Celtic Linguistics, 1700-1850: pt. 2. The Gael and Cymbri 2000 this book covers a unique yet virtually ignored episode in irish history the efforts by intellectuals to influence and shape in a radical way the policies and direction of a major political party between 1932 and 1934 michael tierney and james hogan both university academics exploited the opportunity offered by the formation of the blueshirts and fine gael to promote their views for an alternative social economic and political order this order was inspired by catholic social teachings in particular those enunciated by pope pius xi in his encyclical quadragesimo anno issued in 1931 in it the pontiff had advocated a social system which sought to reconcile the conflicting interests of capital and labour by essentially giving representation to the various economic interests in society by organising them according to their vocational groupings with ideas rooted in contemporary catholic social and political philosophy especially catholic corporatism or vocationalism tierney and hogan intended that fine gael become the vehicle for the promotion of their ideas in effect they virtually hijacked the objectives of the party under their influence and that of others including eoin o duffy and ernest blythe fine gael adopted corporate principles and began the process of formulating policies to give practical expression to them among those the party produced was a detailed labour policy the advocates of corporatism though always a tiny minority within the party enjoyed a disproportionate influence they contributed however to divisions within fine gael during a turbulent period in irish politics moreover the party s opponents in fianna fail and the labour movement successfully characterised it as advocating fascism their ultimate failure has obscured the significance of the achievement of hogan tierney and their allies they transformed fine gael into a political party with a radical and distinct ideological programme and succeeded in giving irish politics for a brief period in the 1930s a new dimension and vibrancy

The Gael and Cymbrí 1834 this book is the 9th volume in the established How Ireland Voted series and provides the definitive story of Ireland's mould-breaking 2020 election for the first time ever. Sinn Féin won the most votes, the previously dominant parties shrank to a fraction of their former strengths, and the government to emerge was a coalition between previously irreconcilable enemies. For these reasons, the election marks the end of an era in Irish politics. This book analyses the course of the campaign, the parties' gains and losses, and the impact of issues, especially the role of Brexit. Voting behaviour is explored in depth with examination of the role of issues and discussion of the role of social cleavages such as class, age, and education. The process by which the government was put together over a period of nearly five months is traced through in-depth interviews with participants and six candidates who contested the 2020 election. Give first-hand reports of their campaigns.
