Putting Psychology in its Place 2022-07-19 this fourth edition of putting psychology in its place builds on the previous three in introducing the history of psychology and placing the discipline within its historical and social contexts written by esteemed psychologists graham richards and paul stenner this crucial text aims both to answer and raise questions about the role of psychology in modern society by critically examining issues such as how psychology developed and why psychoanalysis had such an impact it discusses enduring underlying conceptual problems and examines how the discipline has changed to deal with contemporary social issues such as religion race and gender the fourth edition features revised and updated chapters though the core structure remains unchanged the final chapter has been restructured and jointly re written this text was written to remain compatible with the british psychological society requirements for undergraduate courses and is imaginatively written and accessible to all putting psychology in its place is an invaluable introductory text for undergraduate students of the history of psychology and will also appeal to postgraduates academics and anyone interested in psychology or the history of science

The Oxford Handbook of Emotion, Social Cognition, and Problem Solving in Adulthood 2014-03-20 over the last decade the field of socio emotional development and aging has rapidly expanded with many new theories and empirical findings emerging this trend is consistent with the broader movement in psychology to consider social motivational and emotional influences on cognition and behavior the oxford handbook of emotion social cognition and problem solving in adulthood provides the first overview of a new

field of adult development that has emerged out of conceptualizations and research at the intersections between socioemotional development social cognition emotion coping and everyday problem solving this field roundly rejects a universal deficit model of aging highlighting instead the dynamic nature of socio emotional development and the differentiation of individual trajectories of development as a function of variation in contextual and experiential influences it emphasizes the need for a cross level examination from biology and neuroscience to cognitive and social psychology of the determinants of emotional and socio emotional behavior this volume also serves as a tribute to the late fredda blanchard fields whose thinking and empirical research contributed extensively to a life span developmental view of emotion problem solving and social cognition its chapters cover multiple aspects of adulthood and aging presenting developmental perspectives on emotion antecedents and consequences of emotion in context everyday problem solving social cognition goals and goal related behaviors and wisdom the landmark volume in this new field the oxford handbook of emotion social cognition and problem solving in adulthood is an important resource for cognitive developmental and social psychologists as well as researchers and graduate students in the field of aging emotion studies and social psychology

Cello, Bow and You: Putting it All Together 2016-09-09 written for the cellist looking for an approach that demystifies cello playing cello bow and you is an innovative text in the field of string pedagogy written by a 40 year veteran of the new york philharmonic orchestra and certified teacher of the alexander technique author evangeline benedetti has a unique voice and approach and invites cellists of all levels to explore make discoveries and organically internalize technique benedetti s approach compliments the work that students do with their teachers by encouraging them to be more aware of themselves and responsive to internal and external guidance cello bow and you allows students and professionals access to benedetti s vast performance and teaching experience she has pioneered an approach to playing that is a synthesis of the cellist s musical thought the knowledge of the dynamic properties of the instrument and bow and the ability to move effectively according to the mechanics of the human body the synergy of these elements leads to physically healthy playing and frees players to be musically expressive written in engaging informal prose the book is a must read for cellists and cello teachers beginning intermediate or professional

Passions and Emotions 2013 throughout the history of moral political and legal philosophy many have portrayed passions and emotions as being opposed to reason and good judgment at the same time others have defended passions and emotions as tempering reason and enriching judgment and there is mounting empirical evidence linking emotions to moral judgment in passions and emotions a group of prominent scholars in philosophy political science and law explore three clusters of issues passion impartiality passions emotions in moral judgment passion motivation passions emotions in democratic politics and passion dispassion passions emotions in legal interpretation this timely interdisciplinary volume examines many of the theoretical and practical legal political and moral issues raised by such questions

On Redemption, the Value of Putting Bad Things to Good Use 2011 this dissertation offers a theory of a solution to the problem of lost meaning in life due to regrettable past events each of us wishes for a meaningful life but each of us too is vulnerable to threats to the meaning in life the dissertation argues that a phenomenon called redemption can restore lost meaningfulness and increase the value of our lives overall the first step in the argument is to demonstrate the need for a new model of redemption the next step is to argue that redemption is a matter of transforming the meaning of events in our lives from bad to good in a thick eudaimonistic sense related to a person s well being finally i show that this transformation not only increases a person s well being but more importantly changes the relationship a person has with his past by satisfying conditions for meaningfulness a special value a life can have distinct from its moral goodness or happiness redemption renders the past more meaningful that it would have otherwise been because of this redemption can solve the problem articulated in the beginning of the dissertation the problem of lost meaning in life due to bad past events

Creating Emotion in Games 2004 master the future in game development and design by learning how to create emotional immersion in games known as emotioneering packed with 150 hands on techniques that can be applied immediately to any game in development author is highly sort after and works with companies including microsoft sony activision and midway and also speaks regularly at the game developers conference and dice foreword by wil wright the creator of the sims

The Emotions and the Will 1888 this timely book aims to change the way we think about religion by putting emotion back onto the agenda it challenges a tendency to over emphasise rational aspects of religion and rehabilitates its embodied visceral and

affective dimensions against the view that religious emotion is a purely private matter it offers a new framework which shows how religious emotions arise in the varied interactions between human agents and religious communities human agents and objects of devotion and communities and sacred symbols it presents parallels and contrasts between religious emotions in european and american history in other cultures and in contemporary western societies by taking emotions seriously a sociology of religious emotion sheds new light on the power of religion to shape fundamental human orientations and motivations hopes and fears joys and sorrows loves and hatreds
