A Question of Heroes

1977

the interaction of the individual in history and politics has posed major theoretical questions of historical analysis for the past two centuries is social destiny shaped by forces beyond the power of the individual or can the future be mastered by collective effort under the outstanding leadership of heroic men and women in this classic study a major philosopher and social theorist of the twentieth century offers a searching examination of the conditions under which individuals make choices that significantly alter the course of historical events and presents a scathing critique of various forms of social determinism that deny the individual freedom of action or a decisive role in history the myth of the hero as the savior of the tribe or nation as hook notes is older than written history until the nineteenth century the hero functioned not merely as a cult figure but as a principle of historical explanation a key to the rise and fall of countries and even of cultures the exaggerations and omissions of this point of view produced an equally simplistic reaction with the formulation of determinist historiographies in which physical racial social and economic forces replaced individuals as the dynamic factors in the development of events hook singles out orthodox marxism as the most all encompassing determinist system and subjects the historical thinking of engels plekhanov and trotsky to sharp and meticulous scrutiny using the russian revolution as a test case hook observes that while the february 1917 revolution was an inevitable development the october revolution was according to the best historical evidence contingent upon the personality and actions of lenin in his 1978 reconsideration of the subject of heroism appearing new to this edition hook defines a middle ground between the extremes of voluntarism and determinism that explains why the presence of strong personalities are decisive under certain conditions while under others

key actors would appear to be almost interchangeable he points us toward an understanding of a fascinating problem in history and raises essential questions about the role of great men and women in a democracy the hero in history will be of interest to intellectual historians philosophers political scientists and sociologists

Heroes and Philosophy

2009-07-23

this is not a self help book its purpose is to not to show us how to apply the lessons of a hero s life in our own rather it is a theoretical book explaining what heroes are and why mankind needs them before we can emulate heroes we must properly identify them we must understand who and what they are and what they are not this is a matter of life and death some persons for example at various times have considered as heroes adolf hitler josef stalin and osama bin laden if we are to promote human life it is necessary for us to clearly understand that and why mass murderers are definitively excluded from the echelon of heroes chapters one two and three focus on the nature and definition of a hero and provide a method for distinguishing a hero from non heroes chapter four raises the question of whether under appropriate circumstances everyman and everywoman can rise to heroic heights and answers in the affirmative chapters five six and seven dispute the time honored notion that heroism involves self sacrifice and demonstrate rather that heroism properly understood involves actions self fulfilling heroism and self sacrifice are in fact moral antipodes chapter eight discusses an appropriate response to morally flawed heroes and chapter nine explains the errors of the modern antihero mentality finally chapter ten shows the life giving importance of hero worship the two appendices validate philosophic principles that underlie the theory of heroes elucidated here that human life is the standard of moral value and that human beings possess free will this book does not purport to be an exhaustive analysis of a hero s nature presumably there is more to be said but it is a provocative first step toward understanding the nature of heroes one that will hopefully spark a lively 21st century debate of this important subject

HEROES OF ISRAEL TEXT OF THE H

2016-08-26

in this book erik m francis explores how one of the most fundamental instructional strategies questioning can provide the proper scaffolding to deepen student thinking understanding and application of knowledge you ll learn techniques for using questioning to extend and evaluate student learning experiences eight different kinds of questions that challenge students to demonstrate higher order thinking and communicate depth of knowledge how to rephrase the performance objectives of college and career readiness standards into questions that engage and challenge students francis offers myriad examples of good questions across content areas and grade levels as well as structures to help teachers create and use the different kinds of questions by using this book to fine tune your approach to questioning you can awaken the spirit of inquiry in your classroom and help students deepen their knowledge understanding and ability to communicate what they think and know

this really touch all aspect of human life the collection of poems reveal what true love is the

struggle for power words of wisdom personal development human right child abuse passion nation building struggle with ourselves and many more the poems in this book inspire you to do more and not give up it is written in a way that tells the journey of man from his ignorant age to his advanced age where he can tell the difference between good and bad wrong and right pureness and filthiness this book is a number one choice for lovers of poetry that is easy to understand and relevant to their day to day activities it sure is a guide for all men and women in the journey of life business politics nation building and more

