at age 36 laurence s kuter 1905 1979 became the youngest general officer since william t sherman he served as deputy commander of allied tactical air forces in north africa during world war ii and helped devise the american bombing strategy in europe although his combat contributions were less notable than other commanders in the eighth air force few officers saw as many theaters of operation as he did or were as highly sought after after world war ii he led the military air transport service air university far east air forces and served as commander in chief of the north american air defense command norad despite these accomplishments and others however kuter remains widely underappreciated in architect of air power brian d laslie offers the first biography of this important but unsung pioneer whose influence can be found in every stage of the development of an independent us air force from his early years at west point to his days at the air corps tactical school to his leadership role at norad kuter made his mark with quiet efficiency he was an early advocate of strategic bombardment rather than pursuit or fighter aviation fundamentally changing the way air power was used and later helped implement the berlin airlift in 1948 in what would become a significant moment in military history he wrote field manual 100 20 which is considered the air force s declaration of independence from the army drawing on diaries letters and scrapbooks laslie offers a complete portrait of this influential soldier architect of air power illuminates kuter s pivotal contributions and offers new insights into critical military policy and decision making during the second world war and the cold war

Nuevo Manual completo de Veterinaria [by Lebeaud] ... Traducido del Francés, etc

1851

used as both a core textbook in pt programs and as a clinical reference physical therapy for children 4th edition provides the essential information needed by pts both student and professional when working with children like the previous bestselling editions the 4th edition follows the practice pattern categories of the guide to physical therapist practice and uses the ifc model of the disabling process as it presents up to date evidence based coverage of treatment

in this latest edition suzann campbell delapp robert j palisano and margo n orlin have added more case studies and video clips additional chapters and medline linked references online and evidence to practice boxes to make it easy to find and remember important information provides comprehensive foundational knowledge in decision making screening development motor control and motor learning the impairments of body function and structure and the pt management of pediatric disorders reflects a family centered care model throughout to help you understand how to involve children and their caregivers in developing and implementing intervention plans emphasizes an evidence based approach that incorporates the latest research for the best outcomes follows the practice pattern guidelines of the guide to physical therapist practice 2nd edition which sets the standard for physical therapy practice features the international classification of function disability and health icf of the world health organization who as the model for the disabling process emphasizing activity rather than functional limitations and participation rather than disability in keeping with the book s focus on prevention of disability provides extensive case studies that show the practical application of material covered in the text and are often accompanied by online video clips illustrating the condition and its management makes it easy to access key information with plenty of tables and boxes that organize and summarize important points clearly demonstrates important concepts and clinical conditions you ll encounter in practice with over 800 illustrations takes learning to a deeper level with additional resources on the evolve website featuring over 40 video clips that correspond to case studies and demonstrate conditions found in each chapter helpful resources including web links questions and exercises you ll find helpful when preparing for the pediatric specialist certification exam
