Handbook of Urban Geography 2019 this collection brings together the latest thinking in urban geography it provides a comprehensive overview of topical issues and draws on experiences from across the world chapters have been prepared by leading researchers in the field and cover themes as diverse as urban economies inequalities and diversity conflicts and politics ecology and sustainability and information technologies the handbook offers a valuable resource for students and researchers interested in cities and the urban in geography and across the wider social sciences

Urban Geography 2015-03-09 urban geography a comprehensive introduction to a variety of issues relating to contemporary urban geography including patterns and processes of urbanization urban development urban planning and life experiences in modern cities reveals both the diversity of ordinary urban geographies and the networks flows and relations which increasingly connect cities and urban spaces at the global scale uses the city as a lens for proposing and developing critical concepts which show how wider social processes relations and power structures are changing considers the experiences lives practices struggles and words of ordinary urban residents and marginalized social groups rather than exclusively those of urban elites shows readers how to develop critical perspectives on dominant neoliberal representations of the city and explore the great diversity of urban worlds

Urban Geography 2018-01-03 this revised fifth edition not only examines the new geographical patterns forming within and between cities but also investigates the way geographers have sought to make sense of this urban transformation it is structured into three sections contexts themes and issues that move students from a foundation in urban geography through its major themes to contemporary and pressing issues the text critically synthesizes key literatures in the following areas the urban world changing approaches to urban geography urban form and structure economy and the city urban politics planning regeneration and urban policy cities and culture architecture and urban landscapes images of the city experiencing the city housing and residential segregation transport and mobility in cities sustainability and the city this edition builds on the success of the comprehensively revised fourth edition and provides revised chapters on transport mobility and urban futures with additional updating of readings and some case studies the book synthesises a wide range of literature on each subject and presents the material in a lively engaging way supported by an expanded range of student friendly features including exercises and suggestions for further study

Urban Geography 2009 this is the most comprehensive and readable book on urban geography in the array of contemporary literature on the subject

A Geography of Urban Places 2014-06-17 this book presents a selection of readings to present varied opinions approaches and reports from various international professional journals among the journals represented are regional science association journal the canadian geographer the annals of the american association of geographers economic geography landscape journal of soil and water conservation and land economics this book was first published in 1970

Urban Geography in America, 1950-2000 2014-05-01 urban geography in america offers a comprehensive historiography of this major field compiling the best essays from the flagship journal urban geography it shows the evolution of the field from the 1950s to 2000 as it shifted from data driven social science modeling in the 1960s to the more critical perspectives of the 1970s to postmodernism in the 1980s to feminism and globalization in the 1990s it covers all the major trends and figures and features some of the most important names in the field ultimately this will be a necessary reference for all scholars in the field and all graduate students taking introductory courses and preparing for their comprehensive exams

Key Concepts in Urban Geography 2008-12-19 this extraordinary collage of sophisticated essays on key terms in urban geography both provides a conventional basis to and recasts innovatively a burgeoning field in the discipline roger keil co editor international journal of urban and regional research the city is an obvious but confounding object of geographical analysis urban structure and life are shaped by an astounding array of social economic and political dynamics this volume embraces these complexities of city form in a wide ranging readable well informed and highly interdisciplinary analysis of key topics in urban studies with its fresh approach this book provides an accessible entry point for the newcomer to urban geography yet also delivers creative insights for those with greater familiarity professor steven k herbert university of washington organized around 20 short essays key concepts in urban geography provides a cutting edge introduction to the central concepts that define contemporary research in urban geography involving detailed and expansive discussions the book includes an introductory chapter providing a succinct overview of the recent developments in the field over 20 key concept entries with comprehensive explanations definitions and evolutions of the subject a glossary figures diagrams and suggested further reading this is an ideal companion text for upper level undergraduate and postgraduate students in urban geography and covers the expected staples of the subdiscipline from global cities and urban nature to transnational urbanism and virtuality