Rethinking the Man Question

2013-07-04

stroll through any public park in brooklyn on a weekday afternoon and you will see black women with white children at every turn many of these women are of caribbean descent and they have long been a crucial component of new york's economy providing childcare for white middle and upper middleclass families raising brooklyn offers an in depth look at the daily lives of these childcare providers examining the important roles they play in the families whose children they help to raise tamara mose brown spent three years immersed in these brooklyn communities in public parks public libraries and living as a fellow resident among their employers and her intimate tour of the public spaces of gentrified brooklyn deepens our understanding of how these women use their collective lives to combat the isolation felt during the workday as a domestic worker though at first glance these childcare providers appear isolated and exploited and this is the case for many mose brown shows that their daily interactions in the social spaces they create allow their collective lives and cultural identities to flourish raising brooklyn demonstrates how these daily

interactions form a continuous expression of cultural preservation as a weapon against difficult working conditions examining how this process unfolds through the use of cell phones food sharing and informal economic systems ultimately raising brooklyn places the organization of domestic workers within the framework of a social justice movement creating a dialogue between workers who don t believe their exploitative work conditions will change and an organization whose members believe change can come about through public displays of solidarity

Heroes of Israel

2019-12-13

1 new york times bestselling author brad meltzer brings together a remarkable group of heroes with one thing in common they were ordinary people who became extraordinary brad was inspired by the birth of his first son to curate this collection but you don t need to be a parent to treasure it heroes for my son is perfect for children parents teachers and anyone looking for inspiration the fifty two featured figures represent the spectacular potential we all have within us to change the world the dynamic pages full of photos quotes and brief biographies are perfect for reading aloud and allow every reader to explore at their own pace not limited to male role models the wonderfully diverse heroes included in the book are men women historical contemporary athletes actors inventors politicians and so much more heroes for my son is a book to be read again and again as the simple question of what makes a hero remains a vital part of today s conversation

A Question of Honor

2007-12-18

before the rise of republics relations between communities were religious and military power based on the rights of the gods and spiritual warfare the sublime powers granted to the elect of the deities with the appearance of the republics and the free man international relations as we know them today began the interaction between the national states with equal culture or legal society independence and sovereignty the right to war disappears no republic establishes the law of war to destroy another nation the world of nations originated and consolidated in the american continent during the seventeenth and eighteenth centuries for the other continents the process began in europe s first world war and extended to asia and africa during the second world war and the cold war but even today religious empires defend themselves by creating wars within republics and supported by monarchies and spiritual states freedom of worship is established in the republics to end servitude no more servants of religion who persecute condemn and subjugate peoples in the name of the gods faith ceases to be an obligation and becomes an option in the republic you can be an atheist during work hours a worshipper of venus at lunch a priest of bacchus and morpheus at night and a worshipper of huītzilōpōchtli during a sporting event and no civil authority can judge you for changing religion or prioritizing science over mythologies in contrast to natural rights republics establish citizen and social rights with constitutions nature does not grant any rights the creation of the free man in the american continent gave good results that inspired european intelligence to create great cosmogonies such as marxism and liberalism but religious empires remain a factor of control and domination they have no legal personality do not pay taxes have their own rules and demand tribute from their faithful

the homeric question has vexed classicists for generations was the author of the iliad and the odyssey a single individual who created the poems at a particular moment in history or does the name homer hide the shaping influence of the epic tradition during a long period of oral composition and transmission in this innovative investigation gregory nagy applies the insights of comparative linguistics and anthropology to offer a new historical model for understanding how when where and why the iliad and the odyssey were ultimately preserved as written texts that could be handed down over two millennia his model draws on the comparative evidence provided by living oral epic traditions in which each performance of a song often involves a recomposition of the narrative this evidence suggests that the written texts emerged from an evolutionary process in which composition performance and diffusion interacted to create the epics we know as the iliad and the odyssey sure to challenge orthodox views and provoke lively debate nagy's book will be

essential reading for all students of oral traditions
