presentation this book consists of questions asked by mustafa karnas under the name of akiltaŞi sorulari and answered by him the content of the questions is completely a product of consciousness and it is an occasion for the reader to think to contemplate to open new windows in that person s mind to form a new thinking system and to meet the person s metaphysical systematic and knowledge the questions and their answers are about esoteric spirituality reason intelligence knowledge science and areas that need to be questioned in life mustafa karnas question what could be the first thing the creator created why and how he had to create himself answer himself of course this is a speculative answer my truth subjective as some things cannot be tested god and creation are both concepts the creativity of a structure in the position of infinity is that it imprisons itself in a concept greater than god force it is he who creates the god by conceptualizing himself as a god limiting himself as a system to being creator infinity is limited by making himself god creator in order to manifest his time his time to form the movement since everything that has been created is not in the position to create something it is marked by finitude the infinity god will end creation that is at that moment when the energy field ceases to be god the whole universe will already begin at a point the neutrino flow called the soul in everything stop the electron motion stops and everything collapses into it nothing remains because but white movement creates understanding and reality in its own way question a person who identifies something with his own archetype the archetype of the thing itself what state does it make answer makes it a belief question what is the value that equates the inequality state when you observe an uneven distribution in a field you make a judgment that the distribution is uneven the question is why did you observe this area answer trust since nobody observes inequality in a trustful environment inequality disappears if there is no observation there is no event those who do not trust always observe and always see inequality and the state of inequality persists and a person who trusts justice has confidence in sharing does not control sharing and the perception of inequality disappears

testing is one of the most controversial of all state and federal educational policies the effects of testing are quite ambiguous the same test may lead to different consequences in different circumstances and teachers may use very different strategies to prepare students for tests although most experts agree that mandatory testing leads to teaching to the test they disagree about whether it leads to meaningless drill wasted time de professionalizing teachers and demotivating students or to more challenging and thoughtful curricula more engaging teaching increased student motivation and increased accountability to help sort through this ambiguity and provide a firmer basis for decisions the ambiguity of teaching to the test standards assessment and educational reform offers a hard look at the effects of state testing and thoroughly examines the ambiguity of test preparation and how test preparation practices are influenced by what teachers know and the leadership coming from the school and district drawing on data from a three year study of new jersey s testing policy in elementary mathematics and science it helps to explain the variety of ways that teachers modify their teaching in response to state tests raises important questions and offers useful guidance on how state policymakers and local and district school administrators can implement policies that will improve educational equity and performance for all students it also offers an in depth analysis of classroom practices that should inform teachers and teacher educators whose goal is to meaningfully implement conceptually based teaching practices this comprehensive look at the statewide variation in testing practice features a data based non ideological treatment of how testing affects teachers in a field characterized by ideologically driven beliefs and by anecdotes an extensive and well integrated combination of qualitative and quantitative data sources that provide a statewide overview as well as an in depth analysis of teachers and classrooms a careful analysis of the variety of forms of teaching to the test and a multilevel exploration of how a variety of personal and leadership factors can influence teaching to the test this is an important book for researchers professionals and students in educational testing educational policy educational administration mathematics and science education educational reform and the politics and sociology of education it will also prove useful for state policymakers school and district leaders and teacher educators and curriculum specialists who are making decisions about how to design and respond to new testing systems

The Ambiguity of Teaching to the Test 2011

I have written this book because of the sorrows that addiction has brought upon every community in the United States of America. At the church that I attend, the pastor once asked the congregation how many people had been affected by addiction. Everyone there raised their hands. Behind every addict are loved ones: mothers, fathers, sisters, brothers, husbands, and wives. They all have families. Addiction doesn't happen in a bubble; the lives of many others are also touched by the addict. The passing of the addict also brings great sorrow to many, not just because of the death of a loved one but also because of the potential of that person having been lost because of addiction. My hope with the writing of this book is that the addicts would wake up in some way, they would be shaken out of this stupor and realize their purpose and plan God has called them to in this life, and by living their life to the glory of God, they might bring others with them along the way. Through the principles laid down in this book, I have also felt the need to bring the message of redemption and recovery found in our Lord Jesus Christ to those who are in desperate need of hearing it. The most the Lord Jesus Christ can change and transform lives, even yours, if America is ever going to be delivered from the plague of addiction, then America is going to have to return to the God and Savior that made America a great and prosperous nation to begin with. May God bless you and the reading of this book.

the quest to escape authority has been a persistent feature of the modern world animating liberals and marxists westerners and non westerners alike yet what if it turns out that authority is intrinsic to humanity what if authority is characteristic of everything we are and do as those created in god s image even when we claim to be free of it what if kings and commoners teachers and students employers and employees all possess authority this book argues that authority cannot be identified with mere power is not to be played off against freedom and is not a mere social construction rather it is resident in an office given us by god himself at creation this central office is in turn dispersed into a variety of offices relevant to our different life activities in a wide array of communal settings far from being a conservative bromide the call to respect authority is foundational to respect for humanity itself