Urban Studies Inside/Out 2019-10-28 at a time of intense theoretical debates in urban studies the research practices underlying such theories have not received the same attention this original and creative text interrogates the methodological underpinnings of contemporary urban scholarship with reference to different global sites and situations as well as to recent debates around postcolonial planetary and provincialized urban theories rather than reducing methodological questions to a matter of tools and techniques it unearths

the complex connections between theory research design empirical work expositional style and normative ethical commitments innovatively co produced by faculty and graduate students from a variety of disciplines urban studies inside out it is comprised of three parts part i an introduction to the field of urban studies and its changing theories methodological norms and practices part ii features a collection of methodological essays co authored by graduate students deconstructing the research designs the methodological practices and the modes of presentation and representation across recent urban monographs part iii consists of informative keyword primers which explicate the key concepts and formulations in the field of urban studies this volume offers a welcome intervention within urban studies and stands to make a valuable contribution for graduate students and researchers

The Urban Politics of Policy Failure 2022-07-28 this book contributes to debates in geography and urban studies by analysing the spatial dimensions and politics of urban policy failure attention is most often paid to successful urban policies policymakers go to great lengths to emulate success by importing policy models implementing best practices or pursuing silver bullet solutions yet stories of failure are at least as common as those of success some policies fail to launch in the first place others struggle to deliver their goals many collapse under the weight of poor administration insufficient funding or political opposition this book establishes a vocabulary and set of analytical approaches for researching the spatial dynamics and impacts of urban policy failure with a geographically diverse set of cases the authors explore topics including policy mobility urban policy experiments and governance initiatives ranging from sustainability to housing to public health across europe north america and asia the chapters in this book were originally published as a special issue of the journal urban geography

Urban Theory 2016-10-04 urban theory new critical perspectives provides an introduction to innovative critical contributions to the field of urban studies chapters offer easily accessible and digestible reviews and as a reference text urban theory is a comprehensive and integrated primer which covers topics necessary for a full understanding of recent theoretical engagements with cities the introduction outlines the development of urban theory over the past two hundred years and discusses significant theoretical methodological and empirical challenges facing the field of urban studies in the context of an increasing globally inter connected world the chapters explore twenty four topics which are new additions to the urban theoretical debate highlighting their relationship to long established concerns that continue to have intellectual purchase and which also engage with rich new and emerging avenues for debate each chapter considers the genealogy of the topic at hand and also includes case studies which explain key terms or provide empirical examples to guide the reader to a better understanding of how theory adds to our understanding of the complexities of urban life this book offers a critical and assessable introduction to original and groundbreaking urban theory and will be essential reading for undergraduate and postgraduate students in human geography sociology anthropology cultural studies economics planning political science and urban studies

Global Urbanism 2021-06-21 global urbanism is an experimental examination of how urban scholars and activists make sense of and act upon the foundational relationship between the global and the urban what does it mean to say that we live in a global urban moment and what are its implications refusing all encompassing answers the book grounds this question exploring the plurality of understandings definitions and ways of researching global urbanism through the lenses of varied contributors from different parts of the world the contributors explore what global urbanism means to them in their context from the ground and the struggles upon which they are working and living the book argues for an incremental fragile and in the making emancipatory urban thinking the contributions provide the resources to help make sense of what global urbanism is in its varieties what is at stake in it how to research it and what needs to change for more progressive urban futures it provides a heterodox set of approaches and theorisations to probe and provoke rather than aiming to draw a line under a complex changing and profoundly contested set of global urban processes global urbanism is primarily intended for scholars and graduate students in geography sociology planning anthropology and the field of urban studies for whom it will provide an invaluable and up to date guide to current thinking across the range of disciplines and practices which converge in the study of urbanism chapter 36 of this book is freely available as a downloadable open access pdf under a creative commons attribution 4.0 license available at [taylorfrancis.com/books/e/9780429259593](https://www.taylorfrancis.com/books/e/9780429259593)

