**The Law of the Straits Settlements** 1915 this authoritative work forms a comprehensive examination of the legal and historical context of marine insurance providing a detailed overview of the events and factors leading to its codification in the marine insurance act 1906 it investigates the development of the legal principles and case law that underpin the act to reveal how successful this codification truly was and to demonstrate how these historical precedents remain relevant to marine insurance law to this day

Roscoe's Digest of the Law of Evidence on the Trial of Actions at Nisi Prius 1891 this monograph is an introduction to the fascinating field of the topology geometry and dynamics of closed one forms the subject was initiated by s p novikov in 1981 as a study of morse type zeros of closed one forms the first two chapters of the book written in textbook style give a detailed exposition of novikov theory which plays a fundamental role in geometry and topology subsequent chapters of the book present a variety of topics where closed one forms play a central role the most significant results are the following the solution of the problem of exactness of the novikov inequalities for manifolds with the infinite cyclic fundamental group the solution of a problem raised by e calabi about intrinsically harmonic closed one forms and their morse numbers and the construction of a universal chain complex which bridges the topology of the underlying manifold with information about zeros of closed one forms this complex implies many interesting inequalities including bott type inequalities equivariant inequalities and inequalities involving von neumann betti numbers the construction of a novel lusternik schnirelman type theory for dynamical systems closed one forms appear in dynamics through the concept of a lyapunov one form of a flow as is shown in the book homotopy theory may be used to predict the existence of homoclinic orbits and homoclinic cycles in dynamical systems focusing effect

**Digest of the Law of Evidence on the Trial of Actions at Nisi Prius** 1891 described as ground breaking in kent mcneil s foreword this book develops an alternative approach to conventional aboriginal title doctrine it explains that aboriginal customary law can be a source of

common law title to land in former british colonies whether they were acquired by settlement or by conquest or cession from another colonising power the doctrine of common law aboriginal customary title provides a coherent approach to the source content proof and protection of aboriginal land rights which overcomes problems arising from the law as currently understood and leads to more just results the doctrine s applicability in australia canada and south africa is specifically demonstrated while the jurisprudential underpinnings for the doctrine are consistent with fundamental common law principles the author explains that the australian high court s decision in mabo provides a broader basis for the doctrine a broader basis which is consistent with a re evaluation of case law from former british colonies in africa as well as from the united states new zealand and canada in this context the book proffers a reconceptualisation of the crown s title to land in former colonies and a reassessment of conventional doctrines including the doctrine of tenure and the doctrine of continuity with rare exceptions the existing literature does not probe as deeply or question fundamental assumptions as thoroughly as dr secher does in her research she goes to the root of the conceptual problems around the legal nature of indigenous land rights and their vulnerability to extinguishment in the former colonial empire of the crown this book is a formidable contribution that i expect will be influential in shifting legal thinking on indigenous land rights in progressive new directions from the foreword by professor kent mcneil to read the foreword please click on the sample chapter link
