practitioners students and other interested readers the pentecostal world provides a comprehensive and critical introduction to one of the most vibrant and diverse expressions of contemporary christianity unlike many books on pentecostalism this collection of essays from all continents does not attempt to synthesize and simplify the movement s inherent diversity and fragmented dispersion instead the global flows of pentecostalism are firmly grounded in local histories and expressions as well as the various modes of their worldwide reproduction the book thus argues for a new understanding of pentecostal and charismatic movements that accounts for the simultaneous processes of pluralization and homogenization in contemporary world christianity written by a distinguished team of international contributors across various disciplines the volume is comprised of six parts with each offering a critical perspective on classical themes in the study of pentecostalism led by a programmatic introduction the thirty six chapters within these parts explore a variety of themes history and historiography conversion spirit beliefs and exorcism prosperity politics gender relations sexual identities racism development migration pilgrimage interreligious relations media ecumenism and academic research the pentecostal world is essential reading for students and researchers in anthropology history political science religious studies sociology and theology the book will also be very useful for those in related fields such as culture studies black studies ethnic studies and gender studies topics in the book influence of strategic procurement management on the performance of state corporations in kenya role of supply chain knowledge transfer on the performance of state corporations in kenya determinants of effective implementation of supply chain management practices in the distribution of consumable products in the oil industry in kenya a case of vanoil energy limited influence of supplier evaluation criteria on performance of metals and allied firms in kenya influence of information communication technology on performance of procurement among parastatals in kenya

????????????????????????????????

this book addresses itself to mobilisation and involvement of rural people in development projects it describes an imperfect but nonetheless exciting and thought provoking exercise that drew social science researchers and students from four public universities in kenya into an experiment in participatory research community education and development in two locations the experiment was grounded on the assumptions that the people of kenya are a primary resource and that given proper roles and contribution of planners researchers and programme implementers self sustainable development can be a reality the contribution of this book have focused on

craig groeschel

on the potential of the university to facilitate participation of the people in development they have given specific suggestions on how this might be accomplished

2016

The Global Innovation Index 2015 2015

the global innovation index ranks the innovation performance of 141 countries and economies around the world based on 79 indicators this edition explores the impact of innovation oriented policies on economic growth and development high income and developing countries alike are seeking innovation driven growth through different strategies some countries are successfully improving their innovation capacity while others still struggle

The Search for Biological Active Agent(s) From Actinobacteria, 2nd Edition **2020-03-27**

there is a large market demand for new drugs the existing chronic or common ailments without cures development of new diseases with unknown causes and the widespread existence of antibiotic resistant pathogens have driven this field of research further by looking at all potential sources of natural products to date microbes have made a significant contribution to the health and well being of people globally the discoveries of useful metabolites produced by microbes have resulted in a significant proportion of pharmaceutical products in today s market therefore the investigation and identification of bioactive compounds producing microbes is always of great interest to researchers actinobacteria are one of the most important and efficient groups of natural metabolite producers among the numerous genera streptomyces have been recognized as prolific producers of useful natural compounds as they provide more than half of the naturally occurring antibiotics isolated to date and continue to emerge as the primary source of new bioactive compounds certainly these potentials have attracted ample research interest and a wide range of biological activities have been subsequently screened by researchers with the utilization of different in vitro and in vivo model of experiments literature evidence has shown that a significant number of interesting compounds produced by actinobacteria were exhibiting either strong anticancer or neuroprotective activity the further in depth studies have then established the modulation of apoptotic pathway was involved in those observed bioactivities these findings indirectly prove the biopharmaceutical potential possessed by actinobacteria and at the same time substantiate the importance of diverse pharmaceutical evaluations on actinobacteria in fact many novel compounds discovered from actinobacteria with strong potential in clinical applications

have been developed into new drugs by pharmaceutical companies together with the advancement in science and technology it is predicted that there would be an expedition in discoveries of new bioactive compounds producing actinobacteria from various sources including soil and marine sources in light of these current needs and great interest in the scope of this research this book seeks to contribute on the investigation of different biological active compounds producing actinobacteria which are exhibiting antimicrobial antioxidant neuroprotective anticancer activities and similar

Multipliers of Change 2020-12-02

higher education leadership and management have become increasingly important throughout the years due to the complexities that have to be addressed by universities worldwide this can be seen not only in professionalisation in fields such as faculty management or in areas of quality assurance and internationalisation but also in the need for exchange and training in academic leadership such as that of deans or study deans or of university leadership in general the dialogue on innovative higher education strategies dies is addressing this need in emerging countries by building platforms of exchange and offering training courses not only is the programme supporting capacity building of human resources but it is also specifically focusing on inducing change within the universities such as introducing new instruments or tools in the area of quality assurance and internationalisation and addressing specific challenges or setting up new structures in the form of projects in the frame of the training the national multiplication trainings programme under dies is further addressing the sustainability and multiplication of the dies programme that is alumni are enabled to implement capacity building in higher education leadership and management in their national context the articles within this volume of the potsdamer beiträge zur hochschulforschung potsdam contributions to higher education research analyse and share the experiences of such training programmes held in colombia democratic republic of congo guinea malaysia kenya and uganda they all revolve around the best ways to address the needs and challenges in higher education leadership and management and in building capacities in these areas

Managing Wildlife in a Changing World

2021-12-08

the declining trends of wildlife habitats and species populations are obvious consequences of the socio economic political ecological and technological changes occurring globally along with human population growth there is a growing wave of wildlife diseases invasive alien species human wildlife conflicts climate change poaching infrastructure development and economic options that are ecologically damaging these changes have implications on the management of wildlife resources managing wildlife in a changing world draws experiences from different parts of the world on status challenges and efforts of reversing the current negative trends on wildlife habitats and species in the face of these changes this book is useful for academicians researchers policy makers conservation practitioners students and other interested readers

The Pentecostal World 2023-04-01

the pentecostal world provides a comprehensive and critical introduction to one of the most vibrant and diverse expressions of contemporary christianity unlike many books on pentecostalism this collection of essays from all continents does not attempt to synthesize and simplify the movement s inherent diversity and fragmented dispersion instead the global flows of pentecostalism are firmly grounded in local histories and expressions as well as the various modes of their worldwide reproduction the book thus argues for a new understanding of pentecostal and charismatic movements that accounts for the simultaneous processes of pluralization and homogenization in contemporary world christianity written by a distinguished team of international contributors across various disciplines the volume is comprised of six parts with each offering a critical perspective on classical themes in the study of pentecostalism led by a programmatic introduction the thirty six chapters within these parts explore a variety of themes history and historiography conversion spirit beliefs and exorcism prosperity politics gender relations sexual identities racism development migration pilgrimage interreligious relations media ecumenism and academic research the pentecostal world is essential reading for students and researchers in anthropology history political science religious studies sociology and theology the book will also be very useful for those in related fields such as culture studies black studies ethnic studies and gender studies
