Kathryns Complete Workshop Series 2004-07-07 standards based accountability has become a central feature of the public education system in each state and is a theme of national discussions about how achievement for all students can be improved and achievement gaps narrowed questions remain however about the implementation of standards and accountability systems and about whether their potential benefits have been fully realized each of the 50 states has adopted its own set of standards and though there is overlap among them there is also wide variation in the ways states have devised and implemented their systems this variety may have both advantages and disadvantages but it nevertheless raises a fundamental question is the establishment of common k 12 academic standards which states could voluntarily adopt the logical next step for standards based reform the goal of this book is not to answer the policy question of whether or not common standards would be a good idea rather the book provides an objective look at the available evidence regarding the ways in which standards are currently functioning the strategies that might be used to pursue common standards and the issues that doing so might present

ENC Focus 1994 the district of columbia dc has struggled for decades to improve its public education system in 2007 the dc government made a bold change in the way it governs public education with the goal of shaking up the system and bringing new energy to efforts to improve outcomes for students the public education reform amendment act peraa shifted control of the city s public schools from an elected school board to the mayor developed a new state department of education created the position of chancellor and made other significant management changes a plan for evaluating the district of columbia s public schools offers a framework for evaluating the effects of peraa on dc s public schools the book recommends an evaluation program that includes a systematic yearly public reporting of key data as well as in depth studies of high priority issues including quality of teachers principals and other personnel quality of classroom teaching and learning capacity to serve vulnerable children and youth promotion of family and community engagement and quality and equity of operations management and facilities as part of the evaluation program the mayor s office should produce an annual report to the city on the status of the public schools including an analysis of trends and all the underlying data a plan for evaluating the district of columbia s public schools suggests that d c engage local universities philanthropic organizations and other institutions to develop and sustain an infrastructure for ongoing research and evaluation of its public schools any effective evaluation program must be independent of school and city leaders and responsive to the needs of all stakeholders additionally its research should meet the highest standards for technical quality

Reconceptualizing STEM Education 2016-01-08 over the last decade the concept of civic engagement in higher education institutions hei has led to lively discussions this special issue about civic engagement in hei in europe presents workshop reports and scientific papers which have an implicit statement in common we need to talk concrete and analytical about civic engagement activities approaches and programs on a european and national level without celebrating only normative beliefs and visions furthermore the contributions describe the starting point of a new field of empirical and theory oriented research
