the book is based on a therapy used by more than 170 soviet and russian medical doctors according to their clinical observations and hundreds of western studies low body oxygenation is the key factor that promotes cancer these observations resulted in a unique clinical trial on cancer patients organized by one of the ukrainian physicians who applied the buteyko method on 120 people with metastatic cancer the book doctors who cure cancer provides detailed analysis of the method since this is the most successful clinical trial in the whole history of cancer research the tested cancer therapy was based on breathing retraining or teaching patients how to breathe in accordance with medical norms days and nights here are some details of this trial early metastatic cancers are deadly but even these cancers can be cured for early stages of metastasis the typical 3 or 5 year survival rate is usually about 70 80 in this astonishing published clinical trial the survival rate in the control group was about 76 but 96 of people in the main group which practiced breathing exercises to increase body oxygenation in addition to standard medical therapies survived therefore this self oxygenation technique naturally reduced mortality almost 6 times there were only 2 people in the experimental group who died but both had serious additional health problems heart disease and diabetes but all those who had only cancer survived this can be the most powerful natural cancer cure used by doctors can we cure cancer naturally the trial was published in ukrainian oncology journal kiev this self oxygenation method has been used by more than 160 soviet and russian medical doctors on over 200 000 patients many of whom had cancers prior to this clinical trial these soviet and russian mds tested hundreds of people with cancers and found that all of them had heavy breathing pattern with low results for the diy body oxygen test these doctors discovered that dynamic of cancer stalemate metastasis or regression of tumors depends on breathing patterns and body oxygenation they developed a program for cancer treatment that is based on simple breathing exercises and lifestyle changes breathing parameters in people with cancer several western studies described in this book measured minute ventilation respiratory frequency and end tidal co2 in people with cancer all these medical publications found that virtually each and every person with cancer breathed about 2 times more air per minute than the medical norm had very low exhaled co2 content about 2 times less for people with metastasis had increased respiratory rate at rest up to 30 40 breaths min instead of normal 10 12 breaths minute this is called hyperventilation or breathing more than the medical norm overbreathing according to hundreds of clinical studies reduces o2 levels in body cells review of other breathing therapies for treatment of cancer apart from the buteyko breathing method used by more than 150 doctors this book reviews other self oxygenation techniques and breathing exercises that increase body oxygenation the book suggests that people can cure cancer naturally if they normalize their automatic breathing and achieve about 40 seconds for the simple diy body oxygen test

in this book the authors make extensive comparison between medical treatments and health optimization methods an improved mind body model in order to determine their relative and true benefits for cancer patients for the health optimization method they examine its use history acceptance and performance throughout its history and for medicine they examine medical treatment history leading cancer theories standard of care formation formation of legal frameworks and overwhelming performance data we could find from the massive medical literature we can show with irrefutable evidence why medicine cannot cure cancer and what role it is actually playing the book 1 discloses a systematic methodology for curing cancer in confidence 2 extensively discusses how to do right things to win a speed contest in fighting cancer 3 extensively discusses how to do right things to control cancer cell population a critical strategy for survival 4 provides detailed analysis of fatal common mistakes that have taken nine of ten cancer patient lives 5 exposes flaws in the cancer treatment models medical research model the foundation of medicine and 6 conduct a detailed analysis of four killer factors which are routinely found in nearly all cancer care the approach used to similar to one used in health optimization engineering a new branch of health art the book teaches the decisive roles of speed number and multiple factors and how to fight cancer by using a two way optimization methodology those three terms and optimization method are not mentioned in medical books cancer research articles and are not part of the language used in hospitals our simulation and our kinetic studies show that both cancer development and reversal processes would take many years the rates of reversals for cancer and all chronic diseases are so slow that medicine cannot accurately evaluate this is why medicine cannot recognize or refuses to acknowledge any cure that requires half a year to several years to accomplish the approach we use in this book is directly in conflict with three core concepts in medicine dualism reductionism and population based approach moreover we found that medical treatments can partially neutralize and totally nullify the curative benefits of our optimization method based on our own findings and the results from reanalyzing massive existing medical publications we inevitably found that medical treatments are primarily responsible for creating the cancer panic and the treatments shorten lives in a super majority of cases we try to analyze every issue in the most comprehensive way our analysis covers medical model and its legal framework leading cancer theories treatment development histories formation of standard of care control selections in drug trials the massive cancer controversies and mountains of actual performance data the most convincing evidence is the performance verdicts by recent medical studies and latest meta reviews we try to built a watertight case that precludes any of those arguments that have been made by proponents of the reductionist medical model