Eat. Sleep. Urban Geography. - Lined Notebook: Writing Journal 2018-12 5 x 8 118 lined pages college rule line spacing if you love urban geography you'll love this notebook 5x8 size makes it the perfect notebook for taking notes at work while traveling or taking with you anywhere you go college rule lined pages let you write lots of notes and drawings soft matte finish cover is a joy to hold makes a great gift for your favorite urban geographers and an awesome present for college professors

Doing Global Urban Research 2018-03-12 this book unpacks the challenge of how to make sense of urban complexity with contributions from key global scholars it explores various methodological approaches including comparative urbanism social network analysis and data visualisation

An Introduction to Geographical and Urban Economics 2019-12-12 this up to date third edition provides an accessible introduction to urban and geographical economics using real world examples and key models

The Geography of Towns 2017-07-12 when first released much praise was given to this book an outstanding book on urban geography representative of the best on this subject

higher education journal the book ought to be required reading for every planner and student of planning a magnificent achievement town and country planning the geography of towns provides a concise but thorough introduction to the important subject of urban geography it traces the development of urban areas from the earliest sites of nineveh aleppo and agade to modern megalopolises and strip cities and deals authoritatively with problems of classification and ranking location and type origins and course of development and the relationship of the city to its region and nation all facets of urban geography are covered including the core integuments population structure land use patterns enclaves and town structure population mobility and the continual crisscross circulation of populations within and between town and region are seen as important forces affecting the internal geography of towns the author questions the usefulness or validity of such terms as neighborhood and stresses the need for more meaningful conceptualizations and vocabulary one of the fundamental problems connected with urban geography is to assist in the planning of future cities this book contributes substantially to an understanding of the interrelations of town and region and to an understanding of the components of the city itself which are essential to intelligent planning for the future

Global Cities and Urban Theory 2016-12-13 global cities and urban theory provides an innovative set of approaches to understanding some of the world's major cities working with concepts such as smart cities volumetric urbanism and critical accounting to illustrate the everyday agents and practices that place cities in the world donald mcneill draws on detailed discussions of major cities such as london san francisco paris and singapore to provide a deep understanding of how urban theory can be grounded in the cultural economies of urban development the book reviews the insights of key thinkers such as bruno latour mike davis and jane m jacobs in relation to specific cities highlights methodological and epistemological notes on each theme provides case studies of nine key global cities examined in the context of specific material and spatial practices essential reading for upper level students and researchers across urban studies urban geography urban sociology and urban policy

Handbook of Gentrification Studies 2018 it is now over 50 years since the term gentrification was first coined by the british urbanist ruth glass in 1964 in which time gentrification studies has become a subject in its own right this handbook the first ever in gentrification studies is a critical and authoritative assessment of the field although the handbook does not seek to rehearse the classic literature on gentrification from the 1970s to the 1990s in detail it is referred to in the new assessments of the field gathered in this volume the original chapters offer an important dialogue between existing theory and new conceptualisations of gentrification for new times and new places in many cases offering novel empirical evidence

Fragments of the City 2021-10-05 pursuing fragments pulling together falling apart knowing fragments writing in fragments political framings walking cities in completion

A Geography of Urban Places 2007 presents a selection of readings to offer varied opinions approaches and reports from various international professional journals such as regional science association journal the canadian geographer the annals of the american association of geographers landscape journal of soil and water conservation and land economics

Urban Geopolitics 2017-08-21 in the last decade a new wave of urban research has emerged putting comparative perspectives back on the urban studies agenda however this research is frequently based on similar case studies on a few selected cities in america and europe and all too often focus on the abstract city level with marginal attention given to particular local contexts moving away from loosely defined urban theories and contexts this book argues it is time to start learning from and compare across different contested cities it questions the long standing euro centric academic knowledge production that is prevalent in urban studies and planning research this book brings together a diverse range of international case studies from latin america south and south east asia eastern europe africa and the middle east to offer an in depth understanding of the worldwide contested nature of cities in a wide range of local contexts it suggests an urban ontology that moves beyond the urban west and north as well as adding a comparative relational understanding of the contested nature that southern cities are developing this timely contribution is essential reading for those working in the fields of human geography urban studies planning politics area studies and sociology

