Summary of The Lord of the Rings 2021-02-27 summary of the lord of the rings the lord of the rings in conception was meant as a sequel the hobbit his tale for children was published in 1937 9 the popularity of the hobbit led to demands from his publishers for more stories about hobbits and goblins and so that same year tolkien began writing what would become the lord of the rings not to be finished until 12 years later in 1949 not be fully published until 1955 by which time tolkien would be 63 years old tolkien did not originally intend to write a sequel to the hobbit and instead wrote several other children s tales such as roverandom as his main work tolkien began to outline the history of arda telling tales of the silmarils and many other stories forming the vast background to the lord of the rings and the third age tolkien died before he could complete and put together all of this work cohesively but his son christopher tolkien edited his father s work filled in gaps and published it in 1977 as the silmarillion 10 some tolkien biographers regard the silmarillion as the true work of his heart 11 as it provides the historical and linguistic context for the more popular work and for his constructed languages and had occupied most of tolkien s time as a result the lord of the rings ended up as the last movement of tolkien s legendarium and to him the much larger and i hope also in proportion the best of the entire cycle 3 persuaded by his publishers he started a new hobbit in the third week of december 1937 12 after several false starts the story of the one ring soon emerged and the book mutated from being a sequel to the hobbit to being in theme more a sequel to the unpublished silmarillion the idea of the first chapter a long expected party arrived fully formed although the reasons behind bilbo s disappearance the significance of the ring and the title the lord of the rings did not arrive until the spring of 1938 9 originally he planned to write another story in which bilbo had used up all his treasure and was looking for another adventure to gain more however he remembered the ring and its powers and decided to write about it instead 9 he began with bilbo as the main character but decided that the story was too serious to use the fun loving hobbit and so tolkien looked to use a member of bilbo s family 9 he thought about using bilbo s son but this generated some difficult questions such as the whereabouts of his wife and whether he would let his son go into danger thus he looked for an alternate character to carry the ring in greek legend it was a hero s nephew that gained the item of power and so the hobbit frodo came into existence 9 as the high legends of the beginning are supposed to look at things through elvish minds so the middle tale of the hobbit takes a virtually human point of view and the last tale the lord of the rings blends them tolkien on the silmarillion the hobbit and the lord of the rings respectively 13 writing was slow due to tolkien s perfectionism and was frequently interrupted by his obligations as an examiner and other academic duties the first sentence of the hobbit was in fact written on a blank page which a student had left on an exam paper which tolkien was marking in a hole in the ground there