i cure cancer say it because only you can cure your cancer say i cure cancer how do you cure cancer cure your acidosis and kill your pathogens dr bernardo was treating cancer patients for 50 years with this alkaline balancing protocol with a 90 success rate this book has his protocol and many experts to back it up i cure cancer debuted in 2006 as a movie in ny it explains for curing cancer natural healing is the only way go holistic get alkaline you don t die of cancer you die of acidosis my info isn t to replace your doctors it s to add to your arsenal i m just a filmmaker that being said these days going to your doctor is not enough due to the fact that the medical business is just that a business therefore it offers only those treatments that are lucrative for the medical industry those treatments have a dismal long term remission rate and they are only a tiny slice of what s available for treating cancer and what has worked for other people therefore if you want to make sure you are doing everything you can to cure your cancer and if you are willing to take responsibility for your own life you must not only go to your doctor but also do your own research in order to learn about options that could either complement or replace conventional western methods chemotherapy radiation and surgery these methods work for some but also have serious and sometimes fatal side effects i am not a doctor nor am i offering a cure to anyone the i in i cure cancer refers to you the person who is logging on to the site in search of information regarding what other fellow human beings have done in battling this horrendous disease in short as with any matter of importance dealing with one s well being the first step is in taking responsibility for one s self to gather as much information on the subject as possible in order to make educated assessments on what would work best for them i made the film because as an actor in hollywood it was the next viable venue for me to express what i had to say as a spirit on this planet regular movies weren t cutting it reading someone else s lines weren t my thing i wanted to say my own lines so i did through other people i interviewed them to tell my story in this documentary it was that cancer was curable if you went holistic i realized the movie had to be made into a book i had to show the world what i found and include a basic do it at home holistic health program via dr bernardo majalca so here you go everything in one book for your cancer healing journey if you are in a hurry skip to chapter 6 read dr b s story then do the protocol in chapter 7 it takes 3 months to a year and a half sometimes to get your ph balanced once you do the cancer dies bernardo would say if your ph is 7 to 7.4 for 3 months straight you are cancer free because cancer can not live in an oxygenated body disclaimer we are not doctors just regular people not trusting rockefeller western medicine sharing our insights only you can cure your cancer so say it say icurecancer i hope this book helps you i worked hard on it good luck and god bless peace ian jacklin

Cured My Cancer *2011-10-19*

i was rapidly dying from stage 4 liver cancer metastasized into my pancreas and left kidney my body was shutting down and i was sick and weak faced with a certain death my wife and i were researching to find something anything to get this mess out of me we researched all over the world examining each treatment and mainly the cure claim percentage rate we bought books and books but most were simply repeats of various alternative protocols and no doubt many worked however the highest survival rate of anything we found for me at my late stage 4 multi organ cancer was a strong combination of salves an amazing drawing salve and a powerful antibiotic salve these salves were used with an astounding success rate in some societies and were available in the usa through american indian formulas we read everything we could on the salves and weighed this against all other

treatment methods since the salves were used in some countries as a cancer treatment and we had networked with many that used the salves with success we prayerfully considered all information and were convinced we had the right thing so my wife and i went forward uncertain and somewhat fearful we applied the salve on a spot on my back that had itched for years the next day i had a black opening that was nickel size the photo on the left is about 3 1 2 weeks into my cancer extraction using the salves the salve advanced into my body drawing pints of dissolved cancer cells in just 7 weeks the right photo was the start of the 7th week and some dead cellular sludge was still seeping but healing had begun although the opening looks horrendous the discomfort was tolerable and i had no pain management i basically continued a low level normal life during the process tissue and skin took an additional time to grow in but finally did resulting in complete healing as you ll see in our booklet since extracting my cancer ct scans and live blood analysis with darkfield scope all show my cancer is gone i am gaining strength back slowly since my organ damage was extensive but i m alive and well we kept a record of everything and decided to share our healing experience since people who knew about what we did were amazed and encouraged us to do this story as an educational tool our booklet tells what we learned and where we got our information so you can research it yourself our story is incredible and simply to demonstrate there is another side of the cancer issue unknown to most people we learned that our living the american dream exposed me to foods saturated with chemicals and preservatives death dealing fast food poisons everywhere and incredible mental and emotional stresses the toxic medications i took for these lifestyle problems never addressed the root causes i suspected the war on cancer was lost by standard medicine but didn t know i was pushing myself to the very thing that killed family members and dear friends this educational booklet should be of great interest since so many lives and families are devastated by this apparent life style triggered epidemic nearly everyone can learn the answers we did and make informed and knowledgeable decisions about what to believe but it s your business we offer little criticism of standard oncology practice since others do a better job but show you my personal story and that of others who are cancer free by taking charge of our personal health please read the booklet since we ve found some things you may want to know my personal story with progress photos about surviving major multi organ cancer some reference of verified world wide use of the treatments i used and protocols others used why some societies treat cancer as a routine health issue see why this educational booklet is so unique some photos of breast and other cancer extraction they are amazing