A Research Agenda for Cities 2017-03-31 elgar research agendas outline the future of research in a given area leading scholars are given the space to explore their subject in provocative ways and map out the potential directions of travel they are relevant but also visionary this book provides a critical assessment of key areas of urban scholarship in twelve stimulating chapters expert contributors examine a range of important pressing topics from sustainability and gentrification to feminist interventions and globalization to security and food issues six more regionally informed expert reviews examine recent urban research in sub saharan africa south america east asia the middle east australia and eastern europe the chapters provide polemical assessments and signposts for future research the book will be an indispensable and accessible guide to urban research across the globe

Urban Geography in South Africa 2019-08-17 this book embraces south africa and its place in the global south providing a succinct theoretical and empirical analysis and discussion of urban issues in the country there have been sporadic calls from the urban geography community for the development of an overarching and comprehensive text that explores contemporary processes and practices taking place in urban south africa and more widely the global south this is an edited collection of chapters by leading urban theorists and

practitioners working on various themes within urban south africa and serves as a base for scholars and students interested in urban perspectives from countries in the global south

Changing Asian Urban Geographies 2023-06-06 this book investigates changing geographies of fast growing asian metropolitan regions in particular their peripheral areas through examining the intersection of global suburbanisation and asian urbanism the book depicts a complex sub urban world in asia it explains how the forces of globalisation the logic of capital accumulation and the history of rural urban divide and interaction path dependent local institutions and government policies work together to reshape the geographies of asian urbanism touching on social environmental governance and planning aspects of contemporary urban asia the chapters in this volume provide grounded studies of residential relocation and changing rural settlements property development by a congregation of developers political ecologies of water provision middle class consumers and local state agencies transit oriented development and infrastructure finance in peri urban areas it demonstrates an assemblage of actors and coexistence of multiple urban governance regimes with everyday negotiations changing asian urban geographies will be interesting not only to those who wish to know more about asian urban geographies but also to scholars and students wishing to see asian metropolises in a comparative perspective of sub urban dynamics the chapters in this book were originally published in urban geography

Locating Right to the City in the Global South 2013 drawing from scholars with extensive fieldwork experience this volume covers sixteen cities in fourteen countries across a belt stretching from latin america to africa and the middle east and into asia central to what binds these cities are deeply rooted complex and dynamic processes of social and spatial division that are being actively reproduced these cities are not so much fracturing as they are being divided by governance practices informed by local histories and political contestation and refracted through or infused by market based approaches to urban development through a close examination of these practices and resistance to them this volume provides perspectives on neoliberalism and right to the city that advance our understanding of urbanism in the global south

Geography 1973 includes section reviews and other bibliographical material

Transport, Mobility, and the Production of Urban Space 2015-05-01 the contemporary urban experience is defined by flow and structured by circulating people objects and energy geographers have long provided key insights into transportation systems but today concerns for social justice and sustainability motivate new critical approaches to mobilities reimagining the city prompts an important question how best to rethink urban geographies of transport and mobility this original book explores connections in theory and practice between transport geographies and new mobilities in the production of urban space it provides a broad introduction to intersecting perspectives of urban geography transport geography and mobilities studies on urban places of flows diverse international and leading edge contributions reinterpret everyday intersections as nodes urban corridors as links cities and regions as networks and the discourses and imaginaries that frame the politics and experiences of mobility the chapters illuminate nearly all aspects of urban transport from street regulation and roadway planning intended and subversive practices of car and truck drivers planning and promotion of mass transit investments and the restructuring of freight and logistics networks together these offer a unique and important contribution for social scientists planners and others interested in the politics of the city on the move

