annually it accounts for recent legislative and regulatory developments this edition is current through may 31 2021 this set of selected statutes and regulations offers maximum flexibility and ease of use for law school courses in corporate partnership and business enterprise taxation the 2013 2014 edition takes into account recent legislative and regulatory developments occurring in 2013 and prior years including those regarding the use of controlled corporations to avoid the application of section 304 and those clarifying the treatment of a partner s distributive share and noncompensatory partnership options under section 704 the content is current through april 1 2013 special edition of the federal register containing a codification of documents of general applicability and future effect with ancillaries medicinal plants are important for human health these plants have been used from the prehistoric times to present day these plants based medicines are consumed in all civilizations it is believed that the herbal medicine can give good effect to body without causing side effects to human life medicinal plants are not only a major resource base for the traditional medicine herbal industry but also provide livelihood and health security to a large segment of indian population medicinal plants constitute a large segment of the flora which provide raw materials for use by various industries they have been used in the country for a long time for their medicinal properties these plants are staging a comeback and herbal renaissance is happening all over the globe the herbal medicines today symbolise safety in contrast to the synthetics that are regarded as unsafe to human and environment although herbs had been prized for their medicinal flavouring and aromatic qualities for centuries the synthetic products of the modern age surpassed their importance for a while however the blind dependence on synthetics is over and people are returning to the naturals with hope of safety and security besides the usage of medicinal plants has been increasing as an important role that can support the economic system ayurveda the well known indigenous system of medicine is still regarded as a well organised traditional health care for large sections of rural as well as urban population of india the medicinal plants sector at present is not well organised and needs special attention although different ministries and department in the government sector and ngos and individuals in the private sectors are making their efforts in different directions yet there is a need to co ordinate and systematize the medicinal plants for health are used as herbal treatments and therapies that can be new habits for culture the market is very competitive and could easily be oversupplied this book basically deals with therapeutic potential of medicinal plants medicinal plants priorities in indian medicines diverse studies and implications recent developments of some natural products production and management of medicinal plants on farms classification identification and naming of medicinal plants pests and pest management in medicinal plants ajmalicine raubasine a medicinally important alkaloid from catharanthus roseus vinca rosea cultivation of rutin bearing eucalyptus species iridoids and secoiridoids of the genus swertia studies on medico ethnobotany tropical periwinkle tulsi etc the present book covers cultivation practices of selected commercially important medicinal plants with their processing details and uses the book is very resourceful for medicinal plants growers professionals researchers entrepreneurs and agriculture universities tags how to start processing medicinal plants industry in india medicinal plants
