international organizations are increasingly operating across borders and engaging in legal transactions in virtually all jurisdictions this makes familiarity with the applicable law and practice imperative for both international organizations and those who engage in legal relations with them furthermore the issue of whether how and to what extent domestic courts take into account decisions of foreign and international courts and tribunals in their own decision making has become increasingly important in recent years this book provides a comprehensive empirical study of this transnational judicial dialogue focusing on the law and practice of domestic jurisdictions concerning the legal personality privileges and immunities of international organizations it presents a selection of detailed country by country studies examining the manner of judicial dialogue across domestic jurisdictions and between national and international courts the approach taken in this book intersects with three highly topical areas of international legal scholarship the rapidly evolving law of international institutions the burgeoning research into the role of domestic courts in the international legal system and the recent rise

of empirically oriented legal scholarship utilizing our s  
international law in domestic courts database the book presents  
analysis of little known cases which have real international  
significance illustrating the impact and extent of transnational  
judicial dialogue in the international legal system the book provides  
important perspectives on the evolution and status of the law of  
immunity of international organizations and contributes to the  
understanding of relationships between national courts and between  
national and international courts

this volume is the first in a new series of studies on the frontiers of international law the term frontier is traditionally associated with proximity to a boundary or a demarcation line but it is also a connecting point i e a passage or channel between spaces that are usually considered as separate entities the series aims to explore the visible and imaginary boundaries of scholarship in international law it is designed to test the existing table of contents vocabulary and limits of public international law to investigate lines and linkages between centre and periphery and to re map or re think some of its conceptual boundaries the current volume is written in this spirit it deals with the tension between unity and diversification which has gained a central place in the debate under the label of fragmentation it explores the meaning articulation and risks of this phenomenon in a

specific area international criminal justice it brings together established and fresh voices who analyse different sites and contestations of this concept as well as its context and specific manifestations in the interpretation and application of international criminal law the volume thereby connects discourse on fragmentation with broader inquiry on the merits and discontents of legal pluralism in public international law

this book is designed to introduce law students legal actors and human rights activists particularly participants in human rights dialogues with china to the process and reality of a newly confident china s participation in the international human rights system albeit with inherent challenges from an international and comparative perspective one of the key findings of the author s research is that progress towards human rights depends more on judges than on legislators chinese legislators have enacted a series of reforms in order to better protect human rights unfortunately these reforms have not led to greater adherence to china s international human rights obligations in practice the reforms failed because they have generally been misunderstood by chinese judges who often have a limited understanding of international human rights norms specifically this book will examine how judicial misunderstandings have blocked reforms in one specific area the use of severe punishments based on international human rights theory and case studies and data analyses this examination has several purposes the first is to suggest that china ratify the iccpr as the next step for its substantive progress in human rights and as a good preparation for its re applying to be a

member of the un human right council in the future the second is to explain how judges could be better educated in international human rights norms so as to greatly reduce the use of severe punishments and better comply with china s human rights obligations the third is to demonstrate how the international community could better engage with china in a manner that is more conducive to human rights improvements the author s ultimate goal is to enhance dialogue on human rights in china between judges and the chinese government between chinese judges and their foreign counterparts and between china s government and the international community another significant aim of this book is to clarify the controversial question of what obligations china should undertake before its ratification of the iccpr and to re examine trends in its developing human rights policy after standing down from the council in late 2012 the tortuous progress of china s criminal law and criminal justice reforms has confirmed that chinese judges need further instruction on how to apply severe punishments in a manner consistent with international standards judges should be encouraged to exercise more discretion when sentencing so that penalties reflect the intent of relevant domestic laws as well as the international human rights standards enumerated in the iccpr in order to better educate and train judges this book contains introductory chapters that examine the severe punishments currently available to chinese judges from an international human rights perspective to illustrate how chinese justice currently falls short of international norms this paper also

examines several cases that are considered to be indicative of china s progress towards greater respect for human rights and the rule of law these cases demonstrate that china still has a long way to go to achieve its goals at least before abolishing the death penalty forced labor and torture

this book offers a stimulating introduction to the links between areas

of global governance human rights global economy and international law by drawing on a range of diverse subject areas errol p mendes argues that the foundations of global governance human rights and international law are undermined by a conflict or tragic flaw where insistence on absolute conceptions of state sovereignty are pitted against universally accepted principles of justice and human rights resulting in destructive self interest for both the state and the global community the book explores how human rights and international law are applied in some of the critical institutions of global governance and in the operations of the global private sector and how states institutions and global civil society struggle to fight this tragic flaw the book is brought up to date by considering developments in the role of the imf the world bank bilateral investment treaties the likely failure of the doha round of wto negotiations the legacy of the 2008 financial crisis and the role of the international criminal court and the evolving responsibility to protect doctrine in international peace and security crises in the middle east central and west africa among other regions of the world with its intensely interdisciplinary approach this book motivates new thinking in the realm of global governance and international law and promotes the development of new strategies for negotiating between conflicting leadership and organisational values within global institutions the book will be of great interest and use to students and researchers of public international law international relations and political science