The Study of Urbanization 1967 this book facilitates more careful engagement with the production politics and geography of knowledge as scholars create space for the inclusion of southern cities in urban theory making urban theory addresses debates of the past fifty years regarding whether and why scholars should conceptualize southern cities as different and argues for the continued importance of unlearning existing theory with examples from the urban question to environmental justice urban infrastructure to basic income this volume highlights the limitations of existing explanations as well as how thinking from the south entails more than collecting data in new places throughout the book instances of juxtapositions unease unlearning and learning anew emphasize how theory making from southern cases can open avenues to more creative possibilities the book pulls theories apart examining distinct components to better understand the universality and provinciality of empirical phenomena causality and norms including questions of what a city is and ought to be this book delivers a clearer articulation of ongoing debates and future possibilities for southern urban scholarship and it will thus be relevant for both scholars and students of urban studies urban theory urban geography research methods in geography postcolonial southern cities and global cities at graduate and post graduate levels

Making Urban Theory 2020-01-20 this book argues that understanding global urbanism in the twenty first century requires us to cast our gaze upon vast city regions without an urban core

The Urbanism of Exception 2017-03-10 this compelling new textbook scrutinizes urban politics through a theoretical and empirical lens to provide readers with a clear understanding of the relationship between political spatial and economic issues on the urban environment taking a truly global analysis the book uses international comparative case studies from cities across the world including london beijing austin and vancouver engaging in style and thorough in its coverage of the key issues this book draws on ideas and theories from human geography politics sociology economics and development

Urban Political Geographies 2012 the new 5th edition of this highly respected and long running text builds and improves upon the successful structure thought provoking writing style and clear presentation of previous editions tracing urban social geography through its theoretical underpinnings to current debates this new edition takes account of recent

critical work while also presenting the foundations and development of the subject it explicitly relates key issues to contemporary cultural and economic life in cities producing coverage that is stimulating relevant and engaging for students key features key questions and concepts for each chapter to help students identify and apply the key themes written in a lively and accessible style designed to enthuse learners to study urban social geography in further depth chapter summaries provide revision and reflection opportunities annotated further reading encourages further investigation highly illustrated throughout with new photographs and informative diagrams and tables extensive glossary of key terms highlighted in the text and elaborated upon at the end new to edition new boxed features identifying key thinkers key debates and key trends new final chapter covering post modernism film and the city and the future of urban social geography key film lists provide pointers for cinematic coverage of urban social geography companion website containing annotated weblinks essay questions and project assignments this text will be essential reading for students of urban geography social geography planning sociology and of key interest more broadly within human geography and the social sciences paul knox is university distinguished professor and dean of the college of architecture and urban studies at virginia tech his recent books include urbanization prentice hall 2005 with l mccarthy and the geography of the world economy routledge 2003 with j agnew and l mccarthy steven pinch is a professor of human geography and deputy head of the school of geography at the university of southampton his recent research has focused on the relationships between knowledge and competitive advantage in the british motor sport industry and has been published in environment and planning geoforum journal of economic geography and regional studies

Urban Social Geography 2006 this extensively revised and updated fourth edition not only examines the new geographical patterns forming within and between cities but also investigates the way geographers have sought to make sense of this urban transformation it is structured into three sections contexts themes and issues that move students from a foundation in urban geography through its major themes to contemporary and pressing issues the text critically synthesizes key literatures in the following areas the urban world changing approaches to urban geography urban form and structure economy and the city urban politics planning regeneration and urban policy cities and culture architecture and urban landscapes images of the city experiencing the city housing and residential segregation transport and mobility in cities sustainability and the city the fourth edition combines the topicality and accessibility of previous editions with extensive new material including many new chapters such as the urban world and politics housing and residential segregation and transport in cities as well as a wealth of international case studies extending its range of coverage across the field this book features enhanced pedagogy including a range of new illustrations and tables a list of key ideas for each chapter end of chapter essay questions and project activities and annotated further reading from books journals and websites written in an engaging student friendly style this is an essential read for students and scholars of urban geography