Novel Approach to Curing Cancer *2019-08-29*

this book was first published around the time that authors dr jianqing wu and dr ping zha first proved the flaws in the foundation of medicine and discovered the deep secrets of immune functional capacity dynamics in this book they make extensive comparisons between medical treatments and health optimization methods to show why current cancer treatment model is deeply flawed and cancer patients died from misused treatments and high stress caused by failure of medicine the book 1 discloses a systematic methodology for curing cancer in confidence 2 discusses how to do right things to win a speed contest in fighting cancer 3 discusses how to do right things to control cancer cell population a critical strategy for survival 4 provides detailed analysis of fatal common mistakes that have taken nine of ten cancer patient lives 5 exposes flaws in the cancer treatment models medical research model the foundation of medicine and 6 conducts a detailed analysis of four killer factors which are routinely found in nearly all cancer care their studies found that if n factors are used to fight cancer it would be n times more powerful than using one single factor of similar strength they also found that the symptoms based side effect evaluation method is deeply flawed because a drug can ruin half organ function reserve without causing any symptom they found medicine has failed to predict long term side effects in all product liability cases they show with irrefutable evidence that

drugs are wrong approach to cancer claimed benefits are results of artifacts of flawed clinical trials flawed side effect study method and biases from the monetary incentive to promote cancer drugs the nominal benefit to risk ratios of cancer drugs are larger than their real ratios by two to several orders of magnitudes cancer is actually a common sign that human genes are unable to adapt to current environment a large number of factors affect cancer growth speeds in a quantitative manner cancer growth speeds are influenced by hundreds to thousands of factors cancer is not a disease that can be cut off or eradicated with very few exceptions thus they found that the best approach is slowing down cancer growth speeds and make growth speeds negative thus how long a cancer patient can survive depends on how fast his cancer grows on each day this ultimately depends on how efficiently his immune system can correct abnormal cells and eliminate cancerous tissue their latest studies crack the deep secrets of cancer natural resolution which has been found for all types of cancer cancer must shrink and disappear if its growth speeds are made negative by altering one several or a large number of life factors the battle against cancer must focus on three terms speed number and multiple factors the authors proved that cancer growth speeds depend on three classes of factors cause related factors factors that can depress immune functional capacities and seemingly unrelated factors the seemingly unrelated factors become part of the cure because they can affect immune functional capacities and organ functional capacities they can alter outcome and even make decisive differences cancer patients by several mechanisms that were not appreciated before they sincerely hope that their discoveries can help patients to dispel voodoo spell an essential element for defeating cancer

in 2013 ann cameron cured stage 4 colon cancer without chemotherapy or radiation by drinking carrot juice since then others with a variety of cancers have reported similar successes cameron wanted to find out why such an apparently simple cancer cure just carrots works based on her extensive reading in scientific journals focused on nutrition and cancer her ground breaking book describes the details of the carrot treatment and the scientific evidence for its power in this book she shares little known research that is revolutionizing scientific thinking about cancer and how to treat it the research comes from the exciting new field of epigenetics the study of how chemical switching mechanisms in our bodies change the expression of our genes our environment the foods we eat and the way we live can silence pro cancer genes or turn them on set anti cancer genes on alert or turn them off genes aren t our destiny neither is cancer cancer develops when the body loses its ability to recognize and eliminate rogue cells cells that take over the body if they don t quit dividing in some cases probably many carrots can restore the body s natural power to regulate growth and kill

defective cells the scientific information in this book could be a life saver and a beacon of hope for you or someone you know equally helpful it offers the practical knowledge cameron gained from her journey through cancer and back to health how to use the internet to research proposed treatments and the quality of hospitals and doctors how to reduce the cost of cancer care and how to arrive at individual treatment decisions that are best for you

criticism of conventional medicine is often regarded as a product of the 1960s before then scientific medicine enjoyed uncontestable cultural prestige with kindly but strict doctors wielding unquestioned authority over grateful patients while quacks flogged dubious remedies to the poor and credulous or so go popular perceptions and for the most part received scholarly wisdom but the very nature of cancer mysterious capricious and deadly challenged medical authority in the past as much as it does today and in negotiating disease barbara clow lays to rest old assumptions about the monopoly of health care by doctors in the first half of the twentieth century her detailed analysis of popular beliefs and behaviours reveals the compelling logic of personal decisions about health and healing experience and expectation not fear and ignorance shaped the health care choices of both cancer sufferers and the healthy public a close examination of three unconventional practitioners in ontario demonstrates the importance and vitality of alternative medicine by presenting treatment options that were congenial and plausible to cancer sufferers these healers contested the authority of

conventional medicine an investigation of government cancer care policy particularly the activities of ontario s commission for the investigation of cancer remedies exposes the difficulties of defining legitimate health care and the limits of state support for the medical profession this is ultimately a book about who held power in medical encounters in the past with masterful assurance and a highly readable style clow portrays the disputes between sufferers and healers practitioners and politicians and legislators and laity that coloured perceptions of medical authority and constrained the power of the profession
