and domination operate on a global scale writers face an ethical and aesthetic dilemma how to write without contributing to the inscription of inequality how to process the colonial past without reverting to a pathology of self disgust can literature ever be free of the shame of the postcolonial epoch ever be truly postcolonial as disparities of power seem only to be increasing such questions are more urgent than ever in this book timothy bewes argues that shame is a dominant temperament in twentieth century literature and the key to understanding the ethics and aesthetics of the contemporary world drawing on thinkers such as jean paul sartre frantz fanon theodor adorno and gilles deleuze bewes argues that in literature there is an event of shame that brings together these ethical and aesthetic tensions reading works by j m coetzee joseph conrad nadine gordimer v s naipaul caryl phillips ngugi wa thiong o and zoë wicomb bewes presents a startling theory the practices of postcolonial literature depend upon and repeat the same structures of thought and perception that made colonialism possible in the first place as long as those structures remain in place literature and critical thinking will remain steeped in shame offering a new mode of postcolonial reading the event of postcolonial shame demands a literature and a criticism that acknowledge their own ethical deficiency without seeking absolution from it during the 1920s and 1930s the new medium of radio broadcasting promised to transform society by fostering national unity and strengthening and popularising national cultures however many hoped that wireless would also encourage international understanding and world peace intentionally or otherwise wireless signals crossed borders bringing talk music and news to enthusiastic distant listeners in other countries in europe radio was regulated through international consultation and cooperation to restrict interference between stations and to unleash the medium s full potential to carry programmes to global audiences a distinctive form of wireless internationalism emerged reflecting and reinforcing the broader internationalist movement and establishing structures and approaches which endured into the second world war the cold war and beyond this study reveals this untold history wireless internationalism and distant listening also explores the neglected interwar experience of distant listening revealing the prevalence of listening across borders and explaining how individuals struggled to overcome unwanted noise tune in as many stations as possible and comprehend and enjoy what they heard the volume shows how radio brought the world to britain and britain to the world it revises our understanding of early bbc broadcasting and the bbc empire service the precursor to today s world service and shows how government influence shaped early bbc international broadcasting in english arabic spanish and portuguese it also explores the wider european and trans atlantic context demonstrating how fascism in italy and germany the spanish civil war and the japanese invasion of china combined to overturn the utopianism of the 1920s and usher in a new era of wireless nationalism today a widening range of historical phenomena are being examined through the psychoanalytic lens while the psychoanalytic tradition itself is coming in for unprecedented historical scrutiny this collection of essays showcases the innovative and sometimes contentious encounters between psychoanalysis and history williams xavier u presents