Urban Geography 2012 originally published in 1990 the isolated city state asks the questions why have the world's major cities experienced explosive growth why does the socio economic status in north america roughly increase with distance from the city centre while the socio economic status in south america roughly decreases what are the reasons behind the sudden decline of some large central cities will recovery if it happens be equally rapid generally to understand the phenomenon simplifications are made which make it impossible to understand other phenomena this major study synthesises a vast amount of theorising and research to provide answers to the major questions of urban geography

Urban Geography 1988 geography in america at the dawn of the 21st century surveys american geographers current research in their specialty areas and tracks trends and innovations in the many subfields of geography as such it is both a state of the discipline assessment and a topical reference it includes an introduction by the editors and 47 chapters each on a specific specialty the authors of each chapter were chosen by their specialty group of the american association of geographers aag based on a process of review and revision the chapters in this volume have become truly representative of the recent scholarship of american geographers while it focuses on work since 1990 it additionally includes related prior work and work by non american geographers the initial geography in america was published in 1989 and has become a benchmark reference of american geographical research during the 1980s this latest volume is completely new and features a preface written by the eminent geographer gilbert white

The Isolated City State 2018-05-20 intergenerational space offers insight into the transforming relationships between younger and older members of contemporary societies the chapter selection brings together scholars from around the world in order to address pressing questions both about the nature of contemporary generational divisions as well as the complex ways in which members of different generations are and can be involved in each other's lives these questions include how do particular kinds of spaces and spatial arrangements e.g cities neighbourhoods institutions leisure sites facilitate and limit intergenerational contact and encounters what processes and spaces influence the intergenerational negotiation and contestation of values beliefs and social memory producing patterns of both continuity and change and if generational separation and segregation are in fact significant social problems across a range of contexts as a significant body of research and commentary attests how can this be ameliorated the chapters in this collection make original contributions to these debates drawing on original research from belgium china finland poland senegal singapore tanzania uganda the united states and the united kingdom

Geography in America at the Dawn of the 21st Century 2005 contributing to new debates and research on the city this handbook looks both backwards and forwards to bring together key scholarship in the field

Intergenerational Space 2015-06-03 this book provides a comprehensive discussion on urban growth and sprawl and how they can be analyzed using remote sensing imageries it compiles views of numerous researchers that help in understanding the urban growth and sprawl their patterns process causes consequences and countermeasures how remote sensing data and geographic information system techniques can be used in mapping monitoring measuring analyzing and simulating the urban growth and sprawl and what are the merits and demerits of available methods and models this book will be of value for the scientists and researchers engaged in urban geographic research especially using remote sensing imageries this book will serve as a rigours literature review for them post graduate students of urban geography or urban regional planning may refer this book as additional studies this book may help the academicians for preparing lecture notes and delivering lectures industry professionals may also be benefited from the discussed methods and models along with numerous citations

The SAGE Handbook of New Urban Studies 2017-05-01 the temporal and spatial intersection of information and telecommunication technologies creative and knowledge economies and related new manufacturing systems has been leading to significant effects on urban socioeconomic and spatial configurations and public policies specifically the post crisis emergence of innovative workplaces to accommodate these changes is creating socioeconomic and spatial features that are only recently beginning to be explored in the scholarly literature according to this scenario this edited book offers a variety of avenues for exploring the relationships between contemporary production activities and new workplaces in several urban contexts in particular it focuses on the consequences of these relationships in terms of regeneration of the urban fabric as well as on their implication in terms of urban policies this book represents early observation of the fast growing phenomenon of new productive activities and workplaces against the background of the gig economy and sharing economy paradigms central to this discussion is the investigation of the connection between digital technologies new works and workplaces and urban change processes and projects by providing an additional contribution to new urban agendas for contemporary cities the chapters originally published as a special issue in the journal of urban technology

Analysis of Urban Growth and Sprawl from Remote Sensing Data 2010-03-03 explores contemporary urban geography using the concept of community links theoretical concepts with empirical experience produces an interpretation of the complex social pattern of european and north american cities through its themes of local social interaction community interaction sense of place planned neighborhoods and caring communities
