welcome carefully crafted and very accessible resource that will appeal to students and researchers in healthcare and beyond martin beirne professor of management and organizational behaviour university of glasgow adam smith business school uk

???????????? 1996

jan a kregel is considered to be the best all round general economist alive g c harcourt this is the first collection of his essays dealing with a wide range of topics reflecting the incredible depth and breadth of kregel s work these essays focus on the role of finance in development and growth kregel has expanded minsky s original postulate that in capitalist economies stability engenders instability in international economy and this volume collect s kregel s key works devoted to financial instability its causes and effects the volume also contains kregel s most recent discussions of the great recession beginning in 2008
