## **Citizen Brown**

2019-09-11

the 2014 killing of michael brown in ferguson missouri ignited nationwide protests and brought widespread attention police brutality and institutional racism but ferguson was no aberration as colin gordon shows in this urgent and timely book the events in ferguson exposed not only the deep racism of the local police department but also the ways in which decades of public policy effectively segregated people and curtailed citizenship not just in ferguson but across the st louis suburbs citizen brown uncovers half a century of private practices and public policies that resulted in bitter inequality and sustained segregation in ferguson and beyond gordon shows how municipal and school district boundaries were pointedly drawn to contain or exclude african americans and how local policies and services especially policing education and urban renewal were weaponized to maintain civic separation he also makes it clear that the outcry that arose in ferguson was no impulsive outburst but rather an explosion of pent up rage against long standing systems of segregation and inequality of which a police force that viewed citizens not as subjects to serve and protect but as sources of revenue was only the most immediate example worse citizen brown illustrates the fact that though the greater st louis area provides some extraordinarily clear examples of fraught racial dynamics in this it is hardly alone among american cities and regions interactive maps and other companion resources to citizen brown are available at the book website

## **Solution-Focused Play Therapy**

2020-11-16

solution focused play therapy is an essential text that blends the process of play therapy with solution focused therapy with a focus on child strengths and resources this book identifies key concepts and principles in solution focused play therapy sfpt the author provides neurobiological and developmental support for sfpt and guidance on how practitioners can transition from using a non directive approach to a more directive and activity based approach based on the developmental needs of the child chapters describe the 12 basic skills needed for employing this approach with children of all ages and their families harnessing a strengths oriented approach the author presents expressive ways to use key sfpt techniques including the miracle question scaling finding exceptions and end of session feedback clinicians will come away from the book with a suite of interventions strategies handouts and forms that can be employed with children of all ages and their families from strength based assessment and treatment planning to the final celebration session

## **Finite Element Analysis with Personal Computers**

2020-11-25

this book addresses the history of finite element analysis fea and why fea is becoming a necessary tool for the solution of a wide variety of problems encountered in the professional engineer s career it helps the user to solve general classes of problems with fea on personal computers

## **Chemical Solution Deposition of Functional Oxide Thin Films**

2014-01-24

this is the first text to cover all aspects of solution processed functional oxide thin films chemical solution deposition csd comprises all solution based thin film deposition techniques which involve chemical reactions of precursors during the formation of the oxide films i e sol gel type routes metallo organic decomposition routes hybrid routes etc while the development of sol gel type processes for optical coatings on glass by silicon dioxide and titanium dioxide dates from the mid 20th century the first csd derived electronic oxide thin films such as lead zirconate titanate were prepared in the 1980 s since then csd has emerged as a highly flexible and cost effective technique for the fabrication of a very wide variety of functional oxide thin films application areas include for example integrated dielectric capacitors ferroelectric random access memories pyroelectric infrared detectors piezoelectric micro electromechanical systems antireflective coatings optical filters conducting transparent conducting and superconducting layers luminescent coatings gas sensors thin film solid oxide fuel cells and photoelectrocatalytic solar cells in the appendix detailed cooking recipes for selected material systems are offered
