John S. C. Abbott's *David Crockett: His Life and Adventures* is a biography of one of America's most celebrated folk heroes. Born in East Tennessee, Crockett was a hunter and storyteller who became a colonel in the militia and later represented Tennessee in the U.S. Congress. A fierce opponent of President Andrew Jackson's policies, Crockett lost his seat in 1831 but was re-elected in 1833. When he narrowly lost again in 1835, he left for Texas where he died fighting for independence in the Battle of the Alamo. Crockett's larger-than-life exploits became the stuff of legend, and he continues to be celebrated in popular culture today.

in short i believe a little bit of religion is a good thing whether or not you fully embrace the idea of god i believe that judaism should accept this approach and help its adherents translate their deep inherent

religious needs with the symbols and practices of our ancient tradition judaism understands that not only does it have to adapt as part of its cultural dance but it also has to choose and to create in order to complete its mission to help modern jews the children of spinoza and the disciples of einstein to stay on course to see the poetry written into the cosmos and to help one another on the road to contentment with kindness with concern and with love every once in a while somebody comes to me and says rabbi i m so glad i m jewish rabbi i m lucky i have what i need i have what i want and i smile and count my blessings too

this book argues from a distinctly eastern orthodox perspective for the inseparability of classical hellenism from the greek patristic tradition postulating a common striving for truth in both domains and laying emphasis on the contributions of the ancients and greek paideia to christian learning and culture the essays contained in the volume provide a fruitful strategy in the spirit of the late werner jaeger for looking anew at the greek classical world and christianity through the eyes of the greek fathers the direct inheritors of the ancient greek worldview collectively the author and contributors forcefully demonstrate that conflated with the visionary insights of the jewish prophets and of jewish messianism the wisdom of the ancients served to pave the way for the unfolding of the fullness of christian teaching and its spiritually enlightening revelation

myth and the church augustus caesar son of god started the christian calendar moreover he also contributed massively to the persona of christ to christianity and to the christian church indeed jesus a jewish prophet was transformed in the process to become the god of christian europe augustus the godfather of europe spawned a religion alien to rome and the world of rome he had created this was not the work of augustus himself however augustus was the luminary of the roman state religion before he was transformed into the second person of the trinity the processes involved in these changes are followed through the first four centuries of the christian era a brief look at developments since highlight the christian church's continued influence on the western european knowledgebase here you can check out your own mindset against factors that are still crazily influential the cover illustration is of a restored cult figure of augustus one of thousands destroyed by christian zealots let loose in 395 most of the hood of the toga of pontifex maximus is missing this example is at thyatira to where john sent a copy of his revelations all seven churches of the apocalypse were in the roman province of asia just off the coast is the island of samos where augustus lived when he was in the area patmos where john wrote his revelations during his exile there is a bit further out in the aegean sea the reverse of an augustan aureus on the spine shows the winged victory standing on the globe that augustus had installed as centerpiece of the roman curia it was carried at his funeral to lead the procession from the forum to his mausoleum at the end of the fourth century it was removed from the

curia and reinstated three times finally ambrosius bishop of milan insisted it be taken out and utterly destroyed rome and the world of rome collapsed shortly afterwards augustus last 100 days were extremely busy he was supposed to have suffered from the weariness of old age before then but after official functions in rome he went to capri for a few days then on to the games in naples where he indulged in horse play with the athletes and on to beneventum to review his armies before they set off to war his death at the old family home at nola is well documented down to time and day it's the year that's in dispute here christian historians strove to prove jesus was the messiah by his date of birth they also wanted to know when the second coming of christ would occur in the process they had to alter the date of augustus death much was destroyed to cover their tracks fortunately enough remains in the debris to reconstruct the real chronology of the period surprisingly much else remained to be unearthed cicero not herod ordered the massacre of the innocents wise men from the east visited augustus it's all there for the digging
