2021-08-12

this book provides deep insight into the social situation of students with different kinds of special needs in various european countries research findings concerning students attitudes towards peers with disabilities and teachers feedback on students social behaviour are also presented full inclusion of students with special educational needs in mainstream education requires equity in each student s chances for academic and social emotional development and their participation in society in the context of inclusive education it is important to take students social participation into consideration are students with special educational needs sen accepted by their peers do they interact with their peers during breaks and classes do they have friends or do they feel lonely in their class this book seeks to answer such questions seeing social participation as a crucial ingredient as well as an outcome of inclusive education this topic is critical because many previous studies show students with sen having a high risk of social exclusion this volume will be of interest to everyone studying special needs education especially those concerned with future improvement of social participation for all students this book was originally published as a special issue of the european journal of special needs education chapter 1 is available open access at routledge com products 9780367209186

Social Participation of Students with Special Educational Needs in Mainstream Education

2020-05-21

this book presents a stimulating and up to date overview of the context of education in sen and suggests how educators can address special needs most effectively by keeping in mind an image of the development of the whole child the editors have assembled an impressive range of thought provoking contributions to the ongoing debate on the actual the possible and the ideal responses that our education system makes or could make to the needs of its most vulnerable students tony cline educational psychology group university college london uk this book provides readers with a fresh often incisive approach to many perennial issues in education these include but are not limited to socio political agendas in inclusion labelling learners self esteem and the delicate balance between different specialists within school systems that must be achieved in the best interest of the child with or without special educational needs and disabilities although written for a uk readership the editors have ensured that the content of most chapters transcends national and systems boundaries with a healthy balance between psychological educational theory and its real world application in contexts that may not be instantly responsive to the child s changing needs dr victor martinelli university of malta malta this book provides a welcome overview and commentary on current complex issues and problems affecting all those with an interest in children and young people with special educational needs ranging as it does from matters surrounding individuals such as labelling therapeutic work and self esteem to wider political historical and socio cultural influences it provides the reader with a challenging informed and critical set of perspectives its strength is the manner in which it tackles complex issues providing thought provoking views for those well versed in the world of special educational needs but also ensuring clear comprehensive background information for novice readers of this topic this book is an excellent compilation of relevant contemporary pieces thoughtfully woven together by highly skilled well placed editors jane leadbetter university of birmingham uk this thought provoking and accessible book provides an overview of key issues in the education of children with special educational needs and disabilities written by highly experienced practitioners and educationalists the book explores a range of approaches for working with this diverse group of learners and invites you to consider your possible responses the book begins with an historical overview of special educational needs and disabilities and a critical guide to current policy the contributors then expertly explore and summarise many of the fascinating topics which arise in practice and scholarly research in this area including ethical and practical implications of labelling children and young people with forms of special educational needs or disability the role of special schools particularly in light of enduring debates about inclusion exclusion what increased student participation student voice and other facets of a democratic classroom mean for students with special educational needs and disabilities the contributions psychology can make to developing and enriching educational practice understanding behaviour in relation to children and young people with special educational needs and disabilities case studies are used to illustrate these discussions and the book includes suggested protocols for good practice throughout the book the reader is asked to reflect on the issues presented and come to their own decisions about what represents good practice in their setting the journey concludes with a look at a possible ideal school or educational setting for children with special educational needs and disabilities contemporary issues in special educational needs is an invaluable guide for trainee and qualified teachers learning support staff senco s local authority officers educational consultants and educational psychologists

Contemporary Issues In Special Educational Needs: Considering The Whole Child

2012-05-01

much has been written about special education and about inclusive education but there have been few attempts to pull these two concepts and approaches together this book does just that sets special education within the context of inclusive education it posits that to include effectively all children with special educational needs in schools requires an integration of both concepts approaches and techniques it has never been more timely to publish a book that helps professionals who work with schools such as psychologists special education professionals and counselors to identify effective practices for children with special needs and provide guidelines for implementing these in inclusive schools

Someone Else's Problem?

1988

today school is becoming a rapidly changing learning environment thinking about students as a homogeneous population is no longer allowed as diversity in terms of culture language gender family organisation learning styles and so on has emerged as a key challenge for education today the debate on special educational needs largely reflects this challenge as working in school implies careful reconsideration of what we mean by normal and special current educational intervention is generally based on a deficit and within child model of facing sen whereas very little attention is given to the role of learning environments the focus is on the child more than on the whole class and on cognition and technical provisions more than on affective sociocultural and community dimensions of learning conversely regarding students and their needs as hidden voices allows us to adopt a transformative approach which sees diversity as a stimulus for the development of educational practices that might benefit all children and help school to become an inclusive and moving organisation the aim of the book is twofold on the one hand it offers a systematic overview of the inclusive education state of the art in six countries germany italy norway sweden uk and usa based on the contributions by well known scholars such as christy ashby barbara brokamp fabio dovigo kari nes mara westling allodi tony booth and beth ferri on the other hand the book analyses five cases of good practices of inclusion related to different subjects and school levels

Inclusive Special Education

2014-08-20

first published in 2002 routledge is an imprint of taylor francis an informa company

Special Educational Needs and Inclusive Practices

2017-01-28

special educational needs and disability provides a clear coherent overview of the historical development of the field of special educational or additional learning or support needs and disability and discusses important past and current social and political contexts in which this took place as well as changes in the law across time it offers broad coverage of a range of needs and disabilities and how to effectively identify and support those young people who experience such needs this revised fourth edition covers recent legislative changes across the uk an expanded discussion of key areas such as social emotional and mental health a new chapter on literacy difficulties and further fair balanced and open discussion of up to date evidence that indicates how young people who experience barriers to their learning are affected by factors associated with such marketisation for example competition between schools and the academies programme special educational needs and disability serves as essential reading for trainee and practising teachers members of governing boards in schools and colleges policymakers and all those working directly with learners and their families

Commonsense Methods for Children with Special Educational Needs

2004-07-31

this book offers the first collection of international academic writing on the topic of teaching assistants it serves as an indicative summary of current research and thinking in this field and as a point of departure for future research and development with contributions from leading researchers the book draws together empirical work on the deployment and impact of teaching assistants from various perspectives and from a range of methodological approaches it highlights and celebrates the vital everyday contributions teaching assistants make to their schools and their communities from their role within classrooms to their moment by moment interactions with pupils and teachers the book examines the effect that teaching assistants can have on pupils learning and wellbeing and considers issues of over dependence on classroom paraprofessionals and the unintended consequences to which this can lead bringing together work from a journal special issue with brand new and updated chapters the contributions offer insight into the liminal space between educator caregiver behaviour manager and facilitator of learning and of peer relations which characterizes the teaching assistant role this timely and important book will be essential reading for academics researchers and students interested in special educational needs disability and inclusion and those interested in the wider topic of paraprofessionals in labour markets

Special Educational Needs and Disability

2022-11-30
