today we view czanne as a monumental figure but during his lifetime 1839 1906 many did not understand him or his work with brilliant insight drawing on a vast range of primary sources alex danchev tells the story of an artist who was never accepted into the official salon he was considered a revolutionary at best and a barbarian at worst whose paintings were unfinished distorted and strange his work sold to no one outside his immediate circle until his late thirties and he maintained that to paint from nature is not to copy an object it is to represent its sensations a belief way ahead of his time with stunning implications that became the obsession of many other artists and writers from matisse and braque to rilke and gertrude stein beginning with the restless teenager from aix who was best friends with emile zola at school danchev carries us through the trials of a painter tormented by self doubt who always remained an outsider both of society and the bustle of the art world czanne a life delivers not only the fascinating days and years of the visionary who would astonish paris with an apple with interludes analysing his self portraits but also a complete assessment of czanne s ongoing influence through artistic imaginations in our own time he is as this life shows a cultural icon comparable to monet or toulouse

## Allied Master Strategists 2012-11-15

awarded nasoh s 2012 john lyman book award for best u s naval history allied master strategists describes the unique and vital contribution to allied victory in world war ii made by the combined chiefs of staff based on a combination of primary and secondary source material this book proves that the combined chiefs of staff organization was the glue holding the british american wartime alliance together as such the combined chiefs of staff was probably the most important international organization of the twentieth century readers will get a good view of the personalities of the principals such as field marshal sir alan brooke and fleet admiral ernest j king the book provides insight into the relationships between the combined chiefs of staff and allied theater commanders the role of the combined chiefs regarding economic mobilization and the bitter inter allied strategic debates in regard to overlord and the war in the pacific this book is a must read for anyone interested in the british american alliance in world war ii careful attention is paid in the book to the three organizations that contributed the principal membership of the combined chiefs of staff i e the u s joint chiefs of staff the british chiefs of staff committee and in the case of sir john dill the british joint staff mission in washington after providing a biographical background of the principal member so the combined chiefs of staff rigby provides information on wartime washington d c as the home base for the combined chiefs of staff organization detailed information is given regarding the casablanca conference but the author is careful to distinguish between the formal nature of the big allied wartime summit meetings and the much less formal day to day give and take which characterized british american strategic debates between the british joint staff mission in washington and the u s joint chiefs of staff indeed it is a major contention of the book that it is critical to remember that more than half of the meetings of the combined chiefs of staff took place in washington d c in a regularly scheduled weekly pattern and not at the big allied conferences such as yalta the role of the combined chiefs of staff in directing the war in the pacific and in planning the overlord cross channel invasion of western europe respectively is covered in detail these were the two most contentious issues with which the combined chiefs of staff had to deal rigby attempts to answer the question of why two combative fearless warriors like churchill and brooke would be so unwilling to go back across the channel and to explain the tug of war the british chiefs of staff had to conduct with churchill before a british battle fleet could join the american central pacific drive late in the war the book also provides a wealth of information on the role played

by members of the combined chiefs of staff in the spheres of economic mobilization and wartime diplomacy most of all what allied master strategists does is to give the combined chiefs of staff what they have long deserved a book of their own a book that is not weighted towards the u s joint chiefs on the one hand or the british chiefs of staff on the other a book that is not strictly a naval book an army book or an air book but a book that like the western alliance during world war ii is truly combined in an international as well as an interservice manner

## **Global Powers of Horror 2016-12-19**

global powers of horror examines contemporary regimes of horror into horror s intricacies and into their deployment on and through human bodies and body parts to track horror s work what horror decomposes and perhaps recomposes debrix goes beyond the idea of the integrality and integrity of the human body and it brings the focus on parts pieces or fragments of bodies and lives looking at horror s production of bodily fragments both against and beyond humanity the book is also about horror s own attempt at re forming or re creating matter from the perspective of post human non human and inhuman fragmentation through several contemporary instances of dismantling of human bodies and pulverization of body parts this book makes several interrelated theoretical contributions it works with contemporary post geo political figures of horror faces of concentration camp dwellers body parts of victims of terror attacks the outcome of suicide bombings graphic reports of beheadings re compositions of melted and mingled remnants of non human and human matter after 9 11 to challenge regimes of terror and security that seek to forcefully and ideologically reaffirm a biopolitics and thanatopolitics of human life in order to anchor today s often devastating deployments of the metaphysics of substance critically enabling one to see how security and terror form a geo political continuum of violent mobilization utilization and often destruction of human and non human bodies and lives this book will be of interest to graduates and scholars of bio politics international relations and security studies
