policing the police is a sequel to my earlier book policing for the new age most of the articles of the present book were already published in various newspapers including the hindu the indian express the times of india and deccan herald and various periodicals and journals like alive and the indian journal of criminology and criminalistics all those articles are reproduced in this book as in the original publications with the names of the respective newspapers periodicals and journals indicated some of the responses from the readers to the original publications are also reproduced at the end of the respective articles i gratefully acknowledge the contribution of the editors of each of these newspapers periodicals and journals especially the hindu the indian express and alive in producing this work and also those readers who responded to the articles through the columns of the newspapers and periodicals care is taken to emphasise certain core aspects of the discussion and analyses by figuring them in more than one article depending on the importance to convey across ideas with right emphasis it is hoped that this exercise adds to the value and usefulness of the book for the gargantuan size of the police organisation in india and the key role of policing in governing the country the number of books written on this subject is absolutely exiguous most of the available books are commonplaces hardly laying claim on originality creativity imagination or insight the problems in the field they are mostly repetitions of the obvious rendering reading a boredom in this sense policing the police marks a departure from the lot and can be called as a rare work very few people are privileged to have a keek to the complexities of the police as an organisation and the policing as a process lack of transparency insulates police and policing from the public left to its own fate complacency is eating up the vitals of the police police will die a slow death unless somebody comes out ab intra and identifies the cancerous growth for surgery the core problem areas include defective selection and recruitment unsound training and unhealthy job culture other maladies like corruption misplaced loyalties and lack of professionalism flow out of these core problems on the final analysis the problem areas boil down to one specific morbidity that is utterly incompetent selection and recruitment process at higher levels by the upsc other problems flow from this single mishandling blaming the system or the values is an exercise in futility for the simple reason that system and values are the creation of the people at the top equally

hollow is the claim that no right persons of unimpeachable character are available for selection to key slots in the one billion population of the country after independence why this atrophy after independence what is the panpharmacon for the malady the book addresses such problems with clarity and vision police police the people who police the police how the answer lies in policing the police policing the police involves self policing this work delves deeply on this core aspect of policing and lays bare the extant indian police setup sheath by sheath with the precision of a master surgeon only to rebuild it from the scratches with the right essence of professionalism commitment and zeal a valuable reference for understanding the pathology and the epinomic dynamics with which the present indian police suffer and identifies likely solutions for its redemption the book stands out for the highest regard it holds for policing as a profession and the paracute critique it makes of its practices in india the upsc also comes under its critical gaze for its dull writted peformance

processes carlson explores the ways police talk about guns and how firearms are regulated in different parts of the country examining how organizations such as the national rifle association have influenced police perspectives she describes a troubling paradox of guns today while color blind laws grant civilians unprecedented rights to own carry and use guns people of color face an all too visible system of gun criminalization this racialized framework undergirding who is a good guy with a gun versus a bad guy with a gun informs and justifies how police understand and pursue public safety policing the second amendment demonstrates that the terrain of gun politics must be reevaluated if there is to be any hope of mitigating further tragedies
