*The Spectacular Rise and Catastrophic Fall of Three Liberian Presidents* 2015-07-15 in the tiny country of limbakar there arose a dramatic transformation of the government the first in its history twenty four hours after this gruesome change two private soldiers were attracted by the array of posh cars lined up in the parking lot they took a close look into the cars which had their keys still in the ignitions and their doors unlocked compelled by their curiosity they entered two of the cars the first turned the key and the engine started the second did likewise the first pushed the gear forward while the second pushed the gear in reverse both cars were in motion the first rolled forward while the second rolled backward both cars moved uncontrollably in a merry go round scenario and the bewildered soldiers were unable to manipulate the cars but barked orders at the cars to halt but the cars were not attuned to taking orders the cars only stopped after an explosive crash into the parked cars causing a giant inferno from which both soldiers escaped unhurt the adjutant rebuked the soldiers for their downright indiscipline but they replied the cars disobeyed orders to halt and ought to be court martialed the adjutant ordered the soldiers locked up for life because even their lifetime pay would not cover the restoration of the value of the spectacular posh cars which their irresponsible action has brought to a catastrophe

**The Spectacular Few** 2013-03-11 the madrid train bombers shoe bomber richard reid al qaeda in iraq and the 9 11 attacks all were led by men radicalized behind bars by their very nature prisons are intended to induce transformative experiences among inmates but today s prisons are hotbeds for personal transformation toward terrorist beliefs and actions due to the increasingly chaotic nature of prison life caused by mass incarceration in the spectacular few mark hamm demonstrates how prisoners use criminal cunning collective resistance and nihilism to incite terrorism against western targets a former prison guard himself hamm knows the realities of day to day prison life and understands how prisoners socialize especially the inner workings and power of prison gangs be they the aryan brotherhood or radical islam he shows that while islam is mainly a positive influence in prison certain forces within the prison muslim movement are

aligned with the efforts of al Qaeda and its associates to inspire convicts in the United States and Europe to conduct terrorist attacks on their own drawing from a wide range of sources including historical case studies of prisoner radicalization reaching from Gandhi and Hitler to Malcolm X, Bobby Sands, and the detainees of Guantanamo. A database of cases linking prisoner radicalization with evolving terrorist threats ranging from police shootouts to suicide bombings, interviews with intelligence officers, prisoners affiliated with terrorist groups, and those disciplined for conducting radicalizing campaigns in prison. The spectacular few imagines the texture of prisoners' lives, their criminal thinking styles, the social networks that influenced them, and personal turning points that set them on the pathway to violent extremism. Hamm provides a broad understanding of how prisoners can be radicalized, arguing that in order to understand the contemporary landscape of terrorism, we must come to terms with how prisoners are treated behind bars.

**Going Bigtime** 1996 *Going Bigtime* the spectacular rise of UMass basketball lives up to its name and then some while documenting the extraordinary and rapid ascent of the school's basketball program from among the nation's worst to the Final Four. *Going Bigtime* also covers the entire sweep of UMass basketball history which includes the college careers of Julius Erving and Rick Pitino. Dobrow doesn't ignore the price a bucolic state university pays for going Bigtime: a grades scandal, a brilliant but erratic coach, the infamous John Chaney incident, and a star player taking illegal payments from agents. In UMass's case, primarily Dobrow emphasizes UMass's 1995-96 season, one of the most fascinating in the history of college basketball. Included are non-Paréil profiles of protagonists like national player of the year Marcus Camby, more goldenrod than dandelion, physically, intellectually, and emotionally, he was a late bloomer, and coach John Calipari, the man from Moon, reaching for the stars, as well as many unreported moments and anecdotes from that near-championship season. When John became UMass basketball coach in 1988, he inherited one of the country's worst programs. When he left in 1996, the minutemen were America's darlings.

**It's Not TV** 2022-11-01 A read so riveting it's not hard to imagine watching it unfold on Sunday nights. The Associated Press' incisive account that is more than a rosy victory lap for one of TV's most influential channels. Eric Deggans' NPR's *Books We Love* the inside story of HBO, the startup company that reinvented television by two veteran media reporters. HBO changed how stories could be told on TV: *The Sopranos*, *Sex and the City*, *The Wire*, *Game of Thrones*. The network's meteoric rise heralded the second golden age of television with serialized shows that examined and reflected American anxieties, fears, and secret passions through complicated characters who were flawed and often unlikable. HBO's own behind-the-scenes story is as complex, compelling, and innovative as the dramas the network created, driven by unorthodox executives who pushed the boundaries of what viewers understood as television at the turn of the century. Originally conceived by a small upstart group of entrepreneurs to bring Hollywood movies into living rooms across America, the scrappy network grew into one of the most influential and respected players in Hollywood. It's not TV; it's the deeply reported, definitive story of one of America's most daring and popular cultural institutions, laying bare HBO's growth, dominance, and vulnerability within the

capricious media landscape over the past fifty years through the visionary executives showrunners and producers who shaped hbo seasoned journalists gillette and koblin bring to life a dynamic cast of characters who drove the company's creative innovation in astonishing ways outmaneuvering copycat competitors taming hollywood studios transforming 1980s comedians and athletes like chris rock and mike tyson into superstars and in the late 1990s and 2000s elevating the commercial free serialized drama to a revered art form but in the midst of all its success hbo was also defined by misbehaving executives internal power struggles and a few crucial miscalculations as data driven models like netflix have taken over streaming hbo's artful instinctual and humanistic approach to storytelling is in jeopardy taking readers into the boardrooms and behind the camera it's not tv tells the surprising fascinating story of hbo's ascent its groundbreaking influence on american business technology and popular culture and its increasingly precarious position in the very market it created

only subversive but also adaptive through extensive fieldwork almutawa herself an emirati native to dubai finds a more nuanced story of belonging this story does not seek to uncover the real city that lies beneath the veneer of the spectacle but rather to demonstrate that social meanings and forms of belonging take place within the spectacle itself by offering an alternative to the discourse of authenticity and elucidating the dynamics of ambivalent belonging almutawa belies stereotypes that portray dubai s developments as alienating and inherently disempowering everyday life in the spectacular city speaks beyond the middle east to a globalized phenomenon for dubai s spectacles are unexceptional in today s changing world
